POWER MART '01
October 15-18, 2001 Houston, TX
George R. Brown Convention Center

This year, Power Mart ignites the energy market. Don't miss this opportunity to learn about the latest energy issues as well as network with industry peers to give you the market edge.
Featuring
ARTHUR LEVITT
Former Chairman, Securities and Exchange Commission
 In-Depth Workshops
 Power Cup Golf Tournament
 Vegas Night
 Win a Harley-Davidson? at Trader's Happy Hour--
 Sponsored by TXU
New in '01! Natural Gas Workshop Track Included
The Power Mart Conference has been divided into a series of in-depth workshops to focus on key issues in electric power, natural gas, and emerging markets. You'll be able to customize your program to fit your own agenda by picking from workshops such as:

The Outlook for the U.S. Electric Transmission Business: Three Scenarios

Understanding and Maximizing Auctions

<http://public.resdata.com/htmlmail/bullet.gif>
Bull or Bear? How to Identify Market Turns Using Technical Analysis

<http://public.resdata.com/htmlmail/bullet.gif>
Regional Roundup: Four-Market Analysis

<http://public.resdata.com/htmlmail/bullet.gif>
Weather, Prices, and the Market

<http://public.resdata.com/htmlmail/bullet.gif>
New Gas Pipeline Services: Will the Market Embrace These New Ideas?

<http://public.resdata.com/htmlmail/bullet.gif>
Risk Management in a Volatile Gas Market

<http://public.resdata.com/htmlmail/bullet.gif>
The Bandwidth Revolution: Where Are We Today?

<http://public.resdata.com/htmlmail/bullet.gif>
Online Commodities Trading: Public Versus Private Exchanges

<http://public.resdata.com/htmlmail/bullet.gif>
First Market Trends and Strategies: Risk Management

<http://public.resdata.com/htmlmail/bullet.gif>
Where, When, and What Generation Capacity to Build

<http://public.resdata.com/htmlmail/bullet.gif>
How to Make the Most of the Expanding Pipeline Grid

<http://public.resdata.com/htmlmail/bullet.gif>
Traditional Reservoir Storage Versus High-Deliverability Storage Options

<http://public.resdata.com/htmlmail/bullet.gif>
Valuing Generation Assets Under Air Regulations

Michelle,

Per our earlier conversation, Burlington Resources agrees to purchase 20,000 of Ignacio/Blanco space for the month of November at $.05. We also agree to purchase 10,000 of Ignacio/Blanco capacity for December at $. 05. We will purchase this capacity using EOL. Thank you.

Julie Reames

Michelle,

PPL EnergyPlus requests 10,000 dth of available West Texas receipts to supplement the 4265 dth already allocated as part of its contract 27641 for a
total of 14265. Please forward any documentation for our execution. Thanks for
you assistance in this matter.

Best Regards

David Smith

Western executed 10,000 MMBtu/d of Blanco to Thoreau capacity effective June 2002, as an additional source of supply for their Red Rock expansion contract. The capacity is for 15 years at the maximum rate, generating $5.6 million in demand charges.
Sold two packages of stranded firm transportation to Burlington Resources from LaMaquina to Blanco for November and December at $0.05 plus fuel, which gives TW an incremental revenues of $45,500 not already in plan.
These transactions were executed through EnronOnLine.

We have established a new FT in CBS (CR 27698) to track capacity availability due to the Red Rockl Expansion. We would like to execute the agreement in CBS so the volumes can be sent to CAS.

Please note this contract is for administrative purposes only and should not be invoiced and should not be included in any reporting. If there are no concerns, I will activate this contract tomorrow morning (10/30/01).

Subject: How to prepare your expense report

Message-ID: <HHHYZ2J0KXBGXNI3EKFHQLT2CZYY3CWZA@zlsvr22>

Folder: Top of Personal Folders/lokay-m/MLOKAY (Non-Privileged)/Systems

Important Instructions for Sending in Expense Reports:

· Prepare your expense report.

· Once completed, click on the print button at the top.

· A box requesting you to select the appropriate type of report will be displayed. Select either Receipt Report or Detail Report based on the following specifications:

1. Receipt Report - This report must be printed and sent to accounting. This report has a bar code on it that is needed for the accounting department to scan in your report. It also tells you which receipts must be sent in with the receipt report.

2. Detail Report - Do not send this report to accounting (it has no bar code). This report is more appropriate for the traveler or the person that prepares the report in case they would like to keep a paper copy.

· Once you have printed the receipt report and attached the receipts, you must send all expense reports in the white A/P envelope with the open slot at the right hand corner (the bar code must be seen through this slot).

**If you follow these instructions when sending in your expense reports, the receipts will be scanned much more quickly. If you do not use the correct envelope or do not send the correct report, it will significantly slow down the process.

For some reason, the eRequests that you filled out never made it to EnronOnline. Please re-submit your request following the instructions on the attached document. Remember that you need to specify what applications you need user ids and passwords to access (example: external website-EnronOnline, Citrix Terminal Server Client, reports access).
Call me at x-53854 if you have any questions.
Carl

Message-ID: <LPBVV3RFJEB4WOUA4QTFRYBBCENSTEFCB@zlsvr22>
Folder: Top of Personal Folders/lokay-m/MLOKAY (Non-Privileged)/Systems

We have made the following modifications to the EnronOnline applications.

Stack Manager Changes

Fill Order Enhancements - (Effective Tuesday September 25)
· To fill a Top of Stack order in Stack Manager, Right click on the pink shaded order in the depth window of Stack Manager and select fill.
· The trader now has the ability to fill limit orders that appear at the top of the trader's stack on both sides.
· The order will now be filled at the full order volume regardless of the trader's stack volume.
· Filling an order will not move the trader's price or cause a hedge to occur.

Resize floated stack windows- (Effective Tuesday September 25)

You will now have the ability to resize the stack window to the desired extent.

Website Changes (Effective Monday September 24)

Limit Order Restrictions on Physical Transactions -
· Customers will not be allowed to transact with themselves on physical transactions. If a top of stack limit order has been placed on a physical product the counterparty or desk that placed the order will not be allowed to transact on it.
· If a customer or desk has top of stack limit orders at different

prices on both the bid and offer and subsequently moves the price of one so that they are at the same price, both orders will be cancelled. The customer would have effectively transacted with himself.

Please call me if you have any questions. Thanks.

Savita (X 31787)

All LIM MIMIC & Excel Add-in Users within Enron,

This past week LIM software was upgraded to reflect LIM latest versions. If you are experiencing problems with MIMIC or the XMIM Excel Addin, please restart your machine for the latest changes to take effect, then follow the instructions for your specific application.

MIMIC:

Under Start > Programs > Business Applications > LIM, Use the latest MIMIC version which is MIMIC 1.2.7

Excel Addin:

Please reinstall your add-in, running the XMIM Excel User (installation) under Start > Programs > Business Applications > LIM

If problems persist, please contact the Enron - LIM Helpdesk at extension 33923 or 713-853-3923.

During our Envision training session the question came up as to whether or not we can send documents to our customers from Envision via Email.

After working with Sylvia Thomas, the answer is yes and no. Yes, we can get documents form Envision to the customer easily. No we can't do it through Email.
Sylvia and her team, however, are going to look into the possibility of being able to send information from Envision securely through Email.

In the meantime, you can fax information directly from Envision to your customer. Directions are attached. If you have any questions or problems, feel free to call.

This is a reminder of Enron's Email retention policy. The Email retention policy provides as follows:

Message Location - Maximum Retention
Inbox - 30 days
Sent Mail Folder - 30 days
Trash/Deleted Items - Rollover from Inbox for one day
Folders - All Email messages placed in folders will be destroyed after one calendar year. This includes public folders in Outlook.

Furthermore, it is against policy to store Email outside of your Outlook Mailbox and/or your Public Folders. Please do not copy Email onto floppy disks, zip disks, CDs or the network. Such actions are prohibited and will not be supported by the IT Department.

There will be no exceptions to this policy.

Subject: Supported Internet Email Addresses
Message-ID: <LXSYVPSEGVXLYZD2D3C2Q0OFVYVVRCGDA@zlsvr22>
Folder: Top of Personal Folders/lokay-m/MLOKAY (Non-Privileged)/Systems

Enron Global Technology is in the process of decommissioning the support for all non-standard Internet Email address formats. The only Internet Email address format that will be supported, once this effort is completed, is firstname.lastname@enron.com. We will no longer support Internet Email address formats such as name@enron.com, name@ect.enron.com, name@ei.enron.com (where "name" is an abbreviation, acronym or alternative to an employees firstname and/or lastname). Every Enron employee has an Internet Email address of firstname.lastname@enron.com and must begin making the necessary arrangements to start using this Internet address format if they are not using it already.
Any new/existing application systems or business cards that reference a non-supported Internet Email address will need to be changed to reference the only supported firstname.lastname@enron.com Internet address format. It is important to remember to also notify any external contacts who are currently sending Internet email to any non-supported Internet Email addresses.
To determine what your supported Internet Email address is, take your name as it appears in Outlook or Lotus Notes and replace any "spaces" that appear in your name with periods and append @enron.com. For example in Outlook, Alan Smith, Robert (firstname = Robert, Lastname = Alan Smith) will have a supported Internet Email address of robert.alan.smith@enron.com.
IMPORTANT : If you need to update your business card(s) to reflect your supported Internet Email address, please ensure you test & confirm the delivery of Internet email to your supported email address prior to updating your business cards. If you experience any issues with delivery of Internet email to your supported Internet email address, please contact the Resolution Center.
We will communicate further details, including the cut-off date, in the coming weeks. Meanwhile, it is imperative that you begin making the

necessary arrangements to change over to using the firstname.lastname@enron.com Internet Email address format. If you have questions regarding this email, send an Email to enron.messaging.administration@enron.com.
Thank you for participation, cooperation and support.
Enron Messaging Administration

Michelle,
Our True-Quote rep is Kelly Stroud at 713-350-1008. If Jim wants to call her to find out some info, he can tell her he got the number from Calpine. I have only met Kelly Stroud a couple of times and she will remember me because I was taking motorcycle classes when I met her and she used to ride bikes.
Good Luck
Lisa

Subject: An Opportunity to Change Your Electricity Provider
Message-ID: <FKTLNRXTQJAMZVYKVVC3W4ANEXCGJC4HA@zlsvr22>
Folder: Top of Personal Folders/lokay-m/MLOKAY (Non-Privileged)/Personal

Electricity Deregulation is coming to Texas!
What a great way to start off the New Year - to be able to choose your electricity provider, which could mean potential savings for you and your family on your electric bill. As you know, Enron has been a leader in lobbying for deregulation and a consumer's right to choose energy providers.

For the first time in our state's history, 5 percent of Texas households will have this golden opportunity. The NewPower Company (NewPower), which is approximately 45 percent owned by Enron, was recently formed to provide energy and energy-related services to residential customers in deregulating energy markets across America, including Texas. For a limited time, Houston-based employees will be eligible to participate in NewPower's pilot program offering their deregulated electric service.

Be Among the First to Participate:
Enrollment with NewPower begins March 12. Also, watch for a special Enron Employees Exclusive offer on your desk March 12. If you would like more information about NewPower, visit the company's web site at www.newpower.com

Disclaimers:
Any contract for goods or services that is entered into by an Enron employee with respect to the NewPower program shall be solely between NewPower and such employee. Enron assumes no obligation on behalf of NewPower and makes no representations, warranties, or guaranties with respect to NewPower, or any goods or services offered or provided by NewPower.

Dear Michelle,

Thanks beary much for scheduling your group's celebration at Build-A-Bear Workshop! A party with approximately 12 guests will last around 1-1½ hours. August 11, 2001 is available at 4:00pm! A receipt and confirmation letter will be mailed to you beary soon. Your $50.00 deposit will be deducted from your total on the day of your visit, and you will pay the remaining balance on that day.You may cancel your party 24 hours prior for a full refund, or for your deposit to be applied to another date.
On the day of your visit our party coordinator will meet with you at the front of the store. Please let him/her know your price limit before the party begins. You can determine the cost of your party by whatever you choose to have your guests make. Our bears range in price from $10 - $25 and additional options, such as sound or clothing, are available at reasonable prices. For a full listing of our animals and clothing, please visit our website <http://www2.buildabear.com/Buildabear/1ChooseMe/index.cfm>. To receive a brochure, please email me at your convenience.
We will provide an associate to be with your group. We do not have a party room/accommodations for cake, presents or refreshments, so our associate will meet your group at the front of the store where we will have stickers for everyone in the group. We usually involve the guests in songs, and cheers. At the end of the party, the Guest of Honor will receive a complimentary Build-A-Bear Workshop gift to commemorate his/her beary special day! If you would like to create and print invitations online, please visit <http://www2.buildabear.com/FunGames/invites.cfm>.
If I can further assist you with your party planning, please do not hesitate to contact me. Thanks again, and we look forward to seeing you beary soon!
Beary Truly Yours,
~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~

Is the 4 o'clock on August 11th available? If not, is there availability on the evening of Friday the 10th? As a last choice, I would be interested in the 10AM spot on the 18th. Please let me know.

Thanks for your help.
Michelle Lokay

You would need to go to clickathome.enron.com, sign in, then go to internet options. Click on the order button next to Time Warner and then select yes for the question asking if you are a current TW subscriber. Let us know if you need additoinal assistance.

If I were you I would take Hwy 290 to Sam Houston Tollway, take beltway to I-45, then

take I-45 North and exit Kuykendahl - turn left under freeway and when you get to

light (not feeder light) but approx one block later there will be the light @Kuykendahl - turn

right and stay on Kuykendahl all the way - you will pass the intersection at FM1960 and

then I think at the next light or one after that is "WOERNER RD" TURN RIGHT AND APPROX

1/2 BLOCK down you'll see sign on left "Shirley Acres" - its in the trees.....thats the place

See the red star above that is "Woerner Rd" and see where you exit off I-45 on Rankin/Kuykendalh exit,

go left under freeway and then turn right onKuykendahl.... You can come all the way down 1960 from Hwy 249

but thats a long slow trip with a lot of lights and traffic.....

Pray for sunshine and warm weather....

Caio bene'

Hi Mell,

Jim stopped by Dilbert.com,
and thought you'd like to read today's Dilbert comic strip!
To pick up your comic, simply point your browser to the page listed below.

http://umweb3.unitedmedia.com/comics/dilbert/color_strips/postoffice/mar27-0674166.html

Your comic will remain on the server for about two weeks, so
please print it out or save it as soon as you can.

I have included four files. They are labeled as to what they are. The color files reflect the original's sepia tone, the B&W ones should be obvious. The 72dpi would be the ones to email for people to look at on the computer (should show up as full sized on most screens) and the 300dpi would be ok for printing. If you want to use the picture for desktop wallpaper, let me know your screen resolution (i.e. 1024x768); I will make a file special for that.

Jim

E-Trade to put ATMs, brokerage shops in Target stores
04/11 07:51 <javascript:openNewsWebSite()> <javascript:openNewsWebSite()>
NEW YORK, April 11 (Reuters) - E-Trade Group Inc. (ET), the No. 2 U.S. Internet brokerage, on Wednesday said it had agreed to put 20 E-Trade shops and more than 1,000 bank machines into Target Corp. (TGT) stores nationwide.
E-Trade will be the exclusive automated teller machine network for all Target and Target Greatland stores in the United States. E-Trade currently has ATMs in 110 Target stores.
The E-Trade shops -- "E-Trade Zones" -- are 400-square-foot facilities within SuperTarget stores staffed with sales and service representatives where customers can open a brokerage account. E-Trade and Target launched a pilot program for the stores in September with an E-Trade Zone in Roswell, Ga.

One morning Dick Cheney and George W. Bush were having brunch at a restaurant.

The attractive waitress asks Cheney what he would like and he replies, "I'll have a bowl of oatmeal and some fruit."

"And what can I get for you, sir?" she asks George W.

He replies, "How about a quickie?"

"Why, Mr. President," the waitress says, "How rude . . . you're starting to act like Mr. Clinton and you haven't even been in office for a month yet!"

As the waitress storms away, Cheney leans over to Bush and whispers, "It's pronounced "quiche."

Here is the website. Fiesta Flambeau parade is Saturday night; Battle of the Flowers parade is Friday at 12:45. Aggie Band is in Friday's parade, Texas band in Saturday's. The zoo is also having a deal on Saturday, and I will look for discount tickets for Fiesta Texas.
http://www.fiesta-sa.org/ci/index.html
Bring bathing suits too - our pool opens Saturday.

YOU KNOW YOU'RE FROM HOUSTON IF:
The "farm-to-market" roads have seven lanes.

You have to turn on the air conditioning in January, two days after a low of 29 degrees.

Everybody has a story of the Flying Roach the size of the Taco Bell Chihuahua.

When you see your neighbor dancing around the front yard, you don't think he's won the Publisher's Clearing House Sweepstakes; you know that he just stepped in a fire ant bed.

You're on your way to work one FEBRUARY morning and suddenly you're trapped in a traffic jam caused by a chuck wagon and fifty horses - with riders - and you look around to see that everybody in the trucks around you is wearing a cowboy hat.

The name "Bud Adams" makes people snarl, and "Bum Phillips" doesn't mean bad screwdriver.

"Luv ya Blue" still makes you smile, even if you did run the Oilers out of town.

You know that the Astrodome will always be the Eighth Wonder of the World.

You come to work in short sleeves and walk out at noon to find that a "blue norther" has blown through and the temperature has dropped 40 degrees.

Your neighbor's Christmas yard decorations are a re-creation of the gunfight at the OK Corral, complete with a ten-foot tree decorated with boots and cowboy hats, and a Santa Claus who looks a lot like Wyatt Earp.

You wander into a section of town where you can't read the street signs because they're written in Asian characters instead of English, but you don't care because you can get great prices on fake designer merchandise.

You go to an art festival and you're almost run down by handholding cross dressers on roller blades.

You hear everything but English spoken when you go to the Galleria to window shop. (You can't afford to buy because the prices are jacked up for all the foreign tourists.)

You know that "Dad gummit" has nothing to do with your father's failure to practice good dental hygiene.

You think "Y'all" is perfectly good usage if you're referring to more than one person.

For a Chili Cook off, you'll use anything from armadillo to frog's legs, but you know that the only GOOD chili is made with chopped - not ground beef, and it has NO beans and NO tomatoes.

Spring is not the season, Katy is not the lady, and 1960 is not the year.

Society matrons of "a certain age" still sport big hair and faces that have gone east, west, and north rather than south.

You can leave your house, head out of town, and an hour later you still haven't left the city limits. (During rush hour, you haven't left your NEIGHBORHOOD.)

You've never seen I-45 and I-10 in any condition other than under construction - and you've lived here for more than 30 years.

You know that "Clutch City" has nothing to do with automobile transmissions.

"The Dream" is not a fantasy.

The only REAL Mexican food is Tex-Mex.

A 747 with the Space Shuttle riding piggyback has actually flown low right overhead, and nobody paid any attention to it.

You know that while saving you money, "Mattress Mac" has amassed more than the U.S. treasury.

You're happy to have beaten Los Angeles out of a football team, but you'd rather they keep the title of "Smog Capital."

You see nothing unusual about an eighty-something former sheriff's deputy who wears a white pompadour toupee and blue sunglasses, mispronounces names, allows televising of his frequent plastic surgeries, seems unnaturally obsessed with slime in the ice machine, and screams, "MAR-VIN ZIND-ler, iiiii-witness news" into a television camera every night. But some folks are still upset with him for shutting down the Chicken Ranch.

If the humidity is below 90 percent, it's a GOOD hair day.

And to start off the week.....

California's new State Song! The Rolling Blackout Theme Song
(To the theme music from the TV western "Rawhide")
Rollin', rollin', rollin',
Though the state is golden,
Keep them blackouts rollin', statewide.
A little colder weather,
And we all freeze together,
Wishin' more plants were on the line.
All the things I'm missin',
Like lights and television,
Are waiting 'til we can pay the price.
(Chorus)
Turn 'em on, turn 'em off,
Shut 'em down, block 'em out,
Turn 'em on, turn 'em off, statewide!
Brown 'em out, black 'em out,
Charge 'em more, give 'em less,
Let the pols fix the mess, statewide!
Keep movin', movin', movin',
Though they're disapprovin',
Keep them rates a-movin', statewide.
Don't try to understand 'em,
Just raise, charge, and collect 'em.
Soon we'll be livin' high and wide.
My heart's calculatin',

Nuclear plants will be waitin',
Be waitin' at the end of my ride.
(Chorus)
Turn 'em on, turn 'em off,
Shut 'em down, block 'em out,
Turn 'em on, turn 'em off, statewide!
Brown 'em out, black 'em out,
Charge 'em more, give 'em less,
Let the pols fix the mess, statewide!
STATEWIDE! Hyaah!

Michelle,
Tried to send them yesterday, but file exceeded size that enron allows.
Lets try part of them this time.
David

Subject: FW: Even For You
Because in some ways, you have these traits and must
do these things as well.
Mother's Day
If you send this to just one person, it should make it
all the way around
by Mother's Day.
This is for all the mothers who have sat up all night
with sick toddlers
in their arms, wiping up barf laced with Oscar Mayer
wieners and cherry
Kool-Aid saying, "It's OK honey, Mommy's here."
Who walk around the house all night with their babies
when they keep
crying and won't stop.
This is for all the mothers who show up at work with
spit-up in their
hair and milk stains on their blouses and diapers in
their purse.
For all the mothers who run carpools and make cookies
and sew Halloween
costumes. And all the mothers who DON'T.
This is for the mothers who gave birth to babies
they'll never see. And
the mothers who took those babies and gave them homes.
This is for all the mothers who froze their buns off
on metal bleachers

at football or soccer games Friday night instead of watching from cars, so
that when their kids asked, "Did you see me?" they could say, "Of course, I
wouldn't have missed it for the world," and mean it.
This is for all the mothers who yell at their kids in the grocery store
and swat them in despair when they stomp their feet like a tired 2-year old
who wants ice cream before dinner.
This is for all the mothers who sat down with their children and
explained all about making babies. And for all the mothers who wanted to but just couldn't.
For all the mothers who read "Goodnight, Moon" twice a night for a year.
And then read it again. "Just one more time."
This is for all the mothers who taught their children to tie their
shoelaces before they started school. And for all the mothers who opted for Velcro instead.
This is for all the mothers who teach their sons to cook and their
daughters to sink a jump shot.
This is for all mothers whose heads turn automatically when a little
voice calls "Mom?" in a crowd, even though they know their own off spring are at home.
This is for all the mothers who sent their kids to school with stomach
aches, assuring them they'd be just FINE once they got there, only to get
calls from the school nurse an hour later asking them to please pick them
up. Right away.
This is for mothers whose children have gone astray, who can't find the
words to reach them.
For all the mothers who bite their lips sometimes until they bleed when
their 14 year olds dye their hair green.
What makes a good Mother anyway?
Is it patience?
Compassion?
Broad hips?
The ability to nurse a baby, cook dinner, and sew a button on a shirt,

all at the same time?
Or is it heart? Is it the ache you feel when you watch
your son or
daughter disappear down the street, walking to school
alone for the very first
time?
The jolt that takes you from sleep to dread, from bed
to crib at 2 A.M.
to put your hand on the back of a sleeping baby?
The need to flee from wherever you are and hug your
child when you hear
news of a fire, a car accident, a child dying?
For all the mothers of the victims of all these school
shootings, and the
mothers of those who did the shooting. For the mothers
of the survivors,
and the mothers who sat in front of their TVs in
horror, hugging their child
who just came home from school, safely.
This is for mothers who put pinwheels and teddy bears
on their children's
graves.
This is for young mothers stumbling through diaper
changes and sleep
deprivation.
And mature mothers learning to let go.
For working mothers and stay-at-home mothers.
Single mothers and married mothers.
Mothers with money, mothers without.
This is for you all.
So hang in there.
Please pass along to all the Mom's in your life.
"Home is what catches you when you fall - and we all
fall."
Please pass this to all the wonderful mothers you
know.
(I just did)

Learn Technical Analysis
Two Full Days
July 17-18, 2001
Early Bird Discount until June 14, 2001
Houston, Texaswww.kaseco.com

Energy Traders, Marketers and Buyers.
This two full day class serves as both an introduction to those new to technical analysis and a refresher for experienced traders. Technicals are taught in a logical, systematic manner oriented to equip both physical and paper traders to buy low, sell high and manage risk in the real world in a logical, methodical manner.
In this class you will:

· Ascertain when and how to take profit and cut losses.
· Find out how to set up a strategy by identifying probable market direction and turns as well as likely targets using chart patterns.
· Learn to use both traditional indicators like moving averages and stochastics, as well the state-of-the-art methods which won Cynthia Kase the coveted Market Technicians Association's "Best of the Best" award.

Content

· Charting Basics, Types of Charts, Support and Resistance
· When to Buy or Sell (Entry Techniques)

· When to Exit Based on Signals (Momentum and Divergence)
· How to Exit Based on Stops (Managing Trade Risk)
· Chart Patterns and Forecasting Basics (Candlesticks, Elliott Wave, Flags, etc.)
· Statistical Hedging

Registration Fees Include a Copy of Cynthia Kase's acclaimed book "Trading with the Odds" Fees Location and Hotel About the Presenters Who Should Attend Detailed Agenda and Schedule Custom Classes

I thought this was very interesting.

Something you may find interesting....
>
> > Breast Cancer
> > ==========
> > I'm forwarding this to everyone I know because it makes so much
> > sense. Please forward it to everyone you care about and even those you
> > don't.
> > Ladies, be aware! Gentlemen, pass this on to the ladies in your
> > life!
> > Sometime ago, I attended a Breast-Cancer-Awareness seminar organized by
> > Terry Birk with support from Dan Sullivan. During the Q&A period,I
asked
> why
> > the most common area for breast cancer was near the arm pit. My
question
> > could not be answered at that time. This e-mail was just sent to me,
and
I
> > find it very interesting that my question has been answered. I
challenge
> you
> > all to re-think your daily use of a product that could ultimately lead
to
> a

> > terminal illness. As of today, I will change my use. A friend forwarded
> this
> > to me. I showed it to a friend going through chemotherapy and she said
she
> > learned this fact in a support group recently. I wish I had known it 14
> > years
> > ago. I just got information from a health seminar that I would like to
> > share. The leading cause of breast cancer is the use of anti-
perspirant.
> > What? A Concentration of toxins leads to cell mutations, a.k.a. CANCER.
> Yes,
> > ANTI-PERSPIRANT. Most of the products out there are an
> > anti-perspirant/deodorant combination, so go home and check. Deodorant
is
> > fine, anti-perspirant is not.
> > Here's why. The human body has a few areas that it uses to purge
> > toxins from the body -- behind the knees, behind the ears, the groin
area,
> > and armpits. The toxins are purged in the form of perspiration.
> > Anti-perspirant, as the name clearly indicates, prevents you from
> > perspiring, thereby inhibiting the body from purging toxins from below
the
> > armpits. These toxins do not just magically disappear. Instead, the
body
> > deposits them in the lymph nodes below the arms since it cannot sweat
them
> > out. Nearly all breast cancer tumors occur in the upper outside
quadrant
> of
> > the breast area. This is precisely where the lymph
> > nodes are located. Additionally, men are less likely (but not
completely
> > exempt) to develop breast cancer prompted by anti-perspirant usage
because
> > most of the anti-perspirant product is caught in their hair and is not
> > directly applied to the skin. Women who apply anti-perspirant right
after
> > shaving increase

> > the risk further because shaving causes almost imperceptible nicks in
the
> > skin which give the chemicals entrance into the body from the armpit
area.
> > PLEASE pass this along to anyone you care about. Breast cancer is
becoming
> > frighteningly common. This awareness may save lives. If you are
skeptical

China Blames U. S. for Second Mid-Air Collision

BEIJING (Reuters) - Chinese officials have stated that they are holding the United States, "fully responsible" for today's mid-air collision, involving several Chinese aircraft and one American craft. This comes just weeks after a similar incident involving a U. S. spy plane.

Officials have stated that at approximately 8:25 a.m., GMT, a squadron of Chinese F-8 fighters collided with the American Goodyear Blimp. The crash left over a dozen Chinese planes downed and the blimp's electronic billboard damaged. Sources say the billboard's scrolling marquee had been advertising 7-UP soft drink, leaving the line "Up yours" in view.

A Chinese pilot who witnessed the collision between his squadron, nicknamed, "Panda Rash" told China's Xinhua news agency that he saw the American blimp dive out of the clouds and into wingman Sum Yung Phucker's F-8 jet.

"I told Yung Phucker his tail was all broken. Keep it straight. Keep it straight'," said the pilot. "He just couldn't shake the American foreign-devil. The blimp then reportedly veered hard left and then right,taking out the rest of the squadron.

Pilot Chawp Suey Wussy told Xinhua the American blimp was "fully responsible

for the incident," repeating the language Beijing has used in the earlier incident. China blames this new accident on the Goodyear blimp, saying it rammed the supersonic fighters, and has demanded an apology. Officials from

the Goodyear Company have said it is unlikely that the slow propeller-driven blimp could turn inside and ram a dozen nimble fighters, unless the Chinese were testing chimp pilots.

"The direct cause of the collision was that the American blimp made a sudden big move toward the Chinese planes, making it impossible for the Chinese planes to get out of the way," Suey Wussy was quoted as saying. "The savage act of American blimps colliding with Chinese planes while conducting spying activities at sporting events makes us indignant," he was quoted as saying.

Chinese officials are calling for an apology from the United States and enough Goodyear tires to replace the Firestone's that experienced spontaneous combustion last year. U. S. officials expressed regret, but would not allow an apology until the matter could be investigated further.

In a related story Goodyear has not commented on whether it has stopped shipments of condoms to China as a retaliatory measure.

Revenue Generating:
Launched Transwestern capacity trading on EnronOnLine, with unlimited future revenue opportunities. Executed daily firm transactions with ePrime, a new shipper, adding incremental $1000 in demand charges.
Executed firm transport contract with Conoco at maximum tariff rate for 5 years, generating $14 million in revenue.
Assisted in Red Rock expansion project. Awarded capacity to Western, another new shipper, for 15 years; will generate $8 million in NPV revenue. Capacity was also awarded to Oneok, for 2 years; generating $2 million in NPV revenue.
Contracted with North Star Steel for incremental firm service from their facilities to California border, adding $125,000 in demand charges plus additional 4.5% fuel collection.

Non-Revenue:
Completed new facility interconnect with Pogo for additional supply on east end of system. Well was unfortunately dry and will not generate incremental revenue.
Liaison with Facility Planning to coordinate capacity, ROFR, expiration, and systems testing.
Coordinating with Operations and Market Services to monitor imbalances on OBAs to maximize financial impact.

Copy (do not forward) this entire e-mail and paste it onto a new e-mail that you will send. Change all of the answers so that they apply to you. Then send this to a whole bunch of people you know INCLUDING the person who sent it to you. The theory is that you will learn a lot of little known facts about your friends. Remember to send yours back to the person who sent it to you.

Here goes . . . .

1. What time is it? 3:22 pm(Central)
3. Nickname: Bonnie
4. Parents names: Jim & Lois
5. Number of candles that appeared on your last birthday cake: 30 something
6. Date that you regularly blow them out? 7-23
7. Pets: Buster and Heather (dogs), Willie (fish)
8. Eye color: blue
9. Hair color: brown
10. Piercing: ears
11. Tattoos: none
12. How much do you love your job? love is a strong word!
14. Hometown: Silver Spring, MD
15. Current Residence: San Antonio, TX
16. Been in love? yes
17. Been to Africa: no
18. Been toilet papering? yes
19. Loved somebody so much it made you cry? Yes
20. Been in a car accident? no

21. Croutons or bacon bits? croutons
22. Sprite or 7-UP? no preference
23. Favorite Movie: Sleepless in Seattle
24. Favorite Holiday: Christmas
25. Favorite day of the week: Saturday
26. Favorite word or phrase: serenity
27. Favorite Toothpaste: Crest
28. Favorite Restaurant(s): America's in Houston
29. Favorite Flower: stargazer lilies
30. Favorite Drinks: Mountain Dew, margaritas
31. Favorite Sport to watch: football
32. Preferred type of ice cream: Ben and Jerry's Cherry Garcia
33. Favorite Sesame Street Character: Elmo
34. Disney or Warner Bros.? Disney
35. Favorite Fast Food Restaurant: Taco Bell
36. When was your last hospital visit? Dec 1998
37. What color is your bedroom carpet? Tan
38. How many times did you fail your permit or drivers test? None.
39. Who is the last person you got mail from before this? corporate communications
40. Have you ever been convicted of a crime? NO
41. Which single store would you choose to max out your credit card? Talbots
42. What do you do most often when you are bored? take a nap
43. Name the person that you are friends with that lives the farthest:Allen and Dawn-
San Francisco
44. Most annoying thing? clutter
45. Bedtime? 11:00pm
46. Who will respond the quickest? who knows!
47. Who is the person you sent this to that is least likely to respond? guess
48. Favorite all time TV show? Dallas (the early ones)
49. Last person you went out to dinner with: Jim and Michelle
50. Last Movie you saw: Bridget Jones Diary
51: Time when you finished: 3:37pm

I'm not sure if this spreadsheet will work for you. I don't remember the exact data you wanted, so I did things from memory. The dates may not be correct, because I (multiplied the number of months * 30 days) then added this number to the start date to project the ending period. You know our our SAP software automatically does things like this :)

Thank you for e-mailing me. Please call x. 3-7181 and leave a message. You will be contacted as soon as possible with more information about Enron's employee assistance program.

I am sorry to hear that you suffered flood damage and wish you a speedy recovery.

Missy

I hope this email finds all of you high and dry. However, many people were not as fortunate.

Community Affairs is taking a count of Enron employees that were displaced or affected by the flood. Please email me or call me at x33597 if you were affected.

If you want to make a monetary donation to the Red Cross or any other agency, I am pleased to report that the Enron matching gift program has been expanded to match your donation.

Enron is looking into other avenues to assist the victims but, we need to hear from you first. Please email me or call me if you or a fellow employee has been affected.

Enron will be making determinations based on this information and how to proceed and assist the victims.

I can be reached at x33597 if you have any questions.

Michelle,

Thank you for your interest in our child care center! We do still have openings in our pre-school class at this time. If you are interested in obtaining an application, you can either pick one up from me at EB1633d or let me send one to you via intercompany mail. Let me know either way.

Regards,

Charla

RE: OPEN ENROLLMENT FOR ENRON KIDS' CENTER IS UNDERWAY!!!

OPEN ENROLLMENT FOR ENRON KIDS' CENTER IS UNDERWAY!!!

Want to be closer to your child during the workday? Want to read to them at lunchtime or just give them a hug? Then consider enrolling your child in the Enron Kids' Center.

Enron Kids' Center child care facility is currently under construction and will be located on Louisiana Street, across from our corporate headquarters in Houston. Enron is partnering with Knowledge Beginnings, one of the leaders in the child care industry, to provide high quality, conveniently located, customer service-oriented childcare for Enron employees in Houston.

Anticipated opening date: September 2001

Hours of operation: The center will be open Monday through Friday from 7:00 AM - 6:30 PM. The center will be closed on all Enron holidays. In addition, special "parents' night out" care will be offered for occasions such as holiday shopping and night out at the movies for an additional fee.

Complete meal service: Your child's breakfast, lunch and two snacks are included in tuition. Infants will need to bring their own food until they are ready for "table food".

Eligibility: Regular full-time or part-time Enron employees who are the parents or legal guardians of the child or children named on the application are eligible to enroll their children in the center. Temporary employees, contract workers and non-custodial parents

are not eligible to enroll their children in the child development center.

Contact Information: Visit http://enronkids.enron.com to learn more about Enron Kids' Center or contact Knowledge Beginnings at 1-877-CHILDHOOD (between 8:00 am -5:00 p.m. PST).

Thanks to the teamwork and dedication of the Transwestern Commercial team, we're well positioned to meet or exceed our 2001 goals. While all of our employees have contributed to the success of TW's first six months of 2001, several individuals have made significant commercial contributions:

Lorraine, Michelle, and Jeff have successfully negotiated the Red Rock Expansion contracts within a record one month's time. The value of these transactions is expected to have a positive impact on our revenue starting next year and into the future.

TK has negotiated creative interruptible transport deals at the California border, sold significant Park N' Ride volumes and negotiated several short-term index deals with a sharing mechanism that have had a strong impact on our bottom line.

Jeff has also structured several long-term index-to-index deals and developed a hedging strategy to lock-in market rates.

Thank you for your hard work and innovation. It demonstrates your commitment to excellence and to our Company.

Stan

Michelle,

Thank you for your response.

I have attached the directions to the Brookside Country Club. The dress code for the club is as follows:
Golf shoes - soft spikes are required; collared shirts; shorts (must be 18" from the cuff or right above the knee).

Also attached is a listing of the area hotels.

If you have any questions, please do not hesitate to give me a call.
Thank you.
