Subject: 12/28 Power VaR
Message-ID: <26521776.1075852054120.JavaMail.evans@thyme>
Folder: enron-sample

As of 12/28 Power VaR increased by $8.7 MM to $43.7 MM (limit of $50 MM) and
West Power increased by $9.2 MM to $35.8 MM. This increase is mainly attributable to an addition of a long MidC position of ~1.8 MM Mwhs - a deal
with BPA: Buy 250-360 MWs for the period 2/01-9/01. See the increase in component VaR in 2001 below (Longs are driving the risk in the portfolio).

Vlady.

Subject:	release to production of scheduling forward obs. report
Message-ID:	<29534117.1075852053898.JavaMail.evans@thyme>
Folder:	enron-sample

I've tested the "schedule" version of forward obs. It seems to be working well.

The wish list might include a summary page to show the desks net 0. And it could use a default that pulls all the west desks when the West portfolio is
clicked, while retaining the flexibility of overriding the west default to choose individual desks - HOWEVER - it does work fine the way it is.

Please release this to production and let Fran Chang, Heather Dunton, Samantha Law and Diana Scholtes know when it is released. Thanks!
