Subject: 12/28 Power VaR
Message-ID: <26521776.1075852054120.JavaMail.evans@thyme>
Folder: enron

As of 12/28 Power VaR increased by $8.7 MM to $43.7 MM (limit of $50 MM) and
West Power increased by $9.2 MM to $35.8 MM. This increase is mainly attributable to an addition of a long MidC position of ~1.8 MM Mwhs - a deal
with BPA: Buy 250-360 MWs for the period 2/01-9/01. See the increase in component VaR in 2001 below (Longs are driving the risk in the portfolio).

Vlady.

Subject: release to production of scheduling forward obs. report
Message-ID: <29534117.1075852053898.JavaMail.evans@thyme>
Folder: enron

I've tested the "schedule" version of forward obs. It seems to be working well.

The wish list might include a summary page to show the desks net 0. And it could use a default that pulls all the west desks when the West portfolio is
clicked, while retaining the flexibility of overriding the west default to choose individual desks - HOWEVER - it does work fine the way it is.

Please release this to production and let Fran Chang, Heather Dunton, Samantha Law and Diana Scholtes know when it is released. Thanks!

Subject: reminder re: mapping COB S/N and NOB S/N

I think we all decided that COB S/N and NOB S/N should become a basis point
unto themselves. Remapping the S/N has not been thoroughly explored
regarding implications to existing deals and has not been re-mapped in
table
edit nor has a basis point been created. Currently COB S/N and COB N/S =
R8;
and NOB S/N = Basis Pt #22 which is also what NOB N/S is mapped as. We'll
probably only appreciate the revaluation on a shoulder month basis, but I
believe it is material.

Subject: transmission valuation in portcalc

We have deals 470788, STSW
146517, LTNW
205218, LTWTRANS
426855 LTSW

which are transmission deals. The correlation for these are contained in
the
West Correlation file in M/power2/region. The correlation for these
delivery
points and basis points don't match what Houston's RAROC office has.

Please review the attached spread sheet and email me the correlation you
want
to use for valuing the tranny deals. As soon as we agree on the
correlation
and change them in West Correlation and/or RAROC, I'll re-run the mini-
books,
and we can release the deals into mark to market as we want.

(Matt's correlation have already been reviewed but not yet changed, you're
done Matt.)

Please let me know if you have any questions or points of discussion. If
you
could respond by Monday, Feb 12, that'd be good. Thanks!

Deal # 539968 legs one and two is presently in the "killed" status. John will let one or all of you know, preferably by email, when you should reactivate the deal. You may have to modify the start date and the deal date. The deal date should match the date the EEI was signed. And March 8th
(the start date) will have come and gone by the time (if) the contract is finalized.

John (mid market) will take origination on this deal. I believe his orig. that will come out of the LTNW book is going to be .75 per mwh. Please confirm the amount with John.

Also, please connect with Chris Foster, as I believe the orig. will be held until the end of March, and then Chris will provide Risk with a comprehensive
list of all the mid-market origination that needs to be granted from the power books, as he did in Feb.

Subject: Re: adding new books/desks/counterparties in West Portfolio

Hi Min Zheng and Norman:

In the past couple of weeks you have been working on adding three new books (Short-term west rockies, Short-term west services, and Long-term west options) for the west. Yesterday we entered/moved our exotic deal (deal # 13982.3, which was originally in Short-term Southwest book) into the new Short-term west rockies book and we are seeing a couple of problems:

(1) It seems that in DprAutomation the Short-term west rockies book was named
as "ST-WROCK", rather than "ST-WR" (i.e. the book's/roll's name in M:\common\power\Postion\Dpr\2001\0102). Therefore, last night and this morning we had to temparily changed the roll's name to ST-WROCK in order to allow DprAutomation to run through the roll to bring in P&L/PCS/PID data. (After DprAutomation was done running, we then changed it back to ST-WR so we
can link the roll to the "pwrdpr" file).

=> We need DprAutomation to use "ST-WR" for Short-term west rockies book so we won't have to change the file name everytime we run DprAutomation.

(2) As mentioned earlier, yeterday deal #13982.3 's desk was changed from ST-SW to Short-term west rockies in the Exotic book. Although we officialize
the Exotic book (post id 14061), Nancy Hernandez in Risk Management (Houston)
found that they could not see the Short-term west rockies book officialized in Exotic.

=> I am not sure if this is due to the same problem as in (1) or something else. We need the new Short-term west rockies book set up right so it can be
officialized in the Exotic book in order for the Risk Control Group in Houston to see/monitor it.

Please help us look at the above issues. Let me know if I can provide more

useful information.

(For Nancy: I spoke with Valarie and there is nothing we know of other than
deal #13982.3 that was in the ST-SW book in Exotic book. Since we moved the
deal to Short-term west rockies book last night, it should be normal to see
nothing remaining in the ST-SW book.)

Thanks,
Fran

Subject: adding new books/desks/counterparties in West Portfolio

Hi guys:

I just wanted to touch base with you on how we are doing on the IT side
regarding the 3 new books that West Power is establishing (* please refer to
the email attached from Val sent on 2/5/2001).

Today, we will be creating the three new desks/books (ST West Services, ST
West Rockies, and LT West Options). Would you please help us set up these
three new desks/books in "West tot belden2". The path to the file is
M:\power2\Curve\New_sys\Data. Specifically, when you open the file and go to
"Peak", "Off-Peak", "Peak-By Region", and "Off-Peak-By Region" tabs, you will
see pivot tables/columns which can be manupulated to get positions in our
existing desks/books (eg. LT-NW, LT-SW, etc). We need ST West Services, ST
West Rockies, and LT West Options to be included in these tabs under seperate
columns, too.

Please let me know if you have any questions.

Thanks,

Fran

Subject: adding new books/desks/counterparties in West Portfolio

Hello all. I'm not sure if I've included too few people or too many, but you can let me know if I've left someone off the list or have included someone unnecessarily.

We're busy up here in Portland adding new desks...these new desks will need
to mapped through all of the Enpower reports/calcs, DPR, adhoc, MTM97, etc.

There are several of you that I will need to work with after the books are set up, but I think this gets us through the initial push. Attached is the primary information on the new books. Please email me or call if there are any questions.

I'd like to have the setup completed by Wednesday, Feb. 07, if possible.

Thanks!

Val at x7756

Dear Valarie and Fran:

  I followed up with Nancy regarding EPMI-ST-WROCK. Based on her
response,
the name won't be changed to EPMI-ST-WR but a new book called EPMI-ST-SW-
EXT
will be added. Do you plan to use that one in the future? Please let us
know so that we can adjust other things accordingly. Thanks.

- Zhiyun

 -----Original Message-----

To: Yang, Zhiyun
Subject: Re: Desk that has forward position as on 3/2/2001

Zhiyun:

We actually can't change the name of books, so we had to create a new book
on
the RisktRAC side called EPMI-ST-WR-EXT. However to my knowledge I think
they are still officializing the EPMI-ST-SW-EXT book.

Regarding the list below, I will let you now later today if this will work
for us.

Thanks for your help.

Nancy

Martha
I talked with Sami Arap, our attoney responsible for this transaction, and he told me that rationing is going to be treated as a Force Majeure event under this contract. Besides, there's going to be a specific language for what we are calling "pre-rationing event", which is not FM, but may reduce (up to 10%) the contract volume.

This pre-rationing event will occur under two circumstances: (i) when Spot Price is higher than R$200,00 (as of Feb/01) and (ii) when the net energy alocated to Furnas by MRE is lower than its assured energy.

We would like to know what is the impact of these two sections (rationing as FM and "pre-rationing") on the accounting treatment of the transaction.
Thanks
Eduardo

Subject: RE: Furnas Again

Eduardo,

I think if we the contract reads that if the purchase volume can be reduced by 10% in case of rationing then we would probably only consider 90% of the volume firm. Have you gotten a legal opinion of whether rationing is a Force Majeure event?

By copy to Stacey, do you have any additional comments to assist Eduardo?

Martha

Martha

Furnas has requested us to include in the contract a language saying that in case of rationing in Brazil the contracted energy is reduced proportionally. We plan to cap that reduction in 10%. I would like to know what would be the impact in the MTM treatment. I guess it doesn't affect MTM because a rationing could be seen as a Force Majeure event.

Please let me know what you think.

Our efforts to move our South American merchant business model to look like our North American and European models has been evolving quickly. In the volatile Brazilian power market, Enron is poised to start-up the first merchant plant in the near future. We are working on several structured transactions and are at the forefront in working with Brazilian regulators to create a viable deregulated power market.

To continue our positive momentum in South America, we have decided to change the leadership of the merchant business. We have asked Orlando Gonzalez to become President and CEO. In addition we have asked Brett Wiggs to join Orlando in the office of the chairman as Chief Commercial Officer.

Joe Kishkill has been involved in the South American business for many years and will be exploring other opportunities within Enron. We would like to thank Joe for his contributions.

Please join us in congratulating Orlando and Brett on their new duties.

AA has concurred with MTM accounting for the South America commodity transactions, so long as they have MTM attributes (which is no different of a standard than any other bus unit). They would, however, like to update their general knowledge of the South American regulatory and commercial environment, etc. Do we have some presentation materials already done that would be helpful in this regard? Again, as expected, we are a "go" for MTM.

Jody and Cris,

I became aware of the Duke deal late Monday. Spent yesterday validating their assumptions and value which is no where near US$15.6. The MTM value looks like it will be around US$4MM. We plan to finalized the MTM today. Remi was initially planning to prudence some of the value (with Lavo's approval). However, that was before we added the Pis/Cofins tax assumptions. Duke did pay us a R$15MM option premium on the deal. Robin Veariel confirmed that ECE received that money yesterday. Spoke with Paul Radous in credit and he is not taking a credit reserve because we are supposed to receive a parental guarantee.

I'll keep you posted.

Also, thanks for the message regarding the MTM. I passed it on to Stacey.

Gents,

Lots of "noise" on what should be booked fot the Duke deal on this weeks Hot List (actually a done deal now). A "little bird" told me that it could be as high as $15.6 MM. Well, I do not buy it.

Before sending out the forecast this week I want to talk to you guys about what is inside the number we book for Duke. I will be getting prepared on this end.

Thanks,

Kish

This is a deal where we purchase restricted power certificates. I think the "market" is similar to the SO2 (if that is the pollution credits) market here.

Brazil is having a power crisis worse than California. The large end users are required to reduce their power consumption by 20% from last year's usage. My understanding
is that for example July 01 must be less than 80% of July 00. If the consumer lowers their consumption by more than 20%, they can sell the excess reduction to another user or marketer - and it is called a certificate.

I will copy you on the valuation model that they just requested that I complete.

Martha

Subject: RE: Alcoa DASH

Eduardo,

Could you please confirm that the following taxes are in the model used for the financial projections.

PIS/COFINS----3.65% of the gross

CPMF of .38% on all cash transfers

total 34% Brazilian income tax

IOF----what is the rate for this transaction? (Ricardo, I believe Sami indicated you could provide in an earlier note?)

I have also been asked to add a section regarding the effective tax rate in Brazil. Since I have not seen a copy of the model, can someone please fill in the blanks below regarding the rates? I'd also appreciate a copy of the model for my records here.

The section will need to indicate that the effective tax rate on this transaction in Brazil is _____, which includes 3.65% PIS/COFINS (gross receipts tax), 34% Brazilian income tax and .38% CPMF on all cash disbursements, and _____IOF. Repatriation of the cash back to the U.S. will also trigger U.S. income tax at the rate of 37% of the cash dividend repatriated.

Also, please add Stephen Douglas name to the tax sign-off list. He is the lead member of the tax planning group for Enron Wholesale Group.

Martha

Just one correction. The energy they get credit (assured energy) come from the Energy Reallocation Mechanism or MRE. All hydro generators are member of this mechanism, which is regulated by ANEEL. MRE's objective is to optimize the cost of hydro generation. So, regardless the energy generated by the plant, it always gets the assured energy plus secondary energy (if there's surplus of energy).

In the case of Santa Clara, due the rationing, they want to deliver the volume they get from the MRE, which can be lower than 28MW (assured energy) or even the minimum of 20MW that we proposed.

Let me know if you have any doubt.
Tks. Eduardo

Subject: Santa Clara Deal

Remi,

Spoke with Eduardo today about the Santa Clara deal. We were discussing whether the deal would receive MTM or accrual treatment.

As I understand it, at this point in the negotiations, we would purchase the amount of energy they get credit from the LDC for generating. The volume may or may not be equal to the energy that they actually generate. It will be determined by the availability of power in the region due to the rationing situation. Under this scenerio, I do not think we can MTM the deal as there is no firm quantity specified.

If I'm missing, some aspect of the deal that you think gives us the ability to mark the deal, please let me know.

Martha

Subject: Simulation Curves
Message-ID: <22813470.1075842003985.JavaMail.evans@thyme>
Folder: enron

Make sure that all curves are downloaded by the end of simulation, 11:00 CST, tomorrow. Ideally, the 2/7/02 curves should be marked in the morning prior to simulation. We have been instructed to kick the calculation off as close to 11:00 CST as possible. This is to ensure that ALL downstream systems are able to run through the simulation.

Please forward to all applicable traders.

Thanks,
Stacey

Dear All,

In Enron system, M:\common\power is one of our major folder. In UBS system, it is changed to M:\power. I wonder whether we need to create a new folder: M:\common, then move M:\power under M:\common\ and become M:\common\power just as Enron system. Otherwise, we at least need to spent a lot of time to find out and change all path pointers and fixed links of Excel application under power folder. Also, if too many files dynamic links are messed up, we may be able to ask system team to rebuild power folder for us.

Thanks!

Min Zheng

This is not a circular and you will not get another chance. This deals with migration to new systems and you need to migrate your own information or applications in the next day. Remember do not delete anything and data to be transferred must comply (see attachments below).

The policy must be complied by Thursday. Please ensure that everyone in your group has moved everything which is in compliance with the policy. We will not be delaying close or restart for people not having completed their own migrations.

Please make sure that those people who are not in the office are contacted and comply (eg Dana - please cover Kevin's migration requirements)

Thanks

Louise

Subject: Move Information for the 6th floor

I just wanted to keep you posted on the information that I know so far about the move. Of course, it could change with in the next five minutes so it's not written in stone.

As of now, the move for the 6 th floor is scheduled for Friday (2/8). Not exactly sure what time this is going to take place yet. Please make sure that everyone is packed and ready by early Friday morning.. If there is someone out on Friday, please make sure they pack before they leave or you have someone pack their stuff for them. Please make sure that everyone cleans out their desk completely. I know that boxes are hard to find right now. If any of you know that you will need quite a few boxes for your groups, please let me know ASAP so I can have them delivered by Thursday . I know that there are some boxes on floor 4 in the South building, so you might want to just go grab some. Labels hopefully will be here Friday morning. Once I get them I will immediately pass them out. I have attached the floor plan for the 6 th floor for those of you that want to know where your groups are going (if you don't know already) . Plus you might want to show it to your groups so they know where to report to on Monday morning.

If you have any other questions please let me know. I will update you as soon as I find out more or if there are any changes to this schedule.

Thanks,
Sonia Hennessy

Subject: DprAutomation with Financial Swap Liqudation is ready

Dear Casey, J.P.

The first version of new DprAutomation with Financial Swap Liquidation and other changes is ready for testing. The set of files is saved at M:\Power_devl\Test\Swap Liq\

Since the driver and folder are moving around at this moment, all files in that folder must be keeping under same folder.

The formula for Swap Liq is the same as previous agreement.

Also Swap Liq have been rewritten. It is automation row. It can pull all files from Unix and without manually pulling them via PortCal. The Calculate time for each pair desk/region also has been cut from about 2 minutes down to about 5 seconds. Total time for adding J9 issue is less 5 minutes at this time.

For roll files, I change some tabs names to match their names in Oracle region name. Otherwise, DprAutomation can't work.

If you really need the regions names as your new rolls file, I am going to find a way to hard code mapping them in DprAutomation. However, we think the best way is setup those change in Oracle database.

All files in that folder are copy files. Any change only affects those copy files.

The tabs names I change in copy rolls are:
R1: NY Zone G -> NY EAST
R1A: PJM West -> PJM
R1C: NY Zone A -> NY WEST
R1D: PJM EASTTERN Hub -> EASTTERN Hub
R1Z: PJM WESTTERN Hub -> WESTTERN Hub
R3B: TVA -> Into TVA
R4C: Comed -> Into Comed

I will continue to test, optimize and polish the Swap Liq and DprAutomation.

Please let us know if there is any correction or any problem.

Thanks!

Min Zheng

Subject: "J9"/latest roll files/DprAutomation

Casey,

I have finished all big pieces of "J9" and other which are related to DprAutomation. I will put all those pieces together.

Since all of us need to log off of our PCs tonight. I can't work tonight. I will try to make the first version before end of tomorrow.

Also, could you let me know where is your latest roll files location. I need to COPY those files to my PC and have a full test on those COPY files.

BTW, all of our accounts will be switched to UBS. That change may impact PC and Excel setting. I will be my desk < 8 Am. Let me know if there is anything I can do.

Thank you!

Min Zheng

Subject: RE: "Best Practices" Meeting - Tuesday, Feb. 5

I hope that all of you will attend this meeting, either in person on via video conference. To make our time productive, please come prepared with the following:

1) List of what we have done well in Operations and will want to repeat as UBS Warburg Energy. This can be in your specific area of responsiblity or broader across all aspects of Operations (running risk books, broker check-out, confirmation prep, execution and tracking, scheduling, volume management, settlements, collections, operational analysis, etc.) .

2) With the luxury of no history and a fresh start, what would you do differently? Please be specific, and again your suggestions can relate to your area of responsibility or may be broader.

3) If you could change or enhance one thing about the operating systems that you use to do your job, what would that be? Please be specific and constructive on this. An answer of "Unify" for instance, will be too broad.

Call me if you have any questions. --Sally

Subject: Interest Rate Curves

Hi,

Is anyone talking to you guys about sourcing end of day Interest Rate Curves for your various risk management systems, or would you like me to arrange for them to be sent to you at the end of each day?

I could arrange for a file containing the OBS (UBSW Interest Rate Derivatives system) yield curves to be e-mailed to you once they are saved every afternoon. The official closes for the USD and CAD LIBOR curves are saved down at around 3:30pm / 3:40pm New York time each afternoon.

The files would contain prices for the swaps, futures and money market instruments that are used to build the curve, and also the corresponding zero coupon rates on a continuous A/365 basis. I guess we would have to talk about the exact form that your systems need the rates to be in to see if any conversion would be necessary.

Cheers,

James

Subject: Marking Curves For Tuesday 2/5/2002.
Importance: High

Dear All,

After the Windows Accounts migration tonight, our UBS traders will not be able to access the Estate EnPower Curve Manager. We are going to copy all the existing Curve data and files from the Estate to the UBS servers tonight. This would be the Final copy, so the UBS Curve data is considered Production data.

Starting tomorrow, please let the Estate Traders mark the Estate Curves, and UBS traders mark the UBS Production curves.

Estate Curve Manager will NOT be available between 8:00PM 2/4/2002 and 10:00AM 2/5/2002.

UBS Curve Manager will be available starting 10:00AM 2/5/2002.

Please let us know if there is any questions or concerns.

Regards,

Norman.

PS. Kathy, please contact Min if you need help on Alberta's Excel Position

Managers (Curve) files.

Folder: enron

Christina,

Please add the following items to our issues list. I have talked to Leslie about these and she will be able to talk through them on Monday.

1. Determine whether or not we need to establish POA's for cash accounts.
This is a Day 1 issue. Please insert after the 'Set up new cash accounts and lock box'.

2. Determine whether or not financial commodity trading, other than power and gas, will be allowed in order to ensure that all adequate curves, indexes, etc and being established in the rate system.

This is a Day 1 issue.

3. Need to set up meeting to discuss approval processes for new curves, books, settlement indexes after Day 1. Suggested groups to be involved: Market Risk, Credit Risk, Finance and Control, Operations.

4. Discussion around the use of Enron's 'New Counterparty' methodology.
This is a Day 1 issue.

Thanks,
Stacey

I will attend.

Also, is there someone who objects to sending invitations through the calendar tool? It is a much more efficient method of getting meetings on the calendar.

Thanks,
Stacey

Hey guys,

We need to try and get this populated today and distributed. Can each of you please take a look at the assigned section and let me know your comments. The only thing we are trying to do here is identify the activities of the Estate and what needs to be performed by the resources in each group.

Cara & Mike will you please update the scheduling and trading areas?

Stacey, will you please update the risk area?

I will work on the settlements / volume Management and I will work with Dave Steiner on the IT section.

Thanks so much for everyone's help. I'm sorry I'm out of the office today. We really need to get this done ASAP to help management understand who is available to assist in this time of transition.

Thanks - MO

Tom,

After our call today Mike Purcell and I spent a little time talking. We also have some time schedule to Cara and Jeff Richter tomorrow I have put together the attached template which I will hopefully have filled out for you by tomorrow afternoon.

Our biggest concern today was how we would address the Real-Time scheduling requirements. Mark Guzman is part of the estate and should be able to cover the day shift during the week and we can outsource to UBS to cover all the other shifts (Just a proposal). In addition, Lester Rawson is part of the estate and has Real-Time experience and is also the individual who currently manages the El Paso obligations.

If you have any questions please give me a call @ 503-702-9846.

Offer for Wells Fargo Customers.
Save on your year 2001 Tax Preparation
with Quicken
TurboTax
for the WebSM
Save 20%!
TurboTax for the Web is easy, fast, complete--and 20% off!1
Dear Wells Fargo Customer,
As the saying goes, "Out with the Old, In with the New." The New Year, that is. And one of the best ways to get a great start is to do your 2001 taxes online. It's easy, fast and will save you a lot of time and effort. We can help you do it--and save money--by offering you a significant discount on TurboTax for the Web service, the #1 online tax preparation solution. Use this product right now to do your taxes and submit your returns -- all online! We're presenting this offer to you today as a part of our ongoing dedication to helping you manage your financial life.
Why TurboTax for the Web is So Popular
TurboTax for the Web is #1 because it's easy, fast, complete. And it really does let you do your taxes with less pain and more gain!
TurboTax for the Web is easy because it:
- Asks you simple questions and places your answers in IRS-approved forms
- Performs all calculations automatically and guarantees accuracy of the calculations
- Double-checks for errors
- Files your return electronically at no extra cost
- Instantly transfers federal data to your state returns
- Includes all the forms you're likely to need

Save 20% on TurboTax for the Web
Now through April 15, 2002, save 20% on the full line of TurboTax for the Web products. There's one that's just right to suit your needs:
? RECOMMENDED: TurboTax Premium for the Web: Federal and State = $34.30
? REGULAR: TurboTax for the Web: Federal and State = $26.30
? FOR SIMPLE RETURNS: TurboTax EZ for the Web: Federal and State = $11.90
PRICES GO UP AFTER APRIL 1 (but you still get your 20% discount)! So try it today.
To use: click here .
How to receive TurboTax for the Web at 20% Off!
Please follow the instructions below. (Be sure to save this email in case you need to refer to it in the future.)
1. Click on this link: "TurboTax for the Web ".
2. You will be taken to Intuit's Prepare Your Taxes Online page -- just choose the TurboTax for the Web service appropriate for you by clicking on one of the following links:
     ? "Use TurboTax Premium"
     ? "Use TurboTax 1040"
     ? "Use TurboTax 1040EZ"
3. Sign on and use TurboTax for the Web to complete and file your return. (Be sure to write down your Member ID and Password in case you don't finish your return.)
Important: Remember that you must access TurboTax for the Web to complete your tax return from the TurboTax for the Web link in this email in order to receive this special discounted offer!
4. Click the "Continue" button.
5. Pay the remaining balance as instructed on the TurboTax payment page.
To find out answers to Frequently Asked Questions, click here .
Other Wells Fargo Services
Wells Fargo offers more personalized help with taxes, as well. Check out our Tax Resource Center where we have a variety of products and services that may help you earn more deductions and save on taxes.

To be totally consistent from the beginning, can you rename either your long term Long Names to not include spaces between 'North' and 'West' and 'South' and 'West'. The short term books do not have spaces.

FYI - the only other temporary information I can give you is Thursday Feb 7. is simulation date (as per previous e-mail) and Monday, Feb. 11 is the current 'go live' date. I'll try to keep you up to date with any changes. If there is ANYTHING we think we have not done or will not complete by next Wednesday, Feb. 5 such as desk set ups, RisktRAC set up (including hierarchies), individual roll set ups, testing of Min's new DPR Automation, and anything else I may not be thinking of, please let me know as soon as possible, so we can get the right resources working on it.

Thanks,
Stacey

Subject: UBS Data Migrations

I have received several questions from the floor regarding the subject topic. Here is what I know as of 2:00 today. This is an evolving process. Please distribute this note as appropriate:

All movement of 'data' from Enron to UBS is subject to legal approval. Legal is developing policy guidelines that will govern what and how much data individual users and the IT department can move.

Data can be defined as application data (source code, executables, scripts, etc...), business data (curves, prices, deals, weather forecasts, etc...), and office documents (spreadsheets, word files, etc...)

Data is housed in many different places, including desktop C drives, individual network H drives, common file servers (O/M/R/W drives), database

servers, application servers, and web servers.

Several steps have already been completed:

The physical file server environments for UBS have been established.
The physical DB server environments for UBS have been established.
The physical application and web server environments for UBS have been established.
Some file server directories have already been copied. This was limited to data (executables, risk excel sheets, etc...) necessary for IT to test our critical applications in the new UBS production environment.
Our large EnPower and TDS Oracle databases were also copied for application testing.

Where do we stand?

I am maintaining, and have distributed to this group, an inventory of all software and hardware components associated with our Power application portfolio. The inventory includes specific common file server directories that are necessary for our Power apps to run. We have received input from several business owners in this area.
Legal and IT are collaborating on a process for moving file server data. (H/O/M/R/W) We are expecting a process definition within days, given our Day 0 target of February 6th. (legal integration date)
At this time, it sounds like individual UBS employees will participate in identifying files on the various file server drives listed above and signing a document specifying that that data movement adheres to legal policy guidelines. Individuals may even be asked to physically move (drag and drop) files from the old Enron drives to UBS holding drives. This is still under discussion.
We have made some basic assumptions about the amount of business data to be moved to UBS. I have provided Tim, Kevin, and Lloyd an overview of these assumptions. This is also still under discussion.

I will schedule a meeting in the next couple of days to discuss this, and other transition issues, in more detail.

Thanks, Steve

Subject: Trader & Customer simulation for www.UBSWenergy.com
Importance: High

Everyone,

As we prepare to re-launch the website, we're planning a simulation session for our traders and originators for next week (tentatively Monday). This session will be similar to the ones we had before the initial launch of EnronOnline. In brief, the goals are:

Test the integrity/functionality of the system and related processes,

Get everyone re-acclimated with the system and processes (traders, originators, credit, operations, help desk, et al), and
Show how the trading system and our processes work to the UBS staff visiting next week.

In order for the simulation to be successful, we will need to ensure that the simulation environment is exactly like the "live" trading environment. We will need to coordinate with each one of you about what needs to get done to make this possible. I will be sending out an invite for a meeting tomorrow morning. Please make sure you attend to discuss what needs to get done on your end (setting up trader/counterparty profiles, credit headroom, etc.), as this simulation has been requested for early next week. If you have prior commitments, please appoint someone from your group to fill in for you.

Feel free to call me with any questions.

Regards,
Rahil

Andrew-

I have created a draft of our RisktRAC book setup spreadsheet for East Power. Can you take a look at it and see if everything is accurate. One issue I have relates to the 'Trading Location' field. We had previously used 'US Power East', but this is not part of the dropdown menu in the field. Has this location been changed to something else?

Thanks!

Andrea

As a follow up to this email, we will start reporting the DPR's on Wednesday's and Monday's, for Tuesday and Friday valuations. The first Wednesday will be the 30th of January. Each day we should expect to report the positions, P&L and PRMA of only those transactions we expect to fulfill. With the exception of Gas, Susan Trevino will be sending the benchmarks to each of the groups for their review.

If anyone anticipates any problems with this time frame, please call me or Shona to discuss.

Chris

Subject: DPR reporting for 22nd trading due today - request by Fallon

Fallon has requested a DPR be prepared 2X a week for positions that we are executing on (active/live positions only, no terminations or deals we are not executing on). We have put together the shell of how this DPR will look. To start this process we are planning to present to him positions (column E) and PRM value (column X) as of 1/23. To do this, we have laid out the following steps:

- we need to get the PRM values directly from you (column X)
- we will run the benchmarks and need to work with you to ensure you are happy with the benchmark numbers we have pulled from RMS (the exception is gas, we need the gas risk group to provide the gas bench to us)
- we need all of then exceptions/qualifications to your numbers

- we will need the other information in the schedule to be reported to us starting next week, but not for this exercise

Please confirm to me/Shona that you can get us this info by 230 pm today.

Lastly, I am attaching the unofficialized book list as these books will not make it into the benchmarks and need you to confirm that there are no 3rd party positions in these books.

Thanks in advance

Subject: Zhiyun is leaving

Dear Everyone:

  As some of you might have heard, I gave my one-week notification last Friday, my last day with Enron will be Thursday, 1/31. The reason of my leaving is purely visa status, I have nothing but joy working with you all in the last one and half years, the wonderful experience made the departure a painful decision.

  I shall be around in the next few days should you need anything from me. I'd like to thank you all for making my work at Enron such a thrill experience, for your support and friendship, I hope I will have a chance and honor to work with you again in the future.

  Good luck to all of us!

- Zhiyun

This should answer your regional trading question. Once again, there is nothing to physically stop them from trading in any region, but the management decision on regional trading for the East is as follows. I do not have this same information from the West.

Stacey

Please see the following regions and associated traders:

* NEPOOL PTF - Dana Davis, Willis Philip, Rob Stalford
* NY Zone J (FP and Basis) - Rob Benson, Juan Padron, Rob Stalford
* NY Zone G - Rob Benson, Juan Padron, Rob Stalford
* NY Zone A - Rob Benson, Juan Padron, Rob Stalford
* Ontario (FP and Basis) - unknown at this time
* PJM East Hub (FP and Basis) - Rob Benson
* PJM West Hub - Rob Benson, Peter Makkai, Rob Stalford
* PJM West (Basis) - Rob Benson
* Cinergy - Fletch Sturm, Russell Ballato, Don Baughman, Lloyd Will, Steve Wang
* Com-Ed (FP and Basis) - Fletch Sturm, Russell Ballato, Don Baughman
* TVA (FP and Basis) - Eric Saibi, Miguel Garcia, Lloyd Will
* Entergy (FP and Basis) - Mike Carson, Eric Saibi, Miguel Garcia, Lloyd Will, Steve Wang
* SOCO -- Mike Carson, Eric Saibi, Miguel Garcia, Lloyd Will, Steve Wang
* ERCOT South (FP) - Doug Gilbert-Smith, Jeff King, Paul Schiavone, Steve Wang
* ERCOT North (Basis) - Doug Gilbert-Smith, Jeff King, Paul Schiavone

NOTE - Kevin Presto will be trading ALL regions

Please let me know if you have any questions!

Casey,

Please provide us with the trader names who will be managing the locations on the bottom of this email. Once we receive this information, we will be applying the names and testing the products. If there are more than one trader per location due to the term of the trade, please let us know what that breakout will be. Thank you.

Kevin

To: Presto, Kevin M.
Subject: RE: Books

As you finalize the personnel issues, any information regarding which trader will be managing each location is extremely helpful. The reason for this is because we must apply the trader to the appropriate product(s) in order to test the system completely. Using the information you provide, we will be able to make sure the traders are set up correctly prior to our go-live date.

Kevin

Kevin,

Please identify which trader will be managing the locations you have listed below so we can have the system fully tested as soon as possible. I understand that we will be using peak and off-peak only for the locations below. We will work with the trader of the Ontario location and Leslie Hansen to develop this location, as we do not have anything in the system for this yet. Thanks, in advance, for your response.

As a follow up to this email, we will start reporting the DPR's on Wednesday's and Monday's, for Tuesday and Friday valuations. The first Wednesday will be the 30th of January. Each day we should expect to report the positions, P&L and PRMA of only those transactions we expect to fulfill. With the exception of Gas, Susan Trevino will be sending the benchmarks to each of the groups for their review.

If anyone anticipates any problems with this time frame, please call me or Shona to discuss.

Chris

Subject: DPR reporting for 22nd trading due today - request by Fallon

Fallon has requested a DPR be prepared 2X a week for positions that we are executing on (active/live positions only, no terminations or deals we are not executing on). We have put together the shell of how this DPR will look. To start this process we are planning to present to him positions (column E) and PRM value (column X) as of 1/23. To do this, we have laid out the following steps:

- we need to get the PRM values directly from you (column X)
- we will run the benchmarks and need to work with you to ensure you are happy with the benchmark numbers we have pulled from RMS (the exception is gas, we need the gas risk group to provide the gas bench to us)
- we need all of then exceptions/qualifications to your numbers
- we will need the other information in the schedule to be reported to us starting next week, but not for this exercise

Please confirm to me/Shona that you can get us this info by 230 pm today.

Lastly, I am attaching the unofficialized book list as these books will not make it into the benchmarks and need you to confirm that there are no 3rd party positions in these books.

Thanks in advance

Sounds good to me. FYI - the option true-up was a different issue, related to the way options were being input into the system. They had days which would fall out of the calc, not a last day of the month problem.

Stacey

Subject: RE: Food for thought

What do you guys think about this.....assuming we can put a fix in port calc that will allow us to true-up the current day (correctly), we could simply recalc the books the following morning (after last day of month) after indeces have been posted, then adjust the financial numbers in the vlookup according to the new top pages?!

 -----Original Message-----
From: Postlethwaite, John
Sent: Monday, January 28, 2002 4:25 PM
To: Evans, Casey; White, Stacey W.
Subject: Food for thought

Since 99% of the deals that we did in Calgary were financial, one of the biggest problems we encountered was the last day of true ups at month end. Because we cannot capture the last day of the month right now, as the volume of financial deals grow (assuming it will), it is possible we could be dealing with fairly large PMA adjustments.

We may need to start thinking about a way that we could capture these numbers.

John

Power December books are final. This does not mean that every termination has been accounted for in the final Dec. 31 calculation. We eventually hit a stopping point for terminations and will catch up the remainder of terminations in 'after December' books.

Also, power books are set up as you have defined below.

Subject: risk books for December

I am following up to see where we stand on the risk books for December. My understanding is that we will have at least 3 categories: legally terminated, not performing but not terminated, and still performing.

The deals that are still performing should have liquidations, etc. "as normal" - the remainder will be "frozen" until an amount is settled with the counterparty.

I am inheriting the MTM group and am trying to get as much done before we split with the people going to NETCO, so if you can give me the status and ETA if the books are not done I would greatly appreciate it.

thanks

All,
I received a call from Sally Beck today alerting me to concerns about spreading the risk group across the floor (gas team - power team). From a control perspective she prefers that the team be all together.

Can you factor this in and give Sally and me your thoughts as well? Perhaps we could find an area that is more central to both groups that will help with this (as we've done with fundies).

Scott and I are meeting Tuesday afternoon at 4:00 - Lloyd and Sally are you free to join us to keep us all on the same page? Please let me know so I can reserve a room.

Tammy

Subject: Job Inquiry

Can you find out who in your HR would be a good contact for a job opening previously held by Lou Casari? I have a friend at Enron, my first boss, who will probably be leaving the company, but does not want to leave Houston if she does not have to. She is very well qualified for a

management position, her resume should speak for itself.

Let me know.

Stacey

Subject: risk books for December

I am following up to see where we stand on the risk books for December. My understanding is that we will have at least 3 categories: legally terminated, not performing but not terminated, and still performing.

The deals that are still performing should have liquidations, etc. "as normal" - the remainder will be "frozen" until an amount is settled with the counterparty.

I am inheriting the MTM group and am trying to get as much done before we split with the people going to NETCO, so if you can give me the status and ETA if the books are not done I would greatly appreciate it.

thanks
Lisa

Subject: DPR reporting for 22nd trading due today - request by Fallon

Fallon has requested a DPR be prepared 2X a week for positions that we are executing on (active/live positions only, no terminations or deals we are not executing on). We have put together the shell of how this DPR will look. To start this process we are planning to present to him positions (column E) and PRM value (column X) as of 1/23. To do this, we have laid out the following steps:

- we need to get the PRM values directly from you (column X)
- we will run the benchmarks and need to work with you to ensure you are happy with the benchmark numbers we have pulled from RMS (the exception is gas, we need the gas risk group to provide the gas bench to us)
- we need all of then exceptions/qualifications to your numbers
- we will need the other information in the schedule to be reported to us starting next week, but not for this exercise

Please confirm to me/Shona that you can get us this info by 230 pm today.

Lastly, I am attaching the unofficialized book list as these books will not

make it into the benchmarks and need you to confirm that there are no 3rd party positions in these books.

Thanks in advance

Talked to Tim last night - basically, they were either letting people know by phone yesterday or in person today. They were going to let them know they had a position with the estate and leave it up to them as to whether or not they wanted to come in over the next few days. Tim wasn't exactly sure the reporting relationship and/or what they would be doing, but felt that everyone would have a role at least in the short-term. I believe that Wednesday is the day that UBS will be in Portland to do benefits review and UBS overview......

Sorry I can't be more specific!

All right, we have tried to almost complete a whole month without seeing eachother. Now that I have turned thirty, Bridget has run the marathon, and Kelly had Luke, we no longer havea excuse not to see eachother. O.K. Kelly, we might make a small exception for you. I think we should start off with a small novella, written by Steve Martin. Yes, Steve Martin, the comedian. He has a short book in the stores; he has written. It is called Shopgirl. The reviews in Amazon are fairly good. Does anyone else have a good suggestion? I think meeting in the beginning of February would be a good idea. -Christina
P.S. We miised you, Kelly and Anna at my fine party(oh yeah it was for Kelly Kampe too!). Ya'll will just have to hear all about it.

Thank you so much for this query. At this time, I am not sure what happened to the numbers in our spreadsheet. The data was pulled from AdHoc by calculating East, West, Eastbank, & Westbank. However, the total we retrieved from AdHoc did not match the total Portcalc value. I do not want you to spend time trying to figure out what happened to our spreadsheet because it could have been anything from using the wrong code to calc the books to simple user error. There are too many variables that are unknown.

The good thing is, it works now.

Thanks,
Stacey

Hi Stacey:

We were able to pull out the P&L vs Counter Party for the four Post IDs, and the total matched the $986,414,195 you gave, it seems that there are more counterparties than what you included in the spreadsheet. Please see the attached spreadsheet for details.

<< File: PL_11_30_2001recalc.xls >>

Could you let us know how the number in your spreadsheet was generated? Was it from DPR or some other spreadsheet? Maybe we can take a look at the query to see if something is missed.

Thanks,

- Zhiyun

We have already created gas books for the top half of the list. We now need to attach Gas Daily (I and Y risk types)to these books. Also, we need to create gas books for the bottom half of the list, as well as, attach Gas Daily (I and Y risk types).

Thank you.

J.P.

As we discussed yesterday, here is the list of information that we need to gather to put into the booklets. Please give us information (Chris, Keith, Susie, Susan and me) information as you get it. The first priority is the rolls supporting the DPR information. Also, please remember that all information needs to be reconciled to DPR information. Please let Chris, Keith & myself know of your time frame to get us this info. Currently, expectations are that we should have at least the rolls by the end of the

week this week.

Hope this helps a little bit re: RisktRAC. After talking to Jeff, I believe the key to book codes is ensuring from IT that we can use whatever we want as the database will be entry. Andrea, I agree that you should keep a power list and Kam should keep the gas list. Also, just wondering if when we set up the gas books should we have also put in requests for gas daily, basis, index, etc. I couldn't remember how that worked.

Parameters!!!

Three aspiring psychiatrists were attending their first class on emotional extremes. "Just to establish some parameters," said the professor, to the student from Arkansas, "What is the opposite of joy?"
"Sadness," said the student.
"and the opposite of depression?" he asked of the young lady from Oklahoma.
"Elation," she said.
"And you sir," he said to the young man from Texas, "How about the opposite of woe?"
The Texan replied, "Sir, I believe that would be giddy up."

Not much else. Thursday the judge will approve or deny the deal. There is not too much worry about the creditors apposing the deal as has been reported. It is a matter of understanding the deal better since they were on the outside looking in.

Thanks
I have moved deals where Houston has the master to an Alberta ENA terminations book (the postid is 15872 for Jan 10th. Counterparties in the book are BP, Coral, ElPaso, Maclaren, Mirant, and ECC. (I still need to move the ECC deals). I think you would need to consider this book anytime you are doing termination calculations for any of these counterparies.

Please start the following task in the morning:

Using the Official 11-30 calcs that you exported deal summaries from, add the following counterparty's MTM by desk:
Constellation
Energy Authority
Sempra Energy Trading
Public Service of Colorado

I believe the calc that identified our top-levels had extra transactions or values that did not fall out of our books. Once you have figured out the total for the above counterparties compare them to your top-levels.

Thanks,
Stacey

Each of you needs to send a book request for the East & West portfolios for the counterparties listed in the following spreadsheet. The spreadsheet identifies those counterparties which we are still performing under the contracts. Please create a East-Performance and a West-Performance book. We then need to get all deals with the following counterparties moved to those books. I would suggest you pull the values out of AdHoc as of 12/31 for the counterparties by desk before transferring them to the new desk. Obviously these transactions will create prior days and the amount will run through the P&L in the old and new books and flatten out. The remaining prior day value will need to be in Schedule E.

Subject: Enpower Outage Notice ***THIS WEEKEND***

Good Morning,

To support the Enron Estate / NETCO split, Enpower will be going down this weekend. Starting at 6:00pm Friday, January 11th, we begin the process of moving databases & renaming them for the two companies. The application is scheduled to be back online at 6:00pm on Saturday, January 12th. The application team & any users volunteering for weekend testing will then begin performing some basic test scripts to ensure the applications still work.

Please note that after the change, you will need to change any Excel Spreadsheets or Access Databases that connect to the "PWRPRODN" or "PWRPRODN_DED" database aliases to "ESTPWRPN".

Thanks, David Poston

Sonia,

It looks like you have a meeting from 2-4, so can you send me any documentation that you may have done re: any seating arrangements in the new building.

Thanks,
Stacey

Tim,

John's communication regarding not updating December was in order to complete December liquidations for accounting and settlements last week. However, we were then informed that settlements would not draft their billing until the 14th of January so we then retracted our 'hold' on updating December schedule. Any updates that can be made in order for settlements to get the most accurate data would be most appreciated.

In addition, the cash flow forecast (as indicated by Don) will be coordinated through Kristin. I do not believe you will have to do any work for this as all the data will come from our risk calculations and true settlement information.

Thanks,
Stacey

Subject: RE: Dec and Jan liquidations

Yesterday I was approached by Steve Thome who had been asked by Brandon Wax (who was asked by Don Miller?) looking for a cash forecast for deals that flowed in December. While I'd like to be helpful, I have never done a cash forecast before. We don't have the tools set up in Portland to do this sort of thing. The data to do this has historically resided in Enpower. A week ago the West Power desk met and agreed that we were able to and prepared to update Enpower in "Schedule" for all of the deals that flowed in December. Diana Scholtes sent an e-mail (below) to Leslie Reeves on January 3rd indicating that we were prepared to update Enpower. We heard from John Postlethwaite that Leslie didn't want us to update Schedule -- instead they could work off of our trade sheets.

I don't care which way we move forward. It just seems that we aren't all on the same page. We just want to do whatever needs to be done to get the right information to the right people. Exerience tells me that we are better off doing it "right" the first time. I am hoping that between Don, Leslie, and Stacey we can get some clear direction on what you would like us to do. As of now, there is little I can do to assist Brandon with his request for a cash flow projection.

Regards,
Tim

Subject: Dec and Jan liquidations

It has come to my attention that there seems to be miscommunication between various groups and people about how Dec and Jan scheduling for non-terminated deals should be handled. There are conflicting reports that Houston, through the estate, will handle updating scheduling in Enpower or that the scheduling group should be updating Enpower accordingly.

What I am hoping for is that by whatever communications means necessary we can come to a final action plan on how to clean this and get Enpower up to date as quickly and as accurately as possible.

Thanks,

John

Subject: January Settlements

Leslie,

I'm trying to get a jump on making sure we have everything done properly in Enpower for the month of January. My question is whether we, the West desk, should enter any changes in Enpower due to OUR non-delivery and/or incremental deals? We have everything recorded on our Trade sheets, but if

it would make it easier for you to settle or relay to the Estate by us making the changes in Deal Scheduling, we can do so.

I also understand, after talking to John, you will be using our Trade sheets for such changes for the month of December. I'm not sure who you would like us to assist in translating our sheets, but if you can call me, we can set up a conference call and I'll coordinate from each desk to attend.

If there is anything else that you need us to do to help your group please let me know.

Diana Scholtes

Subject: Enpower Outage Notice ***THIS WEEKEND***

Good Morning,

To support the Enron Estate / NETCO split, Enpower will be going down this weekend. Starting at 6:00pm Friday, January 11th, we begin the process of moving databases & renaming them for the two companies. The application is scheduled to be back online at 6:00pm on Saturday, January 12th. The application team & any users volunteering for weekend testing will then begin performing some basic test scripts to ensure the applications still work.

Please note that after the change, you will need to change any Excel Spreadsheets or Access Databases that connect to the "PWRPRODN" or "PWRPRODN_DED" database aliases to "ESTPWRPN".

Thanks, David Poston

Subject: NETCO

The New Year has arrived and we really to finalize a lot of the work with regards to moving into NETCO. Obviously we still do not have a deal but the deadline is approaching and preparations need to be finalized.

The main areas to focus on over the next week are:-

(i) Re-start/Integration Plans (due on Jan 7) To be forwarded to Louise

These plans need to be detailed and show clear detailed timelines and detailed responsibilities for getting us up and running as soon as possible.

The current restart date is January 21, 2001 but may be pushed forward to January 14, 2002.

(ii) Budget (due Jan 3, 2002) To be forwarded to Faith Killen

First year budget to include all start up costs (some of which can be amortized)

(iii) Seating Plans Tammy Shepperd to co-ordinate

We need to start the planning process for seating as we will be living on floors 5 & 6 of the Enron South building.

I have asked Tammy Shepperd to commence the seating plan and we would look to start the moves as soon as possible but with a large number occuring around January 11,2002.

(iv) Due Diligence

We continue the process with two new companies this week (Wednesday and Thursday). Andy Zipper is taking the lead for the company arriving on Wednesday, please help him with his requirements.

I would ask that both John and I are notified of any changes to the Netco personnel list on a timely fashion and that the list is maintained on a continual basis. Please forward all alterations to Jeanie Slone who has responsibility for the master list.

Communication - I believe that the New Year combined with a internal communication issues may be a good time to review what we want to say on Netco and what our policies are. I am asking David Oxley to co-ordinate with all of you on this. I know a lot of you believe that we need to only communicate once we have retention programme in place for the estate which may be a good idea but we we need to make sure that we lose as few people as possible.

If you are unavailable this week, please ensure you delegate this work out.

Happy New Year

Louise

Subject: Enron/TXU Exposure summary

Carl,

Please review the attached. I have attempted to summarize our mutual exposures by legal entity. If the numbers in the spreadsheet are negative, then that is monies owed by TXU to Enron.

I am still waiting for exposure summaries from TXU Energy Services as it applies to Garden State Paper.

As discussed today, my intent is to quickly reach agreement as to a fair and reasonable resolution of eliminating Enron positions from our book structure. I feel confident that our combined legal staffs can bind our intent as required.

THE ATTACHED SCHEDULES CONTAIN CONFIDENTIAL INFORMATION AND IS SUBJECT TO FEDERAL RULE OF EVIDENCE 408 - FOR SETTLEMENT DISCUSSION PURPOSES ONLY - NOT TO BE OTHERWISE ADMISSIBLE

Please give me a call when you've had a chance to review.

To: Kitchen, Louise; White, Stacey W.; Webb, Jay
Cc: Lavorato, John
Subject: RE: Interest Rates

Following the discussions I have had with Louise and Jay, this is the proposed solution to the interest rate risk management in NEWCO.

1. For the first few weeks (to a few months) we continue to use Infinity to update the curves at 2 PM. I will need to have one trader to execute, mark curves and do any deals for foreign exchange (Cd$ etc.). Louise, I hope you have this in your budget and headcount. I will need one junior trader(and maybe two as things grow) to help do this job. I have lined up one of the guys in the old trading desk, if this goes forward.

2. In the first few weeks, Jay Webb and myself are hoping to acquire a lighter, and much simpler interest rate package which will allow us to do what we do, with significantly lower costs. We also will re-design the way we aggregate interest rate risk in the commodity books, to make it simpler and easier. To ensure there is no more discussion ever of drift-reallocation, I propose a method where, every desk head gets back his complete interest rate portfolio drift every month or quarter (less any transaction expenses). I would expect that, the interest rate curve shift will be small till we build a somewhat longer dated portfolio, while the drift could start becoming substantial pretty quickly (as we start making money).

Hope this answers the questions. We will have the curves at the right time, done by the trading group. We will still measure and manage our own exposure to both interest rates and currencies. We intend to allocate small VAR to that risk management. We would deal primarily with one or two counterparties - the parent bank and a couple of futures brokers to manage the risk.

Just to be very clear, while I am happy to manage this risk (with extra help), I am primarily interested in the running of power options and structured products.

Harry

PS - I cant find Jeffrey Gossett in the email system, Stacey can you forward the email to him (I dont know if he is an Ene employee)

Subject: Interest Rates

John/Louise -

Given that under the current plan, the bank will be trading our interest rate risk, I doubt we are taking an interest rate trader to Newco. In order to get the books run we will need an interest rate curve.

Should I plan on just getting access to Reuters and setting a curve off of LIBOR on my own?

Jeff

Subject:	Schedule E Reconciliation
Message-ID:	<600732.1075842007455.JavaMail.evans@thyme>
Folder:	enron

After talking to Tom I have a new plan of attack for Schedule E's. He informed me that the top-levels were typically put in at one region level per roll. I had Zhiyun re-run the killed deals calc (post id 15667). Everyone should go back into the rolls and put the top-levels into their correct regions also adjusting the Schedule E's. This is why the differences are so large in certain areas and the only way we can start to pinpoint the problem is to find the problem spots.

I have also identified where the $4.6 MM difference for OPPD arose from. Deal # 11678.04 has not been transferred into the East Bank book. In addition, there are no volumes in this deals; however, if you look back to the official 11/30/2001 calc there are volumes for this deal. It gets more bizarre than that because there were two deals that should have been transferred for OPPD (11678.4, and 564826.1). Deal 564826.1 was transferred but the valuations are approximately $4MM different. I have printed detail for deals 11678.4 and 564826.1 (they are in Casey's chair) as of the 11/30/2001 official calc. I have also printed deal 564826.1 in the 11/30/2001 bankruptcy calc. I noticed that I cannot see any swap detail reports for the bankruptcy calc. Please re-calc and generate these reports as they will probably be important as we dig into details.

Other than Andrea who has to perform some IT testing, no one should be working (or playing) on anything other than trying to get these Schedule E's and top-levels figured out. The task is actually very important as there will be many decisions made off of these numbers.

Thanks,
Stacey

Here is the latest results from our valuation engine. Please let me know if you see any mistakes. We will update with your newest changes tomorrow, so you can exclude those from your evaluation. I also noticed that their is a financial UI transaction. I believe this was just an oversite and have asked Casey to look into it.

Thanks,
Stacey

Subject: RE: East Bankruptcy Post ID

I am now getting 4 official post ids from EnPower for the bankruptcy books. We used to get only 2 (East and West). Should we be getting four (4)? For the 4th of January we got the following Post IDS

POST_ID
15616
15622
15623
15628

Were those correct ? If let us know when we should be getting a larger count on a daily basis.

John

I think we really need to get someone to ensure that the option sensitivity report is working and working quickly. If we are going to be trading a lot of financial deals then this would be beneficial. I know Hai did a lot of testing on it but I thought there were still problems. Am I wrong?

John

Subject: NETCO

The New Year has arrived and we really to finalize a lot of the work with regards to moving into NETCO. Obviously we still do not have a deal but the deadline is approaching and preparations need to be finalized.

The main areas to focus on over the next week are:-

(i) Re-start/Integration Plans (due on Jan 7) To be forwarded to Louise

These plans need to be detailed and show clear detailed timelines and detailed responsibilities for getting us up and running as soon as possible.

The current restart date is January 21, 2001 but may be pushed forward to January 14, 2002.

(ii) Budget (due Jan 3, 2002) To be forwarded to Faith Killen

First year budget to include all start up costs (some of which can be amortized)

(iii) Seating Plans Tammy Shepperd to co-ordinate

We need to start the planning process for seating as we will be living on floors 5 & 6 of the Enron South building.

I have asked Tammy Shepperd to commence the seating plan and we would look to start the moves as soon as possible but with a large number occuring around January 11,2002.

(iv) Due Diligence

We continue the process with two new companies this week (Wednesday and Thursday). Andy Zipper is taking the lead for the company arriving on Wednesday, please help him with his requirements.

I would ask that both John and I are notified of any changes to the Netco personnel list on a timely fashion and that the list is maintained on a continual basis. Please forward all alterations to Jeanie Slone who has responsibility for the master list.

Communication - I believe that the New Year combined with a internal communication issues may be a good time to review what we want to say on Netco and what our policies are. I am asking David Oxley to co-ordinate with all of you on this. I know a lot of you believe that we need to only communicate once we have retention programme in place for the estate which may be a good idea but we we need to make sure that we lose as few people as possible.

If you are unavailable this week, please ensure you delegate this work out.

Happy New Year

Louise

Eric/Jim:

I am trying to answer the question below as it relates to certain receivables purchased by Sequoia.

I am having someone identify the Sequoia receivables from a rather large database [HOUPOW and HOUGAS] of gas/power receivables; however, I need to be able to identify exactly when the receivable was paid by our counterparty. If you are not the correct person to speak with, could you tell me who is? Thanks. JNE

To: Ephross, Joel
Cc: McCullough, Travis; Winn, Melinda; Murray, Julia;
vance.beagles@weil.com
Subject: Re: FW: Sequoia Adv. Pro.: Draft Stipulation and Order

The first question is, as of the relevant dates (November 29, December 2, December 11, and for completeness, all intervening dates) did Sequoia, Cherokee or EFP have assets other than Enron receivables? If so what were they, down to particular receivables, and what was done with any proceeds thereof? For the purpose of this question and the proposed stipulation, ignore EFP assets that have nothing to do with Sequoia. If the answer is, "on November 29 there were receivables in _____ (identify entity) that resulted in subsequent collections of $_____ (amount) on _____ (date), where were the proceeds deposited? If in an Enron account commingled with other funds, segregation may not apply. If segregation applies, then the DIP lenders may or may not need to consent.

Also, please look at the description in the stipulation of information to be provided and advise if it accurately describes what we have already delivered. If not, please advise regarding any discrepancies.

Thanks.

Subject: FW: Sequoia Adv. Pro.: Draft Stipulation and Order

Travis/Martin: can we agree to segregate and hold cash in trust, given the DIP financing document?

Julia: do we need approval of the cash committee internally before executing? The creditors committee?

NOTE: amount at issue here is about $14,000,000.

True to form, Kelley Drye sent the form of stipulation and order last night and want to submit it today. Don't worry about the timing request, but I would like your comments, particularly as to the paragraphs regarding what we have or will deliver. As for the segregation paragraph, all we agreed to segregate were Sequoia assets. I need to understand what is in the other entities, if anything, before I tell them to stick it or agree because we don't care.

Casey and John can get back to you on your specific question re: Canada. However, I wanted to let you know that our DPR will more than likely not be final until Friday. Hopefully we can get you all reports then. We have had to leave the DPR open due to many terminations that are still funneling our way and we are getting the 12-31 data as clean as possible for the estate.

Stacey,Casey and John

Can you guys let me know which books still have deals with Canada? If so, are they still in the original files or have they been moved to another book. As you can see below, the request for the Estate information is begun. Please let me know if you have any problem getting the liquidations to me sometime today or early tomorrow morning.

John - Do you have a Dpr for 12-31? If so could you copy it to the report directory.

Let me know if you have any questions, or problems gather this information.

Thanks
Tracy

Subject: Estate Issues
Importance: High

There are a few things that we need to compile for the Estate.

1) Please load your December liquidations into your "flash" database so that I can get a good number for Gas December liquidations.

2) TG - need your liquidation file from power risk.

3) We need to find out which books have deals with Canada, gas and power. For the gas books, these deals had to remain in the original book because risk could not move these to the Gas Price book because of the pricing structure. TG - for the power books, can you check with Stacey?

4) Also, we need to get a list of books, gas & power, that have a gross book balance as of 12/31/2001.

Put your lists together in the attached template and send back to me. Let's try to have this data "rounded" up by tomorrow morning at 10:00 am. I'm sure that this will not be all the data that is needed, but I'll let you know as soon as I get the requests.

thanks for your help

Please let me know your thoughts on the following correspondence. We are in the process of putting together our integration plan and the interest rate curve is one of our biggest stumbling blocks since the interest rate group will not be going to NEWCO. As you can see, your name has been volunteered and I need to know what all you will need access to in order to get this curve to the Risk Management groups on a timely (preferably 2:00 p. m.) basis.

Thanks,
Stacey

John/Louise -

Given that under the current plan, the bank will be trading our interest

rate risk, I doubt we are taking an interest rate trader to Newco. In order to get the books run we will need an interest rate curve.

Should I plan on just getting access to Reuters and setting a curve off of LIBOR on my own?

Go ahead and include counterparties on our power list even if they do not have any outstanding trades. That way, if anyone is comparing our lists later on their will be no discrepancy and they won't have to ask us again.

Thanks for all the other information.

Subject: RE: Terminated Transactions Reconciliation between Master Log, Power Physical spreadsheet, and Other

Stacey,

I have reviewed the section on the attachment of counterparties on the master log with a "Y" but not on the physical power terminated list. BP Energy Company is on the physical power terminated list. With the exception of the four new companies that appeared on the master list today and Ameren, we do not have any trades flowing after December 1, 2001 with the other counterparties. I have not been including counterparties on the list if we don't have any deals flowing December 2001 on out. If I need to include companies that we don't have outstanding trades with let me know.

Niagara Mohawk has been purchased by Select Energy New York, Inc. Tonight Global Counterparty is going to replace the Niagara Mohawk name with Select Energy New York, Inc. I have been waiting on global before adding Select to the termination list. I have not heard back on Ameren yet.

Once I have an answer from David on the other terminations (by alternate source) I will let you know.

Thanks for organizing the information from all of the e-mails.

Let me know if you need anything else. I will be sending an updated physical power termination list today.

Thanks,
Melissa

Please review and let me know if I have misrepresented any counterparties. If you want me to add comments, send them to me and I will incorporate.

Thanks,
Stacey

David,
Just to make sure you know, the Power Physical Terminated Transactions spreadsheet, is put together by Melissa from information she has received from Master Log and other. This is our primary source for moving transactions into the bankruptcy book as she review to ensure that the contracts terminated cover all our trades.

Thanks,
Stacey

Subject: EPMI Terminations

Attached is a list of termination received fro EPMI, which incorporates all terminations received through January 2. Additional terminations received that are still under legal review for a valid termination are the following:

Cargill-Alliant, LLC
Carolina Power & Light Company
City of Burbank
City of Redding
DTE Energy Trading, Inc.
MidAmerican Energy Company

The above counterparties will appear on the list for January 3.

Subject: RE: EPMI List of Non-terminated parties: East Power: LEM, Cargill Alliant

Though LG&E Energy Marketing Inc. ("LEM") has not delivered EPMI notice thereof, the wholesale power trading relationship with LEM should be considered terminated effective December 2, 2001 by reason of an automatic termination provision in Section 4.2 of the 1-22-97 Master Energy Purchase and Sale Agreement between LEM and EPMI. No further scheduling of trades under that master agreement should occur.

Though Cargill Alliant LLC is not being served currently, please note that the December 1, 1998 Master Energy Purchase & Sale Agreement with Cargill Alliant LLC terminated effective 12-2-01 by operation of its automatic termination provision.

The "restore services list" immediately below has now been revised to reflect these automatic terminations. Please let me know if you have any additional information, questions or comments. --David

Subject: RE: EPMI List of Non-terminated parties: East Power
Importance: High

The attachment reflects updates reviewed this afternoon arising out of additional credit war room files. Please note that the following counterparties should now be considered to have terminated their wholesale power enabling agreements with EPMI, and performance under any transactions with such parties, if any, should cease:

AES New Energy,
Cargill Alliant LLC,
CP&L,
OG&E, and

Southern Illinois Power Cooperative.

Rainbow and Split Rock have indicated that it was not their intention under their previous correspondence to have terminated, though EPMI may ultimately contest this (no right to partial termination).

Please contact me with any questions, or additional information you may obtain. David Portz (ext 39239)

Subject: RE: EPMI List Non terminated parties
Importance: High

1. The cc'd individuals shown above are to be cc'd on each e-mail communication relating to terminations by the counterparties shown below which have not yet terminated. Communication on termination notices coming in should be made as soon as possible after receipt from the counterparty. Please try to assure that any termination notices reaching the 6th floor credit war room are brought to you ASAP for review. Starting today, those counterparties shown in red may be receiving performance from EPMI on any given day going forward. To serve our commercial purposes, we are hoping to get the time beween receipt of wholesale power side terminations and their review and internal acknowledgment on your spreadsheet and among the referenced persons reduced to a maximum of 24 hours.

2. I am confirming back to you that MidAmerican Energy Company has delivered to EPMI a 1-2-02 notice of termination, terminating effective 1-4-02 all wholesale power transactions under its Master Power Purchase & Sale Agreement with EPMI dated 11-13-01. Please reflect this on your next issued spreadsheet.

Stacey,

I have attached updated termination lists. FirstEnergy and GPU have been added to the attached spreadsheets (along with a few other counterparties not referenced in your e-mail below). United Illuminating has terminated as well but we are researching which trades are terminated. I will let you know once the research is finished. I spoke to David Portz about the other counterparties listed below. He said they are all terminated and we should be notified on the next list we receive from legal.

Subject: Recent Contract Terminations

Below is an updated list of recent contract terminations. I believe we need to review our internal notification system to make sure this information gets distributed in a more timely fashion.

United Illuminating - effective January 1, 2002
HQ Energy Services - effective January 1, 2002
First Energy Solutions - effective January 2, 2002
Old Dominion - effective January 10, 2002 - we should schedule in PJM through the 10th of January (do we have any other positions with Old Dominion).
Ameren Energy
GPU Energy - effective January 21, 2002 - we should schedule in PJM through the 21st of January (they may push back, but we should remind them that they will be subject to LDs).

Call David Portz at 3-9239 with questions.

Subject: Min Zheng

Steve, I wanted to send this email in reference to Min Zhen with regards to the fact that he has not been included as one of the employees that will be a part of the new company. I wanted to make you aware of the fact the West and Canada power risk management groups consider Min to be a vital and very important part of the IT support that we receive. His knowledge and understanding of several very important excel macros that we use daily is critical to the success of our groups. It must be noted that on several occasions when other people were asked for help in areas that Min supports, the response was slow as people tried to understand what the problem was and how to fix it. I feel that is very important and necessary that Min be a part of the staff for the new company to ensure that all the risk groups continue to receive the exceptional support that we have come to expect from him.

John

I spoke to Tim today regarding the prepayment transactions with terminated counterparties. He constructed this e-mail in response. Hope this clarifies.

Have a Merry Christmas,
Stacey

Subject: New West Power Deal Info

Confidential: For Internal Distribution Only

The purpose of this e-mail is to bring everyone in the loop on activities on the west desk that we are undertaking to preserve as much value in our book as possible. I realize that our efforts to date have not been communicated to all internal people who need to know what we are doing. My apologies for this. Hopefully this e-mail will accomplish that goal.

A number of counterparties in the west have not yet terminated our deals and have benefited from our inability to procure power in the market to serve these deals. As a result, we haven't been delivering on several contracts that are deep in the money. Our counterparties have no motivation to terminate our contracts because such a termination would force them to write us a substantial check. Instead, these counterparties have been happy to not receive high priced power from us and are filling their positions in the market at much lower prices.

We have taken the limited supplies that we are still receiving and delivering these limited supplies to the highest price sales contracts that we have. We now have the ability to prepay for additional supplies in

order to fulfill additional pre-petition obligations that have not yet been terminated that are in the money. We have received approval from the Cash committee for purchases through December 27th (I think) and we will secure additional cash to continue on.

Here are the procedures as I understand them. If you have any questions or modifications please me an e-mail or give me a call.

Cash Desk
Each cash desk needs to identify all transactions in its region that have not been terminated.
On a counterparty by delivery point basis we need to assess whether the weighted average of all near term (next day to next week) deliveries with that counterparty are in the money.
If the average of all transactions with that counterparty at a given location are in the money, we should submit a request for and endeavor to serve the entire portfolio of deals with that counterparty at that delivery point. We are of the opinion now that we will not be able to cherry pick deals with one counterparty at the same location.
The cash desks should prepare a two week view of the positions that we will need to fill and an estimate (based on spot market prices) of the cash that we will need to serve these transactions to Steve Thome.
The cash desk should provide a daily list of prepay deals that have been done to John Postlethwaite via e-mail.
The cahs desk should provide a list of all historic prepays done so far to bring John current.

Marketing Desk
Steve Thome will coordinate the cash approval process for the west desk.
The marketing desk is responsible for lining up counterparties who will be willing to supply us on a prepay basis.
The marketing desk should direct any legal questions from sellers to Steve Hall/Christian Yoder.
Make sure that sellers fax a copy of the confirmation letter to Steve Hall /Christian Yoder at (503) 464-8058.
The marketing desk needs to work with the cash desk to buy power on a spot basis. We don't necessarily care who buys it, but rather, we want to ensure that we receive the best price and that all purchases are communicated.
Whoever secures a supply needs to communicate the need for cash to Steve Thome.

Deal Entry
The new deals need to be entered in a manner that will be possible to settle. After discussing the matter with Stacey White, she recommended entering the new deals in Enpower as zero price, non MTM, with an annuity equal to the prepay amount.

We should enter notes into Enpower indicating that these are prepay transactions.
This will allow settlements to match an annuity in Enpower with prepay out the door. It will also prevent them from paying the counterparty twice.

I'm sure that I've missed something. Let me know.

Regards,
Tim

Please forward to the following:
Nick Hiemstra
Ed Baughman
Naveed Ahmed

The request is for the East and West portfolios (non-terminated). Don't forget to include Capacity and show separately in queries. By Portfolio, by Counterparty, by Category Code - P&L and delta by month.

Also send a P&L update to Elizabeth Sager and Don Miller. The original files are 'East by Counterparty' and 'West by Counterparty'.

Subject: Requests, etc.

Stacey,

In talking with the Estate team, it sounds like they will be needing a few different types of info to help in the unwinding process. In addition to the MTM reports you guys have been putting together, could we also do a delta position report by month?

Also, it would be helpful to get a list of deal specs and terms for each counterparty, basically like we were working on for David Forster before the bankruptcy. I'll check with Kim Theriot on this as she was putting the list together before, but we will also want to get a MTM breakdown by deal for each counterparty.

These requests are not super urgent. Basically I'd like to get the breakdowns sometime in the next week or two. Hope that is OK, as I know you guys are inundated with requests at this time.

Let me know if you have any questions or if this overlaps with any other requests.

Thanks.

- Nick

I ran deal data for the counterparties we received termination notification on today. I did not want to start moving deals while you were running calcs, so we can just do this tomorrow. The deals are on the 'East New as of 12-19' and the 'West New as of 12-19' tabs.

Stacey

P.S. Don't forget about Will's new application in stage.

Good News!!! The termination spreadsheets have been updated. There are three new counterparties for physical and one new counterparty for financial. Will Smith has moved a new version of Deal Liquidation into stage for us to use going forward. It incorporates both his script for moving deals to Bankruptcy books and splitting deals on their termination dates. Please look at this so we can use it on our updates.

Dana,

Here are the values of the annuities in the book as of 12/18/2001. These annuities represent amounts UI paid to Enron for the specified PPA's taken on during the transaction.

Stacey

Deal #	Description	Amount
277987	Bridgeport/RESCO from UI	$132,435,059
277854	Derby Hydro pmt from UI	$ 432,504
277816	Shelton Landfill pmt from UI	$ 1,271,462

The following list represents other values associated with Resco, Derby and Shelton.

Deal #	Description	Amount
277987	Resco Deal	$(139,333,170)
257449.2	Receipt of capacity Resco	$ 3,889,708
255034	Longs - Derby Hydro	$ (29,107)
257449.4	Receipt of capacity Shelton	$ 49,488

I have also attached a file with UI current deal numbers and comments attached to those deals, thought it might help.

To all, The Enron Net Works infrastructure team is gathering requirements for all common data needed for NEWCO. This includes Gas/Power commercial data and related trading support data.
Based on the amount of data it can take significant time to migrate so we are on an aggressive schedule. We need assistance from key individuals within each related business unit. Please respond with a list of individuals that may be able to assist. This will be a short effort with the right representation. Thanks in advance for your cooperation.

Folder: enron

We will be running a December MTD DPR tomorrow. Before we start this process please recalc the East, West, Eastbank, & Westbank portfolios to AdHoc. Check one more time that only terminated counterparties are in the Bank portfolios and all terminated counterparties are out of the East and West portfolios.

Before kicking off the calcs, double check the specific deals that are listed on the Physical Power Terminated spreadsheet. I believe there were whole deals moved to the Bank portfolios by Will that should never have been moved, because they were already liquidated in November. Also, I have attached a new copy of the physical terminations. There is one counterparty (TXU) added to the list that we need to take care of before kicking off the calcs. In addition to adjusting deal entry for TXU we also need to adjust scheduling.

Before recalcing the Bank portfolios, please contact Debbie Brackett or Stephanie McGinnis (4-2022) to make sure that they have extracted the data they need from the portfolios.

We should still be calcing on 'No True-up'. Casey, I know you said this probably will still cause us trouble. At this point, we are going for reasonableness with numbers. All the previous top-levels in our rolls (as of the 3rd or 4th) will stay as top-levels until we know the exact amount of cash that is being attributed to power. The remaining prior day values will be held in Schedule E for Georgeanne to move to a balance sheet account. These top levels should match the total value of your Bankruptcy portfolios. Where I think it will get tricky is that we are calculating as of the 18th and have transactions in the Bankruptcy portfolio that are before the 18th and therefore will fall into your liquidations. These numbers will also have to moved to Schedule E.

When running through liquidations in the East and West portfolios, we will not be flat. Currently, we are liquidating all non-terminated counterparties other than those specifically negotiated out of by scheduling. (Thresa and I are working on this with Corry and Cara). The

settlements group will figure out what the counterparty agrees with through the check-out and ultimately the clean-up process.

Tomorrow should be a blast - I can't wait!!!

I am not sure why these did not show up yesterday, maybe my query was incorrect. However, the following spreadsheet contains terminated counterparties that still show up in the West portfolio. Let me know that you have or have not corrected it.

Thanks,
Stacey

The post ids for the bankruptcy books will be:

15267
15268

They are running right now. They take approximately 30 minutes so should be complete at 9:45. If you are not seeing numbers, call Andrea Dahlke X5-4080. I am running to a dentist appointment this morning, and will be back shortly.

Cc: White, Stacey W.; Evans, Casey; Dunton, Heather; Law, Samantha
Subject: west bankruptcy deals

John:

So far I know we have three lists going around associated with moving west deals to the bankruptcy portfolios:

The first list is what I got from you => we added the deal comments together.
The second list is from Casey => Sam and I changed the deal termination dates in each deal
The third list is from Will Smith => Will Smith changed the deals listed from the original desk to the bankruptcy desk

However, I am not sure if these three lists together provide the whole picture of what we have done so far. Per Stacey's instructions, after we changed the termination dates, I exported ad hoc for the bankruptcy and west portfolios and found below issues:

a. some counterparties showing up in the bankruptcy portfolio are listed in any one of the above three files. Please see this attachment and look at those not highlighted in yellow.

b. for some counterparties we still have deals in the days after the termination date. Please see this attachment and look at those highlighted in orange and red.

* AQUILA: please check out deal # 656568 and # 569156. According to Will

Smith's list, the termination date for AQUILA should be 11/30/01. However these two deals are not changed accordingly.
* ELPASOMERLP: according to the termiation dates list (from Casey), are we terminating all deals with this cp on 12/3/01? If yes there are a bunch of deals left unchanged in the west portfolio for the rest of the month. For example, #883630 has volumes for 12/4/01-12/31/01 under STNW desk. There are many more deals like this. Please search in deal entry to see all.
* Same case for MORGAN. Example # 884431.1 in which we have volumes for all December 01' but according to the termination dates list, the termination date for this counterparty should be 12/7/01
* SMUD: please check deal# 647957. This financial swap is still as it has been, i.e. under LTCA book for Q2 02'. But according to Will Smith's list, the termination date for the counterparty should be 11/30/01?

If you could please help me look at this I will appreciate it very much.

Thanks,
Fran

Subject: RE: changed termination date

Yes, you will do normal calculation tonight. In addition, either today or tomorrow, please also calculate the Bankruptcy Portfolio. Export data from both West and Bankruptcy Portfolio by Counterparty and Physical/Financial. Compare the data to the Termination Lists. All counterparties on the termination list should be included in Bankruptcy Portfolio and all other counterparties should be in the West portfolio. If you notice discrepencies, please investigate and correct. Also, Will is still changing some deals that Casey sent him an e-mail on. Do you know if this affected the West? If so, you will need to wait until he is complete.

Thanks for the offer, I have a Dr's appt. Maybe later this week.

Mid C is R9, but WSCC-N is R8. A 'B' indicates a basis curve which WSCC-N is not.

Have you talked to Bruce from Chase re: these files?

Stacey

Subject: the list for the 13th

Current open items are:

Weather - looks like there are still probs bringing this stuff in. Ramesh, would you have time to work with Todd and see if you can track down the problem?
Freight exotic - this hasn't been officialized for days - what's the status here?
Gas - they are still working to officialize the 12ths (should be done by 10 am this am) and then will do the 13th - there were problems deleting the interdesk transactions. Jeff will let me know when they are done and we can rerun VAR/credit.
Power - a few EPMI books showed up.
Lumber - I probably need to reload the 12ths, but waiting on confirmation.
Liquids - a few exotics books showed up as well as 1 UK book that has been officialized in the recent past, I'm not sure of the status of these going forward.

Thanks

Andrea:

Thanks for doing that for us. I also did a check by looking at ad hoc exported after the bankruptcy calc is done. I believe there might be some deals that were missing in the process of changing the deals and moving them from west portfolio to bankruptcy portfolio. I will be out starting from 12/17 on vacation. I will ask John to confirm if there are more changes needed for the cleanup.

Thanks again,
Fran

John and Fran-

The Creditors committee is coming in this afternoon and requested reports showing the value of the deals we have in our bankruptcy portfolios. Given the time crunch, I ran the WestBank calc also and included in the information I sent to Debbie Brackett. There were a few counterparties that I deleted from your query because they were not listed in the Terminated Counterparties file. They were BPENERGYCO (Financial Deals, but

net value = $0) and PUDSNOHOMISHCTY (Financial). I also did not have time so see if all of your Dec-01 information was correctly split based on each counterparty's effective termination date. Did you guys have a chance to go through that information?

Thanks!

Andrea

Subject: VAR for the 11th

Here is today's list.

<< File: dec 11 unofficialized.xls >>

I have open questions for:

Stacey - 2 west pwr books (by the way, good job on the gas books you guys have - I spoke with Casey and she'll officialize these tonight for the last time and we'll inactivate them tomorrow)
Todd - GRM & weather - do you know when you might be able to start officializing these again?

Michelle/Mark/John S - there are still a few books (exotics etc) that we should figure out what should be done
David Oliver - UK-CRD-BRN-PRC - Mark said this one would be officialized. It showed up as not officialized this am.
Sheri - the exotic price still isn't being officialized. Where do we stand on that one?
Matt - steel & lumber - they showed up - we rolled the files from yesterday and uploaded them this morning - is this okay or were there terminations run through?

Thanks

Shona

Subject: FW: VAR for the 11th

Dear Casey:

John will be out for the rest of this week. He mentioned yesterday that we might stop calcing the gas books soon. According to Shona's email (see attached), it seems like we will run/officialize the last gas book calcs today for the last time? Would you please confirm? Thanks!

Hope you are doing well,
Fran

Subject: VAR for the 11th

Here is today's list.

<< File: dec 11 unofficialized.xls >>

I have open questions for:

Stacey - 2 west pwr books (by the way, good job on the gas books you guys have - I spoke with Casey and she'll officialize these tonight for the last time and we'll inactivate them tomorrow)
Todd - GRM & weather - do you know when you might be able to start officializing these again?
Michelle/Mark/John S - there are still a few books (exotics etc) that we should figure out what should be done
David Oliver - UK-CRD-BRN-PRC - Mark said this one would be officialized. It showed up as not officialized this am.
Sheri - the exotic price still isn't being officialized. Where do we stand on that one?
Matt - steel & lumber - they showed up - we rolled the files from yesterday and uploaded them this morning - is this okay or were there terminations run through?

Thanks

Shona

The gas curve problems have been solved; therefore, there will be no problems with the following counterparties.

Due to problems with the gas curves there will be incorrect credit information for TXU, Calpine and Indeck Pepperel Power Assoc. out of EnPower (these counterparties have spread options and/or heat rate swaps that utilize the gas curves.) If you need these transaction re-calced in the morning please contact Andrea Dahlke and X 5-4080.

Thanks,

Stacey

Yes, you will do normal calculation tonight. In addition, either today or tomorrow, please also calculate the Bankruptcy Portfolio. Export data from both West and Bankruptcy Portfolio by Counterparty and Physical/Financial. Compare the data to the Termination Lists. All counterparties on the termination list should be included in Bankruptcy Portfolio and all other counterparties should be in the West portfolio. If you notice discrepencies, please investigate and correct. Also, Will is still changing some deals that Casey sent him an e-mail on. Do you know if this affected the West? If so, you will need to wait until he is complete.

Frank,

Here is the file. I am planning on continuing to look for the $18 MM that is created when you add dailies and compare to YTD. (Cell M245). You can delete these information if you want. Remove December from the reconciliation because I only gave them data through 11/30 and Curve Shift data for December is completely useless.

Elsie,

I put the 11/30 strip back in the deal. The "884449 in bankruptcy" does refer to another deal that we created due to Aquila terminating transactions with us. The reason you cannot see it is because you probably do not have access to the new portfolio.

Stacey

Stacey,
        On deal 321581.1, there were adjustments made 12/10-12/11. Appears to have deleted 11/30/01 strip. In deal comments, what does "884449 in bankruptcy" mean? I tried looking up this deal, but it did not exist.

Thanks,
Elsie

Stacey,

I enjoyed talking with you this afternoon. I understand your current situation and wish you luck in the near future. If anything should change please let me know.

As discussed, below is a brief overview of the job description we talked about. Anything you can do to help would be great.

Accounting Manager within the Power Trading group.

*   lead a staff of seven
*   supervise the tie-out and settlements of mwh purchases and sales with external counter parties
*   reconcile trading profits to the general ledger
*   oversee preparation of balance sheet reconciliation
*   review aged receivables/payables
*   ensure proper controls are in place and proactively work to upgrade the accounting processes and controls as necessary
*   work closely with internal and external groups to resolve business issues and gather information

*   8 plus yrs in public and/or energy accounting, including a min of 2

yrs exp in power trading accounting

Thank you in advance for all of your help

Corry,

I would love to start the process of cleaning up the scheduling system. We will need help from the schedulers as well so can you send Duong Luu their logins and request the 'Zero Volumes' application in EnPower. There are many people asking about what is flowing and the month is creeping by so if you could get with me tomorrow to make a game plan that would be great. I think we should have the schedulers send us their spreadsheets with an explanatory and then we, along with Unify users, will come up with a plan. I hope to use the schedulers in this process as well, let me know your thoughts.

Thanks,
Stacey

Subject: Critical Vendor List

Attached is a template we will be using to identify all pre-petition creditors that are critical to our operations. This will allow these creditors to be paid. Payment to such creditors must meet the following criteria in order to be considered "critical": (1) payments must make sound business and operational sense; (2) payments must be mission critical; and (3) there must not be a substitute vendor.

The "critical" status of these vendors will need to be approved by Kerry

and George Wasaff (head of the cash committee).

Jenny, we already have your list.

Thanks,
Mike

Subject: Layoffs

Last week was the hardest week that our office has ever experienced. When I look down the list of people who were laid off I see the names of some very talented people. Things have unfolded so quickly -- the reality of the situation is settling in for me, and probably many of us, today.

Again, I wanted to express my thanks and gratitude to everyone on our floor -- both current and former employees. In the interest of keeping people informed about who is here and who is gone, below is a complete list of layoffs done last week within the west power team.

Last Name	First Name
Coffer	Walter
Alport	Kysa
Ausenhus	Kara
Axford	Kathy
Bryson	Jesse
Burry	Jessica
Butler	Emily
Cadena	Angela
Chen	Andy

Chen Lei
Cocke Stan

I have consolidated the changes in the following file:

Please change the trade date on all the newly created Bankruptcy Deals to the trade date of the original deal. Also, please cross-reference in both transactions the associated deals numbers and document that the deal numbers are due to termination.

Also, check with Will Smith to make sure he has completed the Allegheny transfers (they were missed in the initial batch run) and then re-calc the 'Termination Test' portcalcs to ensure that the designated counterparties are not included in the old portfolios. Also, check with Norman or Zhiyun to ensure that they have attached the port-calc code to the Bankruptcy portfolios and then we need to make test runs on them as well.

Thanks,
Stacey

Subject: Option Query

The option query that we ran this morning does not tie back to AdHoc. I first realized it when I was trying to clean up deals that had many strips. There were instances where the P&L and delta were not consistent for every strip so I looked in AdHoc to see which number was right and that is when I started noticing inconsistencies. Could you please query the P&L and Delta for the following deal numbers in spreadsheet. The only way I have to do this is to query each deal separately in AdHoc. Your help would be greatly appreciated.

Stacey

Phone numbers where I can be reached:

Home - 281-894-0468

Will,

If you could attempt the following report I would greatly appreciate it. I have given a best efforts try in report writer, but because I am pulling MTM value it is pulling every strip. I need all options by flowing from today forward for the East and West portfolios. I need deal date, start date, end date, premium, strike price, Monthly/Daily Option indicator, MTM value from AdHoc, Buy/Sell, Counterparty, Enron Entity, Call/Put, Deal Type, Region.

Thanks so much,
Stacey

Call me tomorrow when I can start working - 281-894-0468.

Stacey,

Wondering if you could provide a little help. The career services assistance packet we picked up on our way out listed an email address to send our resumes. The email was listed as follows:

career services@enron.com

It doesn't work. For one thing email addresses do not have spaces between words, it is usually a . or _ but not a blank space, the email program will not accept a blank space.

I tried emailing to
careerservices@enron.com
career.services@enron.com
career_services@enron.com

Every one of them got returned. Is the email address not functional yet or am I am missing something? Could you forward this email to the appropriate person? In the mean time I will try the fax numbers provided.

Thanks

Also thank you for forwarding those voicemails. Having been in Houston for less than 6 months and reentering the working world after being a full-time

student for 2 years, my contact base in Houston is very limited. At least I will be able to call a few people in the morning.

Thank you

Norman & Zhiyun,

Please see the bottom of this e-mail for the original values given to Andrea for this exercise. At the time, we had not broken out East & West and only had a total value. My issue is that the original values do not tie to the values were are seeing today. Just to be sure, the calcs we are running should include all Sempra deals killed on or after Saturday, Dec. 1. Can you please advise as to which numbers are correct.

Thanks,
Stacey

David-

Stacey White asked that I provide you with the value of the Sempra deals that were killed. They are as follows:

Swaps	($8,664,604)
Options	($978,825)
Total	($9,643,429)

Please call me if you need any additional information.

Thanks!

Andrea Dahlke

ps-I tried to call your extension to give you the information to give you the information, but was unable to connect to you.

Subject: RE: New Enpower Portfolio

One more change....the two desks should be broken down into separate portfolios, so we actually need two new portfolios set up in Enpower:

East Bankruptcy
West Bankruptcy

They should each have their respective bankruptcy book only in each portfolio.

Thanks.

Subject: Fwd: Fw: Signs that you've grown up.

this covers just about everyone I know.

Unfortunately, the last one did apply to me. Happy Holidays. :-)

. 1. Your potted plants are alive. And you can't smoke a one of them.
2. Having sex in a twin-sized bed is absurd.
3. You keep more food than beer in the fridge.
4. 6:00 AM is when you get up, not when you go to sleep.
5. You hear your favorite song on an elevator.
6. You carry an umbrella. You watch the Weather Channel.
7. Your friends marry and divorce instead of hookup and breakup.
8. You go from 130 days of vacation time to 7.
9. Jeans and a sweater no longer qualify as 'dressed up.'
10. You're the one calling the police because those darn kids next door don't know how to turn down the stereo.
11. Older relatives feel comfortable telling sex jokes around you.
12. You don't know what time Taco Bell closes anymore.
13. Your car insurance goes down and your car payments go up.
14. You feed your dog Science Diet instead of McDonald's.
15. Sleeping on the couch makes your back hurt.
16. You no longer take naps from noon to 6 p.m.
17. Dinner and a movie - The whole date instead of the beginning of one.
18. Eating a basket of chicken wings at 3 a.m. would severely upset, rather than settle, your stomach.
19. You go to the drugstore for Ibuprofen and antacids, not condoms and pregnancy test kits.
20. A $4.00 bottle of wine is no longer 'pretty good stuff.'
21. You actually eat breakfast foods at breakfast time.
22. "I just can't drink the way I used to," replaces "I'm never going to drink that much again."
23. Over 90% of the time you spend in front of a computer is for real work.
24. You don't drink at home to save money before going to a bar.
25. You read this entire list looking for one sign that doesn't apply to you.

I was comparing the 'Position by Trader PRINT' tab in WestPos to the VaR report (Nov. 26 for example).

I would hope the rules for carrying over a week will still apply, but I have not heard anything concrete. I'll see what I can find out.

Stacey, I have checked the VaR numbers in the DPR against the date specific VaR reports for several days and they tie out. Can you tell me which reports you were looking at.

Any news on running the DPR's? Do you know what happens with unused vacation time?

John

Subject: reports need to be restored

Dear Stacey and Fran:

  Both of you have asked me to restore some portcalc reports, some of the request was due back to even early this year. I submitted all those request to the Unix team, but due to what happened to the company recently, apparently things are not kept in track very well and some people who used to work on the restoration has left without leaving a clear status notification.

  I was asked by the Unix group to put together all the reports that still need to be restored and submit it to them again. I'm wondering if you can provide me with a current list.

  I'm very sorry that I have to ask you to do this, but I think by putting together a complete list and getting rid of those we no longer need, we can get things done in the shortest time.

  Thanks a lot.

- Zhiyun

Subject: FW: 11/30 and 12/3 DPR - update as of 12/15/01

Message-ID: <20116909.1075855404142.JavaMail.evans@thyme>

Folder: enron

This is the latest on our status of calculating and reporting the DPR. Rick Buy, our chief risk officer, asked that we get back to normal as soon as possible. I am currently working on termination statuses and when deals will be killed etc. I am also working on a way to get the PCS cleaned up. Continue to run the calc with the true-up flag off as this will cause more confusion than it is worth.

Thanks,
Stacey

Subject: 11/30 and 12/3 DPR - update as of 12/15/01

For the next few days, we will be reporting only positions, maturity gap, & VAR for the DPR. We expect to be reporting P&L for ENA again probably by the middle of next week.

The 11/30 DPR is still listed on the ERV as preliminary, as there are still a couple small items outstanding. The 12/3 and 12/4 DPRs should be out by tomorrow. We are currently experiencing some IT issues related to position reporting which have prevented the reporting of these days. I expect the issue to be resolved by the middle of the afternoon today and we will report shortly thereafter.

If you have any questions, please call me at 713 853 9123.

Thank you,

Shona Wilson

Here is my request:

Can you make the system calculate a killed deal? There were deals killed with Sempra Energy Trading on Saturday and the credit group needs to know what the value would have been had these deals been calculated against yesterday's curves. Basically, we need to calc all Sempra deals that were killed Saturday or later as of last night. Is this possible?

Thanks,
Stacey

Stacey wanted to let you know that myself and the rest of the group feel and know that Nick does not want to be here. You could tell during the conference call yesterday with you that he was somewhat disappointed that he was not laid off. He has other avenues that I think he wants to pursue. Wanted to know if we have any recourse on this since he under contract right now. I have not approached him about it but have been tempted to just so he will get his act together. Here is a person who would rather be laid

off than continue to work while people have been laid off who do not want to leave. It has rubbed some people the wrong way.

We are overstaffed currently and we would not lose a step with one less person.

Let me know your thoughts,

John

Shona -

Can you get Stacey and I access to the DPR in executive viewer. Also, can you get us acess to the DPOS folder so that we can link in for requests that are coming in from the banks.

Thanks

Subject: career services@enron.com

Stacey,

Wondering if you could provide a little help. The career services assistance packet we picked up on our way out listed an email address to send our resumes. The email was listed as follows:

career services@enron.com

It doesn't work. For one thing email addresses do not have spaces between words, it is usually a . or _ but not a blank space, the email program will not accept a blank space.

I tried emailing to
careerservices@enron.com
career.services@enron.com
career_services@enron.com

Every one of them got returned. Is the email address not functional yet or am I am missing something? Could you forward this email to the appropriate person? In the mean time I will try the fax numbers provided.

Thanks

Also thank you for forwarding those voicemails. Having been in Houston for less than 6 months and reentering the working world after being a full-time student for 2 years, my contact base in Houston is very limited. At least I will be able to call a few people in the morning.

Thank you

Michael J Mattox

As of right now this is the plan for the killed transactions:
  Please use the attached spreadsheet that indicates the prior day changes in your rolls. Then compare these actual changes to the projected changes in the spreadsheet below. As of tonight, please top-level all prior day changes and we will tackle tomorrow. Also, remember that traditionally you would have no financial prior days on the first business day, so the financial prior days showing up in your rolls are due to killed financial transactions. These amounts should also be top-leveled.

Thanks,
Stacey

All deals were killed with Constellation, The Energy Authority and Public Service of Colorado. This will cause us to have huge prior day values today. This spread sheet has the P&L for all deals with those counterparties and Stacey will let us know what adjustments we need to make.

J.P.

-----Original Message-----
From: Enron Announcements/Corp/Enron@ENRON On Behalf Of Ken Lay - Office of the Chairman@ENRON
Sent: Friday, November 30, 2001 5:58 PM
To: All Enron Employees United States Group@ENRON
Subject: UPDATE - Reporting to Work Next Week

Many of you have asked whether you should come into the office next week, especially if there is no guarantee of being paid for time worked after today. We want to encourage you to come to work. We continue to consider every option available to us as a company; and unfortunately, restructuring through bankruptcy is one of those options. Your continued efforts during these trying times are critical to the company as we go through this decision making process.

I still cannot say with certainty if or when we will file for bankruptcy. But you should be aware that, in general, the bankruptcy code provides protection for employee salaries and wages earned within 90 days of a petition filing to the extent of $4,650 per employee. I want you to know that if we file a bankruptcy petition, we intend to seek approval by the bankruptcy court to exercise that protection immediately and pay you for your time worked prior to any petition filing according to our regular payroll practices. Additionally, Enron would be obligated and will pay salaries and wages earned after a bankruptcy filing. For Enron, where our value is directly tied to our employees, making sure that we meet these obligations will be a high priority.

We are continuing to evaluate the ongoing resource needs of the company for each potential option we might pursue. Of course, until we finalize those business decisions, we cannot make that determination. I know that this prolonged process is agonizing for you. I can only continue to assure you that we will notify you of your employment status as soon as we are able to do so.

While terminated employees will tap into their own network of contacts as

they look for new employment, we hope to do what we can to assist them. We will tap into the contacts we have as a company to aid terminated employees in their job search. We have already been in touch with several employers and many are interested in Enron alumni. We will share more information on these efforts soon.

I appreciate your continued patience and cooperation.

Ken

If you guys have been keeping up, you know Enron Europe is waving the white flag and shutting down. Our email addresses (and our jobs!) are being deactivated as of midday tomorrow, so you can reach us at:

klande2@yahoo.com
monstikalande@yahoo.com

Telephone 011 44 207 376 8769

We obviously don't have an elaborate backup plan yet, as we were too busy

working for the "The World's Leading Company". So we can't say where we will eventually end up, but please keep in touch and let us know how you all are doing. We miss working with all of you guys. If there is an email list for Portland put together, someone send it our way.

Hang in there!
Monica and Kristian

Please forward this to anyone we might have missed.

Stacey, part of my relocation package was the $700/month mortgage subsidy. In May, I received the first installment for one year and due to the current situation with the company and with Enron at this point unsure about helping with a potential move back to Houston, I wanted to receive the second installment as soon as possible. Frank is ok with this, but I wanted to check with you before anything else is done.

Subject: Final Review

I just wanted to give you an up date on the review with Heather. My primary focus with her was taking on to much responsibility and not focusing enough on the end results of her project such as Renewables. She just needs to spend more time ensuring that the numbers being reported are correct and accurate the first time, not after it goes into production. There had also been a complaint from Fran that Heather is not involved enough with the daily routines and may be taking the group for granted when it comes to the day to day work. Heather agreed with that but the problem that she faces is that Nick, Fran and Sam use that inter messaging system to communicate instead of verbally and as a result Heather is left out. I was thinking of telling everyone that there should be no use of the messaging system for business related issues within our group and also implementing the assigning of responsibilities to people for a couple of weeks then rotating it around. That way nobody can say somebody else is not helping enough. All in all it went well otherwise. She is was very receptive to my concerns and readily admitted to areas of improvement.

Couple of other things that I got from the meetings that might help the group. The first is an informational meeting with settlements and maybe accounting to understand what they do with the reports that we send each month and secondly, another meeting (hopefully better) regarding VaR and how the reports that we produce are used.

There is a report in PortCalc - Hypothetical Curve Shift (Monthly) - that I would like someone to review for accuracy. It is meant to have price increments that indicate what curve shift would have been had the curve been adjusted by that increment. In order for this report to be generated, you have to choose the Hypothetical Curve Shift option in PortCalc (see below)
 << OLE Object: PBrush >>

Please let me know who will be doing this analysis and if you need any help.

Thanks,
Stacey

Keith,

Here are the procedures for the East. The West is not currently running option sensitivities.

Approximately every one to two weeks or as requested by the options traders an option sensitivity report is run using PortCalc. Three parameters are tested: Price (increments from -5 to +5), monthly Volatility (increments from -25% to +25%), and Time (increments up to 90 days. (Reminder: the increments are changeable) The data is imported from PortCalc into an Excel pivot table. The pivot table is then used to show how the various Greeks (delta, gamma, theta and Vega) change for each trader's book, generally with a 3 month look ahead. The data can also be sorted by and grouped by other criteria, if requested, such as by region and delivery date These reports are given to the East option traders only.

Thanks,
Stacey

To: Victorio, Tom
Cc: Postlethwaite, John; White, Stacey W.
Subject: RE: Enpower positions

Tom,

For East Power, when you do your extract, you should select "commodity" only as the deal category so you will not pick up any capacity positions, as they are included in neither Var nor our position reports. Also, you should query by delivery point and exclude all of the following delivery points (region codes in parentheses) as they are ancillary and credit positions and not energy positions, per se:

10 Min Spinning (R1J)
10 Min Non-Spinning (R1K)
30 Min Op Reserve (R1L)
Op Cap (R1N)
Renewable Energy Credits (R6R)
Regulation Up (R6W)
Regulation Down (R6X)

Responsive Reserve (R6Y)
Non-Spinning Reserve (R6Z)

Let me know if you have any questions!
Casey

1) RisktRAC
2)Yes, except South America is not in EnPower yet. The portfolio is set up, but no transactions are captured there.
3) The West looks close but the East is completely off. Also, AlbertaENA should not be zero.
4) RetailEast & RetailWest are test Portfolios and should not be included!

Subject: Enpower positions

Hi Stacey.

We've generated the numbers below directly from EnPower/Adhoc (effective date 10/24). Just a couple of points I need to confirm before we can try to generate our DPR numbers from this query --

1) where can we get the spreadsheet positions from?
2) are these all the Enpower portfolios we should be picking up for Power?
3) do the numbers for NA look correct?
4) I will be sending the numbers daily to the "contacts" listed -- any other names I should add?

Thanks.
- Tom

Subject: RE: Enpower positions

Stacey,

- ALBERTADIR is in the table: Peak = (20,162), Off-peak = (20,588)

- Per your last email, I'll remove RETAILEAST and RETAILWEST.

- For spreadsheets, we currently see the following:
POWER-SS-R3B-PRC
POWER-SS-R3C-PRC
POWER-SS-R1B-PRC
We'll take these from RiskTrac.

- For SouthAmerica positions, we can also take from RiskTrac

- The numbers for EAST and WEST are off because I ran the query at around 11AM. I didn't realize that Adhoc only holds the last calculated numbers, not as of a certain effective date. If we run the query everyday at 7AM, can we be sure we're capturing all of previous day's trading? And none of current day's?

Thanks.
-Tom

Tim,

I typically do not like to give access to m:\common\power\ directory as this is where all the DPR information is. A member of your fundamentals team, Maria Van Houton, would like access to the drive in order to access curve data that the risk group puts together. If this is o.k. with you I will approve, otherwise I will tell her to get the information from the curve directory m:\power2\region.

Thanks,
Stacey

Hi Stacey,
The raw data is in M:\power2\region, but the files that I actually collect the data from and that are e-mailed to me, are located in the directory I requested access to (M:\common\power\position\dpr\2001\westpos\2001\).
Thanks,
Maria

Hi Stacey,
I work in the fundamentals group in Portland and receive the forward power curves daily via e-mail to import them into our database for our traders here. I have requested access to the m:\common\power directory because this is where the files are stored and it would be much more efficient and increase reliability tremendously by automating the collection of this data versus the current system of manually detaching the files through e-mail. Our traders have come to rely heavily on accessing this information in our database. However, when I'm out, the files don't get imported because I'm not here to detach them. Please let me know if you have any further questions.
Thanks,
Maria

No formal agenda has been planned for our staff meeting today. Instead, I would like for each of you to think of a question(s) or problem(s) that you have encountered while in the group. These questions/problems can be something that you already know the answer to or have yet to receive the answer. For those areas that you already know the answer, this would be a good time to share what you have been working on with the rest of the group and maybe stop everyone else from running into the same question/problem. For those areas that you do not the answer, we will do our best to get that answered.

In addition, if there is any additional detail that you would like to know regarding topics covered in the Risk Overview class, this would be a good time to ask since the class is fresh on your minds.

Thanks,
Stacey & Casey

Here is an updated New Power Company exposure as of 10-24. I have included Buy/Sell, Deal Type, and Capacity/Commodity. Please let me know if there is any other detail you need.

I really am in the dark re: Hanson. If you could make the rounds then we might have a better idea if Donnie should be there. If Scotty does not know all the particulars (and Jeff does) I am not sure that the 9:30 PST meeting will be effective. I basically just want some answers!

I believe Jeff cannot make the meeting tomorrow at 9:30 local. I know we meet at 8:30 local should we have jeff and Scott sit in at 8:30 and just meet separately after? Did you want Donnie at the meeting? Of course I am speculating not knowing anything about whether Scott can make it or not.

Subject: Please test Deal Entry

Deal Entry needs your user testing today. The Production freeze starts tomorrow so we have to move this today if it is ok or it cannot be moved for another 2 weeks.
Kroum made some changes so that the long deals done in Canada will not crash the system. You should not see a change at all. They had over 2000 transactions that replication could not keep up with, but that has been fixed.
I will be calling you to make sure you are able to test. I appreciate all your help.
Thank you!

Subject: More EnPower Performance Related Changes

All, This past weekend, additional performance related changes to the EnPower production environment were implemented.

Our database environment was upgraded from a 32-bit version of Oracle 8.1.7.2 to the 64-bit version. This upgrade increases the maximum size of memory cache available to our applications from 4Gb to 25Gb. Apps that cache large amounts of data will experience reductions in physical I/O thereby increasing application speed.

Once again, this change represents one of many short-term steps to improve the performance of our core wholesale trading system. I'll continue to send out notifications as these changes are implemented.

We will review the complete set of short and long-term performance related improvements in an upcoming architecture review meeting TBA.

Glad to discuss.

Steve

Are you available? If not give us 10 minutes this morning to discuss.

We think the best option is to balance the month with a sale/purchase at $R0 price and push the income and cash payment/receipt into the future. Remi is giving us a Dec 2002 expected settlement date which is discounted at about 25%.

Other than Lavo's approval does there have to been sound rationale for a Schedule C for AA?

Martha

Subject: DPR & Accounting Procedures

Please plan to attend a meeting in my office (ECno 2328) at 1:45 today.

Britaldo, Peccio & possibly Remi will be calling me @ 2:00 to discuss establishing an official policy for recording trades, receivables and related "reserves" for deals.

Martha, I think this will link back to our discussion last week and the decision to "schedule C" some amount for the liquidity issue.

Thanks,
Jody

Subject: Organizational Announcement

As a follow-up to the Enron Net Works All Employee meeting on October 5, we are pleased to announce a number of organizational changes.

Beth Perlman, currently CIO for EA Systems, will work closely with Mark Pickering on a number of key projects for Enron Net Works. Additionally, Beth plans to explore various commercial opportunities within Enron. Replacing Beth in her current role will be Steve Hotte, currently CIO for EGS.

Anthony Dayao will continue as CIO for EES Systems. In addition to his current responsibilities, Anthony will assume responsibility for creating a combined Wholesale/Retail Power Trading and Risk Management system.

Jeff Johnson will move into the new role of CIO for EGM/EIM Systems.

John Paskin will transfer to the Houston office from London to take up the new role of CIO for Corporate Systems. His group will include the ISC, Enterprise Portal, Intranet Solutions, CRM strategy, Treasury Systems, Development Support and will matrix into HR IT Systems.

Continuing in their current positions are Inja Chun, CIO for EBS Systems; Paul Freeman, CIO for Enron Europe; Jay Webb, CIO for eCommerce, which now includes Commodity Logic Systems; and Jenny Rub, CIO for Infrastructure.

All of the above positions report into to Mark Pickering in the Office of the Chairman for Enron Net Works. Transitions into their new positions will begin within the next two weeks and should be complete by the end of the year.

We are currently interviewing individuals to serve as CIO for EGS, as well as an individual to serve as head of our Enterprise Framework group. We will keep you posted on the progress of these searches.

Please join us in congratulating all of these individuals on their new responsibilities.

Cc: Richter, Jeff
Subject: New Pub Codes for Enpower

Good Morning Stacey,

Jeff Richter wants to start trading ancillary service deals through EOL. To help facilitate this new business, we need to setup several new pub codes that represent the indexes the California ISO publishes for ancillary services. A few of the ancillary pub codes are already setup we just need to add the ones for spin & non-spin. Do you know who we need to get with to have these new pub codes setup? I will work with the IT guys to ensure the programs that scrape the ISO site and store the prices are updated to capture these new indexes.

Thanks, David Poston

ps - Please give me a call if you have any questions, 57834

These pub codes already exist:

ISOGRRNP15 (CAL ISO GENERATION REPLACEMENT RESERVE @ NP-15)
ISOLRRNP15 (CAL ISO LOAD REPLACEMENT RESERVE @ NP-15)

Repeat for SP-15

Repeat for ZP-26

These pub codes need to be created:

ISOGSRNP15 (CAL ISO GENERATION SPINNING RESERVE @ NP-15)
ISOLSRNP15 (CAL ISO LOAD REPLACEMENT RESERVE @ NP-15)

Repeat for SP-15

Repeat for ZP-26

ISOGNRNP15 (CAL ISO GENERATION NON-SPINNING RESERVE @ NP-15)
ISOLNRNP15 (CAL ISO LOAD NON-SPINNING RESERVE @ NP-15

Repeat for SP-15

Repeat for ZP-26

Message-ID: <30828763.1075858792703.JavaMail.evans@thyme>
Folder: enron

Tom,

Hope this helps.

1) Only the power positions need to be queried. Gas positions for spread options and heat rates are included in the gas bench.

2) Any power Exchange transactions should be included, but the gas transactions calculated in ERMT should not be included as they are on the gas bench.

Thanks,
Stacey

Subject: RE: Adhoc query

Dear Tom,

1) Are you only interested in the Power positions? Do you need the

Gas position for a Spread Option deal?

2) Do you want only the Post IDs officialized by Power PortCalc, so the Exchange deals' position calculated in ERMT need not be included?

3) Can the results be in vertical format? e.g.

East	Nov-01	100
East	Dec-01	200
...		
West	Nov-01	101
West	Dec-01	201
...		

Thanks,

Norman.

Subject: Adhoc query
Importance: High

Hi Norman. I've tried running some queries using Adhoc and I always get too detailed information. We only need total MONTHLY peak and off-peak positions for a couple of portfolios.

I've attached a file to illustrate the information we need. Can you please take a quick look and let me know if it would be possible to write a query to generate the info on a daily basis. Since the query may take a while to run, and we need the info by 7:00AM everyday, I would prefer to automatically run the query at say 5AM?

Let me know your thoughts. Thanks.
- Tom

Subject: EOPS Allocations to EA 2002`

Edie,

Per our conversation last night, attached is the lowest level of detail we can provide for EOPS allocations to EA. EOPS doesn't track these costs at the cost center level. If you would like for us to provide the plan at a lower level than this, please review the categories and provide us with a further allocation and I will use your allocations on the template for Thursday. If we can't make it by Thursday, we can provide this level and maybe later we can go back and do a further breakdown. If you have any questions, please call.

One more thing, this file has not been finalized or blessed so it is preliminary and subject to change. It should give you a good basis to start breaking it out.

Thanks,

Kevin

Subject: Power Month End Procedures

In order to have consistency among all power calculations, please follow the procedures outlined below. Please feel free to forward this e-mail to anyone I may have missed.

Power Month End Calculation Procedures

? At each month end the officialized power calculations are dated effective the last day of the month, even when that day is a weekend.
? Power curves are populated as of the business day the calculation is performed and the effective date of the calculation. For example, curves were produced for both Friday, September 28, 2001 (the day the calculation was performed) and Sunday, September 30, 2001 (the effective date of the calculation).
? RisktRAC IT rolls the results of our calculation back to the last business day in order for the information to map to the business day's date.

This procedure is followed because power trading is on a daily liquidation timetable. The calculation engine is instructed to liquidate based on the effective dates of the calculation.

Below is an example of the PortCalc screen as set up for a calculation at month end where the month end is on a weekend.
Choose Non-exact Libor Based Curve so that the calculation engine will pick up the last business day's interest rate curve.

Choose the Valuation Date as the last day of the month.

Choose the Prior Val Date as the last time you ran a calculation (normal procedures).

In addition, if you are the owner of the power curves, you must contact PortCalc IT to copy the curves as of the last business day over to a file dated the last day of the month.

Thanks Tracy. Based on conversations I just had with Chris Foster it looks like they want to take the money and put it in a sch C. To cut a long story short, they are worried that they will lose part or all of this money because the FERC and California may be revising the PX index. I have indicated that this can not be done until John Lavorato signs off on this. Stacey, do you see any fall out from doing this. It looks like they want to take care of this in the next couple of days.

John,

I'm afraid I don't have a whole lot of detail. These deals originally came through on the March Flash to Actual report as a West DPR adjustment. I was then told by Stacey that these deals needed to be moved off DPR adjusment, but I'm not sure where they were to be moved to. You will see these listed as a "?" on the LTD report at the top of the page. I know during the meeting, Stacey was talking to Portland about these, but the only notes that I see on my hard copy is "wait 60 days on PX"..."annuity 4 sale back to them".

Sorry I'm not much more help than that.

Let me know if you have any questions.

Thanks
Tracy

As long as Tim has conversations with Lavo and we get adequate documentation to share with accounting, we should be fine.

Thanks Tracy. Based on conversations I just had with Chris Foster it looks like they want to take the money and put it in a sch C. To cut a long story short, they are worried that they will lose part or all of this money because the FERC and California may be revising the PX index. I have indicated that this can not be done until John Lavorato signs off on this. Stacey, do you see any fall out from doing this. It looks like they want to take care of this in the next couple of days.

John,

I'm afraid I don't have a whole lot of detail. These deals originally came through on the March Flash to Actual report as a West DPR adjustment. I was then told by Stacey that these deals needed to be moved off DPR adjusment, but I'm not sure where they were to be moved to. You will see these listed as a "?" on the LTD report at the top of the page. I know during the meeting, Stacey was talking to Portland about these, but

the only notes that I see on my hard copy is "wait 60 days on PX"..."annuity 4 sale back to them".

Sorry I'm not much more help than that.

Let me know if you have any questions.

Thanks
Tracy

Can both of you give me some background on the 4 annuity deals listed below. Mark, these deals have never shown up on a desk analysis report and were entered on Mar 30 for jan business. Are they supposed to? Murray, are we supposed to be taking these annuities as PMA adjustments or are we still waiting for something more information?

Thanks for your help on this.

It's not as detailed as you may be thinking.

We run an unofficial adhoc book for the LT-SW and LT-Options book with option sensitivity checked as on
Run the West_Sens_new macro created by Min and Zhiyun after calc has finished
Spreadsheet is sent to Matt for his use
audience is Matt Motley and Mike Driscoll
Matt only looks at the spreadsheet based on current market conditions and does not do any type of stress testing. As a result we always make sure there are no scenarios in the predictive option sensitivity area..

Partnership
Spurs Enron
Equity Cut

Vehicle Is Connected
To Financial Officer
By Rebecca Smith and John R. Emshwiller

10/18/2001
The Wall Street Journal
Page C1
(Copyright (c) 2001, Dow Jones & Company, Inc.)
Enron Corp. shrank its shareholder equity by $1.2 billion as the company decided to repurchase 55 million of its shares that it had issued as part of a series of complex transactions with an investment vehicle connected to its Chief Financial Officer Andrew S. Fastow.
Enron didn't disclose the big equity reduction in its earnings release issued on Tuesday, when the Houston-based energy giant announced a $1.01 billion charge to third-quarter earnings that produced a $618 million loss. But the company briefly mentioned it in a subsequent call with security analysts and confirmed it in response to questions yesterday. As a result of the reduction, Enron's shareholder equity has dropped to $9.5 billion, the company said.
In an interview Tuesday, Enron Chairman Kenneth Lay said that about $35 million of the $1.01 billion charge to earnings was related to transactions with LJM2 Co-Investment LP, a limited partnership created and run by Mr.

Fastow. In a conference call yesterday with investors, Mr. Lay said that the 55 million shares had been repurchased by Enron, as the company "unwound" its participation in the transactions. In the third quarter, the company's average number of shares outstanding was 913 million.
According to Rick Causey, Enron's chief accounting officer, these shares were contributed to a "structured finance vehicle" set up about two years ago in which Enron and LJM2 were the only investors. In exchange for the stock, the entity provided Enron with a note. The aim of the transaction was to provide hedges against fluctuating values in some of Enron's broadband telecommunications and other technology investments. Mr. Causey didn't elaborate on what form those hedges took.
Subsequently, both the value of Enron's stock and the value of the broadband investments hedged by the entity dropped sharply. As a result, Enron decided essentially to dissolve the financing vehicle and reacquire the shares. When Enron reacquired the shares, it also canceled the note it had received from the entity.
In addition, Enron was receiving increasing criticism from analysts and major shareholders concerning the apparent conflict of interest involving the role of its chief financial officer in the partnership, from which he stood to make millions of dollars. In July, Mr. Fastow formally severed his connections to LJM. Mr. Fastow has declined to be interviewed.
Given all the complexities of the LJM-related financing vehicle and the questions it raised outside the company, "the confusion factor wasn't worth the trouble of trying to continue this," Mr. Causey said.
Enron downplayed the significance of the share-reduction exercise. Mark Palmer, an Enron spokesman, described it "as just a balance-sheet issue" and therefore wasn't deemed "material" for disclosure purposes.
Jeff Dietret, an analyst for Simmons & Co. in Houston, said that a large reduction of equity could be "a flag for the rating agencies" because it could adversely affect a company's debt-to-equity ratio. Enron said yesterday that as a result of the equity reduction, its debt-to-equity ratio rose to 50% from 46% previously.
On Tuesday, after Enron reported its big quarterly loss, Moody's Investors Service Inc. put Enron's long-term debt on review for a possible downgrade. Moody's said the move was related to "significant write-downs and charges reflecting substantially reduced valuations" in several of Enron's businesses. In recent years, Enron had moved aggressively into broadband telecommunications and the water business, both of which failed to produce expected returns.
Enron, which as of June 30 had $33.6 billion in current liabilities and long-term debt, has lately been attempting to shed assets to pay down debt.

Subject: RIBFEST -5- (Nov. 3rd)

The World Wide RibFest "celebration of the Rib" is coming up. This will be the 5th annual ribfest, and John Mee has his work cut out for him to defend the title he won last year (for the second time). I believe he will have a tough time, as the competition looks increasingly focused on unseating the former Bostonian from his Throne.

For those of you who haven't been to a ribfest in the past, it's a barbeque competition where 5 to 7 cooks compete to see who can produce the best Baby Back Ribs (if you want those Fred Flintstone beef ribs, you ain't getting them here). A blind-judging takes place to determine the winner, but often the crowd gets up in arms and nominates a "peoples choice" (though this is not officially recognized by the sanctioning body).

Every year, my wife asks the following: "So, besides Ribs, beer and margaritas, what else will be served?"
I reply: "Nothing comes to mind."
She replies: "No."

As you might expect, she wins this discussion year in, year out. So, appetizers, sides, desserts and food & drink for the kids are also served. The competition around the grills gets a little rough, so I recommend that the young and faint-of-heart maintain a safe distance while the cooking and competition is taking place. The appropriate College football games will be broadcast, so you don't have to worry about missing any games.

There are a couple of changes to this year's competition:
The competition will be held at the John Mee/Laura Benjamins compound in Bellaire
Mike Paradise (who won the very first ribfest) has stepped out of the competition this year citing "personal reasons"

Date & Time
Saturday November 3rd. We fire the grills up around 12:00, and the judging takes place between 3:00 and 3:30.

Where
4807 Elm Street in Bellaire

Directions (from John Mee himself)
>From downtown, take 59s to 610s. The first exit is the Bissonette //Fournace exit. Take this exit and go through the light, noting the gouging in the lamppost from that freak cherry-picker accident from last April. Before the Bisonette light, there is a big Chase Bank Building. Right before that building is Elm Street. Take a right on Elm Street exactly 236 yards to 4807 Elm Street. Go inside and ask for directions there, cause I really don't have a clue...
KIDS
Bring 'em! We'll have the Moonwalk set up for them again this year, and we'll have hot dogs, burgers, popcorn and drinks for them. The more kids the better.

What you need to bring
Nothing, except maybe some attitude to heckle the cooks while they try to concentrate.

RSVP
Call   John and Laura 713 839 8700 -or-
        Greg and Martha 713 861 2766
We need to make sure we stock up enough ribs to go around.

Subject: index option

Hi Stacey:

Just want to follow up to see if there is any after thought about what we discussed yesterday on Index Option. From our discussion, index option will be reported in two records: reported as physical in the delivery region, and financial in the index region with the corresponding position and risks. This seems to be a better alternative than reporting the collapsed position in the delivery region in one record or reporting both position as physical in two records in the delivery and index region.

Could you please let me know if we should go ahead implementing the changes? We plan to move the current stage to production tonight and do a new stage release this week, I'd like this change, if going to occur, to go into this release.

Thanks a lot.

Subject: RE: New Curves - REVISED AGAIN

Hi Frank.

Rakesh and I talked with Narshima Mistra, ancillary trader at EES. The ancillary curve exists almost every power curve and it's more related to the capacity availability rather than market prices. Obviously it's indirectly related to prices since cost of generation, which is one important factor of constraints in the capacity of generation. So EES has a table of ancillary service price % to generation cost.(Below) I think this table can be used to simulate the ancillary prices by mapping to regional curves after the modification based on the market prices. The problem is the illiquidity of this market. The price is reported once in a month as average point, so the RAC should identify the risk in this market, e.g. is it reasonable to get the daily value at risk. Once again, as long as the daily prices of the ancillary is given, the implementation will be available by doing analysis on the data and making table like below to use

in mapping curves.

Jaesoo

MID - All values are expressed as a percentage of the cost of generation.

	WD1	WD2	WD3	WD4	WD5	WD6	WE1	WE2	WE3	WE4	WE5	WE6

Frank,
the ancillary curves data are not liquid so we can not assign them as primary curves presently.
Using jumps would be appropriate for them.

Jaesoo plans to talk to the trader and come up with more concrete suggestions.

How urgent is it to start calculating VAR on them?

Tanya

John,

Are you currently preparing option sensitivity reports for Matt Motley? If so, please put together a bullet point list of what we do on a daily basis, who the audience is, and anything else you think might be relevant to an audience of users interested in what procedures we perform for stress/ scenario testing.

Thanks,
Stacey

Subject: Follow-up

Hi Stacey!
I wanted to thank you for spending time with me yesterday.
I am very interested in learning more about/ pursuing opportunities within your group.
Since i would have to pretty much start from scratch, wherever you have a need i would be glad to jump in.
Both the curve validation & risk positions sound very interesting to me.
Below is my availablilty over the next 2 weeks...
Please let me know who you'd like for me to sit with/ learn from/ etc. and i will be there.

Friday, 10/19- OFF
Monday, 10/22- available all day
Tuesday, 10/23- not available
Wednesday, 10/24- available after 9:30
Thursday & Friday, 10/24-5- available all day
Monday & Tuesday, 10/29-30- available all day

I will be off the 31st through the 2nd, as we are now moving (as of 4:30 yesterday!) to the green glass building behind my current unit.
We got a great deal, and saved a bunch of $$$$, so i took it.

Let me know what works for you...

Thanks!

Sunjay

Subject: Poinsettias

The Bayou City Dance Company is once again selling poinsettias as a fundraiser. This is the dance company for 10-18 year olds for which my wife, April, is the Director. They are selling the poinsettias for $8.50 each and they are pretty good size (about 12-18 inches tall from what I remember). Just like last year, I will deliver the flowers to the Enron building (or at least to the Enron garage).

They come in red, white, or pink, but I think the red were by far the healthiest and longest lasting.

The order are due by next Friday, so please let me know if you would like to order (and how many).

Thanks.

- Nick

Subject: RE: R20 - Ontario

I can easily put in prices for the earlier months. My only worry is that it may affect EES since they have current Ontario positions that should not be valued against my curve (they should use regulated rates until market opening).

I can put the prices in today.
Garrett

-----Original Message-----
From: Hayden, Frank
Sent: Thursday, October 18, 2001 9:34 AM
To: Tripp, Garrett
Cc: Schmidt, Darin; White, Stacey W.
Subject: R20 - Ontario

Garrett,
Recognizing that Ontario does not open until Mar 02, and recognizing that we have positions starting then, and recognizing that the curve doesn't have prices posted for reference dates prior to Mar 02, the value-at-risk engine is getting errors in it's simulations due to lack of prices thereof.

Can you do either of the below?
? Post prices for dates up to Mar 02? (realize their isn't market?. tough issue)

o	If you post a price, I'm not sure it will mean much other than letting VAR run, primarily because there isn't position prior to Mar 02. Perhaps you can fill in hole with a realistic price so prompt month correlations don't go wacko?I guess.. Stacey help.
?	Recommend a "like" curve to map R20 to so that we can get around zero price issues? Realize that mapping will include entire term structure and not just for the reference dates with zero price.
?	Other ideas?

I appreciate your help in working toward a solution.

Thanks,
Frank

Stacey, the index option is showing just as a physical deal with a position. I am wondering if this is creating positions in Risk Trac because our peak position does not tie with the bench mark. The difference is close to the index option but not quite.

To: Hayden, Frank
Cc: Tamarchenko, Tanya; Bharati, Rakesh; Jia, Winston
Subject: RE: New Curves - REVISED AGAIN

Hi Frank.

Rakesh and I talked with Narshima Mistra, ancillary trader at EES. The ancillary curve exists almost every power curve and it's more related to the capacity availability rather than market prices. Obviously it's indirectly related to prices since cost of generation, which is one important factor of constraints in the capacity of generation. So EES has a table of ancillary service price % to generation cost.(Below) I think this table can be used to simulate the ancillary prices by mapping to regional curves after the modification based on the market prices. The problem is the illiquidity of this market. The price is reported once in a month as average point, so the RAC should identify the risk in this market, e.g. is it reasonable to get the daily value at risk. Once again, as long as the daily prices of the ancillary is given, the implementation will be available by doing analysis on the data and making table like below to use in mapping curves.

Jaesoo

MID - All values are expressed as a percentage of the cost of generation.

	WD1	WD2	WD3	WD4	WD5	WD6	WE1	WE2	WE3	WE4	WE5	WE6

Let's wait until we all meet so we don't piecemeal the data to you, but you are correct in your assumption about transmission for the East.

Subject: RE: volatility

Hi Stacey:

Thanks for the background and insight information.

For weekly options, if there is any, we are still using the monthly-daily blending formula, there's no different blending rules applied right now.

From your email, I get it that for all deal types in East portfolio, no blending should be applied, this includes deals whose expiry frequency is embedded in the deal type but not explicitly specified (such as transmission deals) in deal entry. If this understanding is correct, we'll need to make code changes, please let us know if we should start implementing that or wait till after the meeting.

Thanks,

- Zhiyun

Cc: Evans, Casey; Vinson, Donald Wayne; Postlethwaite, John
Subject: RE: volatility

The blending vs. non-blending can be confusing and could potentially cause

problems down the road so I would first like to make some general statements regarding the history or this change and what the rules should be as I understand them.

Only the curves applicable to the East NERC regions are being marked as a daily and monthly volatility; therefore, no blending is needed for daily options (they point directly to the daily vols) or monthly options (they point directly to the monthly vol). All curves applicable to the West NERC regions are still being marked as intramonth and monthly; therefore, blending is needed to provide a volatility for daily options.

The best rules to be in place for the blending vs. non-blending would be based on curve. East curves do not blend. West curves do blend. Therefore, ANY daily or monthly option in the East would not have to blend. The potential problem that could be caused by making the rule apply to portfolios is that, for example, the East portfolio could potentially enter into an option at a West region (curve) and that transaction would need to use blended curves even though it is in the East portfolio.

Options at a different expiry than daily or monthly is another problem. Are there different blending rules embedded in the code for weekly expiration? We still need to discuss this.

I would be happy to all sit down and have a meeting concerning this issue whenever everyone is comfortable enough that we know all the current rules. Let me know.

Subject: RE: volatility
Importance: High

Clarification 1, I haven't come to East Power last March. Therefore, the

change must not be my request.
Clarification 2, I like the change.
Clarification 3, I do NOT have concerns about the difference itself, but it is scary that people (i.e., myself) don't know the difference exits. I think your summary below is very valuable and I would like to make sure Risk team and other relevant people be aware of it.

Thanks
Hai

 -----Original Message-----
From: Yang, Zhiyun
Sent: Friday, October 12, 2001 2:18 PM
To: Chen, Hai
Cc: Lee, Norman
Subject: volatility

Hi Hai:

  Here's the logic about volatility. Originally all volality is calculated as a blend of monthly and daily volatility. From last March, based on your request, I made the changes for East and its mirrored portfolios (ENAWEATHER, ENACCO,PLANT,SVCE) only, and for option, spread and basis option only, that we use daily vol for daily option and monthly vol for monthly option.   The implication of that is that for

1. other portfolios,
2. other deal types such as Asian, Transmission Deal, index option (which East does not have right now),
3. other expiry frequency, say, WEEKLY (which East does not have right now), or deals that doesn't have expiry frequency explicitly defined,

the blend approach will still be applied. Please let us know if you have any concerns.

Sounds like a great idea to do follow-up reviews.

I have budgeted $2000 a month for travel and lodging on the West RC. I would prefer you keep it to every six weeks in order to cover me coming up there and others coming down for training. I think it would be beneficial for you to be able to meet with groups in Houston. I also only budgeted for $100/month for Overtime/Working Meals so we may have to subsidize that with the traveling budget.

I have not heard anything lately on the video conferencing. If you don't mind, ask Tim if he has made any decisions on the video conferencing.

Stacey

Subject: update on a couple of things

Just wanted to give you an FYI on a couple of things. I am planning to meet with everybody on a one on one basis in the next week to do a quarterly review. I was planning to revisit their mid year reviews and talk about how they have progressed or not, projects they have worked on and how they went, long term plans, etc. I think it is even more pressing for Heather because of the way the Renewables was handled. I figured since I went through the process with Emissions, I had a pretty good insight on what I wanted her to do, so I laid out the groundwork for her. Didn't go as I had planned so I wanted to use the opportunity to get her back on track.

Regarding coming to Houston a little more often, I would like to try and come maybe every 4 - 6 weeks if that doesn't blow your budget up. Obviously it depends on ticket prices, but I am learning that while it is ok to communicate over the phone with various groups, it doesn't beat being face to face and looking at the same reports and interacting a little more efficiently. As I said, I was only in the office for 2 days but I could have spent a week there getting work done and meeting with people. It would

also give me a chance to meet with Jill Vogelfang a little more. I met with her, last Thursday and it was a good meeting.

By the way, have you heard any more about the PC video conferencing?

Question re: Jeff Richter

Stacey

-----Original Message-----
From: Belden, Tim
Sent: Tuesday, October 16, 2001 11:30 AM
To: White, Stacey W.
Cc: Lavorato, John
Subject: RE: Schedule C Question

Richter reserved that last year. He made the money. It's his. It goes against refund risk in California. If we take a hit in CA due to refunds, Richter should eat a good chunk of that hit -- if there is extra money then he should keep it.

John has asked me to do a thorough review of our Schedule C reserves in light of the northwest refund decision, BPA's new contracts that started in October, and the overall lower price environment. Richter's reserves will be a part of this bigger effort that I will get done this week.

Let me know if you have any questions.

Subject: Enron Center South Testing

Hello all,
This notice is specifically for our Houston based EnPower Day to Day users. The Day to Day team will be testing apps on the Power Trading Floor (6th Floor) in Enron Center South on Thursday, October 19, 2001. Our current plans are to begin testing at 10:00 AM culminating at 12 Noon. If any of you who have a desire to do any testing in the new building, please send an email to either me, or Bill Crooks. Your coordination efforts should be finalized with Julie Hacker, X5-7895.

Thank you,
Karen Y. Martin

The blending vs. non-blending can be confusing and could potentially cause problems down the road so I would first like to make some general statements regarding the history or this change and what the rules should be as I understand them.

Only the curves applicable to the East NERC regions are being marked as a daily and monthly volatility; therefore, no blending is needed for daily options (they point directly to the daily vols) or monthly options (they point directly to the monthly vol). All curves applicable to the West NERC regions are still being marked as intramonth and monthly; therefore, blending is needed to provide a volatility for daily options.

The best rules to be in place for the blending vs. non-blending would be based on curve. East curves do not blend. West curves do blend. Therefore, ANY daily or monthly option in the East would not have to blend. The potential problem that could be caused by making the rule apply to portfolios is that, for example, the East portfolio could potentially enter into an option at a West region (curve) and that transaction would need to use blended curves even though it is in the East portfolio.

Options at a different expiry than daily or monthly is another problem. Are there different blending rules embedded in the code for weekly expiration? We still need to discuss this.

I would be happy to all sit down and have a meeting concerning this issue whenever everyone is comfortable enough that we know all the current rules. Let me know.

Stacey

Importance: High

Clarification 1, I haven't come to East Power last March. Therefore, the change must not be my request.
Clarification 2, I like the change.
Clarification 3, I do NOT have concerns about the difference itself, but it is scary that people (i.e., myself) don't know the difference exits. I think your summary below is very valuable and I would like to make sure Risk team and other relevant people be aware of it.

Thanks
Hai

Cc: Lee, Norman
Subject: volatility

Hi Hai:

Here's the logic about volatility. Originally all volality is calculated as a blend of monthly and daily volatility. From last March, based on your request, I made the changes for East and its mirrored portfolios (ENAWEATHER, ENACCO,PLANT,SVCE) only, and for option, spread and basis option only, that we use daily vol for daily option and monthly vol for monthly option. The implication of that is that for

1. other portfolios,
2. other deal types such as Asian, Transmission Deal, index option (which East does not have right now),
3. other expiry frequency, say, WEEKLY (which East does not have right now), or deals that doesn't have expiry frequency explicitly defined,

the blend approach will still be applied. Please let us know if you have any concerns.

- Zhiyun

Dear Stacey,

Wei's email is about how to capture Power PortCalc positions and P&L into the RiskTrac (VATR) system. Both Spread Option and Index-Option's positions are stored in two columns in the VATR result table, whereas an Option deal would be in one column only, so Wei has to treat Index-Option the same as Spread Option in capturing the numbers.

Regards,

Norman.

Subject: New instrument type code from ENPower

Frank,

We were just informed by Norman Lee's group that ENPower is going to put out a new instrument type code called 'TRANSMISSION' and it basically is a kind of SPREADOPTION, so we will modify the code and capture them as SPREADOPTION.

Also we were told that we should handle one existing instrument type code INDEX-OPTION as SPREADOPTION too. INDEX-OPTION has been captured as OPTION so far. We will also make the code change for this.

Anytime when ENPower introduces new instrument type code in the future, we need to be informed because there are 15 - 20 instruemnt type codes existing in ENPower system and we need to convert them into one of the six instrument type codes in RisktRAC.

I am going to make the changes tomorrow.

Regards,

Wei

Come Celebrate Jeff's 30th Birthday!!!

Will and I are planning a little get together for Jeff's birthday - here are the details:

When: Monday October 15th
Time: 6:30 pm
Place: Goode Company Barbque - on Kirby

Come join us on Monday night to celebrate Jeff's 30th birthday (he actually turns 30 on the 13th, but we will be in College Station). We will be at Goode Company most of the evening so if you can stop by for a beer with the birthday boy. I know he would love to see all of you.

Please email me back and let me know if you can stop by - and feel free to forward this on to anyone I may have left off.

See you Monday,

Deanna and Will

Subject: Filling vacancies and adding head count

After my recent budgeting experience, I think we need to tighten up our procedures around filling vacancies and adding head count.

When filling vacancies, I would like to have each of you review the positions. I think we need to challenge ourselves and the managers to be as conservative as possible. I would like to sign off on all replacements. I promise not to be difficult.

When adding personnel over your current budgeted number, besides having the commercial team sign-off on the addition, I am think
that it may have to be approved by the COO of Americas (Louise). I am planning on meeting with her next week to discuss in detail
how to keep her in the loop in new hires resulting from business changes (asset management deals or service arrangements)

Let me know what you think.

thanks

bob

Subject: RE: 3rd Quarter Earnings Release Questions

Jennifer:

1. The Mid Market Originations are calculated based on the total QTD P&L of our certain books mutplied by certain percentages (different by book) agreed upon by Tim Belden and Chris Foster early this year. Therefore essentially the $14.9 MM P&L is calculated based on every deal in our LTSW, LTNW, LTCA, LTWMGMT, STSW, STNW, and STCA books. Please let me know if you need the agreed percentages for each book.

2. Please advise where you saw the $7.5 MM bank and legal expenses.

Thanks,

Fran

Subject: 3rd Quarter Earnings Release Questions

Fran,

In reviewing the Management Summary, we had the following questions:

1. We noted that $14.8 million P&L related to Middle Market

Originations
(Foster). Does this relate to a specific deal or several small deals?
2. We noted that $7.5 million direct expenses related to trading
(Belden)-
legal and bank fees. What do these expenses relate to?

If you have any questions, please call me at X6-6269. As earnings
release
is quickly approaching, we would appreciate your prompt assistance.

Thank you,
Jennifer

Stacey,

I think the idea of having two books stinks. We would have to touch every deal every month to move the "prompt" long term month into the short term book. (Ok - we only have five long term deals right now but ...) Maybe I'm over reacting. Do you know of any other instances where this is done to account for risks?

I think a better idea would be to continue with one book using one curve - Pushkar's front end and our curve 3+ years. We keep the Rho & Drift from this book.

The SA traders could then execute trades with Pushkar to hedge our short term exposure. They could tell us the P/L to report and in theory this would be the offset to

the short term Rho in the power book.

Stacey, I believe the below email comes from AA. I would like to run through you my planned answers to them. Please review and let me know if it's appropriate. (John is in Houston for training and I am not sure if he will check email today)

1. The Mid Market Originations are calculated based on the total QTD P&L of our certain books mutplied by certain percentages (different by book) agreed upon by Tim Belden and Chris Foster early this year. Therefore essentially the $14.9 MM P&L is calculated based on every deals in our LTSW, LTNW, LTCA, LTWMGMT, STSW, STNW, and STCA books. Please let me know if you need the agreed percentages for each book.

2. Please advise where you saw the $7.5 MM bank and legal expenses. (Stacey, I am thinking maybe accounting will hold the answer for this question?)

Thanks,

Fran

Subject: 3rd Quarter Earnings Release Questions

Fran,

In reviewing the Management Summary, we had the following questions:

1. We noted that $14.8 million P&L related to Middle Market Originations (Foster). Does this relate to a specific deal or several small deals?
2. We noted that $7.5 million direct expenses related to trading (Belden)- legal and bank fees. What do these expenses relate to?

If you have any questions, please call me at X6-6269. As earnings release is quickly approaching, we would appreciate your prompt assistance.

Thank you,
Jennifer

1222EST
*DJ Cal-ISO: 2 Lines Down Tripped 400 MW Generator Off Grid
(MORE) Dow Jones Newswires 12-04-00
1226EST Forecast Demand May Surpass Record
LOS ANGELES (Dow Jones)-- A 230-kilovolt and a 115-kilovolt line went down near Bakersfield, Calif., Monday morning and tripped a 400-megawatt generator off line, causing a stage one power emergency, a spokeswoman for the California Independent System Operator said.
The identity of the generator, which went off line about 7 AM PST (1500 GMT), wasn't immediately available. One of the two power lines that went down is now back up, but a spokeswoman couldn't identify which line it was.
A total of 10,000 MW is off line Monday, with 7,000 MW off the grid for planned maintenance and 3,000 MW off for unplanned maintenance, spokeswoman Stephanie McCorkle said.
McCorkle said Monday's forecast peak was 34,257 MW, near the record winter peak of 34,432 MW reached Dec. 13, 1999. McCorkle also said there is a good chance Monday's forecast peak could change and surpass the record winter peak.
Electricity forward prices in the Mid-Columbia River hub were higher Monday than they were last summer, when demand outstripped supply. January was trading Monday at $475/MWh, and balance-of-December was trading at $525/MWh. Third-quarter trades were at $250/MWh.
A market participant said the ISO had a call out to buy 3,000 MW of power from outside of California, which is usually done only in emergency situations. But the ISO didn't comment on that.
The stage one emergency, which means operating reserves in the state are below 7%, was expected to remain in effect until 10 PM PST (0600 GMT). McCorkle said she didn't anticipate the state would go to a stage two emergency, when voluntary power curtailments may be instituted for customers who agree to cut power for reduced rates.

Subject: Canada Currency Issues.

Sanjay,
In order to calc our book every day our C$ calc must be able to calc any
USD
deals that are in the book. Currently the book errors out. See postID
7746
deal 473233. The C$ book should take the USD MTM and multiply it by that
day's fx curve in order to derive the C$ amount.

Also, In order to manage our currency exposures there are certain reports
that we are going to need:

Daily Change Report: This report needs to be amended so that p&l due to
currency curveshift is separately stated. This p&l would be calculated
as:
Yesterday's USD position x (today's fx rate - yesterday's fx rate)

Currency position report: This is a report needs to show by month (by day
for the current and prompt month) what our USD and CAD$ position is. Our
USD
position would be the estimated cashflows for all of our deals denominated
is
USD. Our C$ position would be the estimated cashflows for all of our deals
denominated in C$. We will use the USD position report in order to enter
into offsetting currency hedges.

We are going to need this as soon as possible.

Kathy

Subject: Vacation Calendar
Message-ID: <13248082.1075842003870.JavaMail.evans@thyme>
Folder: enron

It appears after looking at the calendar that we need to clarify our vacation policy. When the calendar says no one off early, that also implies that no one should take vacation. There are numerous tasks associated with closing out the prior month and setting up the new month which make those 2 days much busier than the rest of the month. It does appear that the last day of the month is not quite as busy as the first day so we will be monitoring it to ascertain the need for everyone on that day, however, until we make that decision we would like everyone to be here. That being said we all understand unanticipated events and pre planned trips can sometimes interfere with your work schedule we just ask that you take the groups workload into account when scheduling your much deserved vacations.

Another issue that needs to be addressed is the last day of the year and the first business day of the year. Absolutely no one can miss these two days due to the extreme work load. In addition we would like to give everyone the opportunity to have time off around Christmas or Thanksgiving in order to do this we need to see who needs what days off. Please let Casey or I know what your plans are around those holidays. Until we know from everyone it will be hard to allow someone to be off for both holidays. Please let someone know in the future when you are scheduling days off before you enter them in the vacation folder so we can minimize the issues related to too many people being gone at the same time.

Also be wary of your vacation balance and remember that according to Enron corporate policy you can only carry over 40 hours of vacation time, all remaining vacation time will be lost. With that in mind try to schedule your remaining vacation time in the next few weeks so the end of the year doesn't sneak-up on you.

Thank you
Donnie Vinson

I am pleased to announce the formation of the Enron Management Committee. The Management Committee comprises our business unit and function leadership and will focus on the key management, strategy, and policy issues facing Enron. The Management Committee will supplant the former Policy Committee and will include the following individuals:

Ken Lay - Chairman and CEO, Enron Corp.
Ray Bowen - COO, Enron Industrial Markets
Michael Brown - COO, Enron Europe
Rick Buy - Exec VP & Chief Risk Officer, Enron Corp.
Rick Causey - Exec VP & Chief Accounting Officer, Enron Corp.
Dave Delainey - Chairman and CEO, Enron Energy Services
Jim Derrick - Exec VP & General Counsel, Enron Corp.
Janet Dietrich - President, Enron Energy Services
Jim Fallon - President & CEO, Enron Broadband Services
Andy Fastow - Exec VP & CFO, Enron Corp.
Mark Frevert - Chairman & CEO, Enron Wholesale Services
Ben Glisan - Managing Director & Treasurer, Enron Corp.
Mark Haedicke - Managing Director & General Counsel, Enron Wholesale Services
Kevin Hannon - CEO, Enron Global Assets & Services
Stan Horton - Chairman & CEO, Enron Transportation Services
Jim Hughes - President & COO, Enron Global Assets & Services
Steve Kean - Exec. VP & Chief of Staff, Enron Corp.
Louise Kitchen - COO, Enron Americas
Mark Koenig - Exec VP, Investor Relations, Enron Corp.
John Lavorato - President & CEO, Enron Americas
Mike McConnell - President & CEO, Enron Global Markets
Jeff McMahon - President & CEO, Enron Industrial Markets
Jeff Shankman - COO, Enron Global Markets
John Sherriff - President & CEO, Enron Europe
Greg Whalley - President & COO, Enron Wholesale Services

After we convene the Management Committee later this week, I will make a further announcement regarding the Executive Committee.

Dear John,

I am please to hear that you have verbally accepted our offer to join the Risk Management Group reporting to Stacey White. The details of the offer will be outlined for you in a forth coming transfer offer letter. My understanding is that you and your family will be going on a house hunting trip to Portland and upon your return providing us with a start date. We anticipating your start day to be some time in Mid May. I left a message with Lloyd Whiteurst (relocations services) concerning your decision. I recommend you follow up with him to begin setting the ground work for your move to Portland.

I will also touch base with Amy FitzPatrick (HR Portland) and Dawn Doucet (HR
Calgery) to ensure everyone is in the loop regarding your transfer. Please let me know if you have any questions.

Regards,
Frank

Hi Stacey,

Zhiyun Yang has given me your e-mail address recently.

I am interested in your company and would like to meet with you to discuss my background and possibility of joining Enron. My background is diverse: I have five years of experience in financial analysis in banking industry and three years of Risk Management at PacifiCorp. I also have strong computer skills and I am a problem solver. In terms of education, I am pursuing MS in Decision Analysis at Portland State University. I am looking for a position utilizing my analytical and computational skills at a dynamic company such as Enron.

Thank you for your time and I am looking forward hearing from you.

Stacey,

I just got your voice mail, and as a result, I have attached Tim's resume.
I
have let him know that I will be forwarding it to you, so feel free to
contact him at x35496. Thanks for getting back to me so soon!

Thanks
TARA

Subject: Assigned HR Reps.

Message-ID: <9515912.1075852052366.JavaMail.evans@thyme>

Folder: enron

Dear Clients,
In order to better serve your HR needs, Frank and I are splitting up Sally's
EOPS world into two groups. Each group will have a primary contact as defined below. Frank and I will continue to back each other up in order to
make HR services available to you as your needs arise. If either of us is
not available, you may contact the other for immediate response.

Frank deJesus will have primary responsibility for the employees in the following groups:
Bob M. Hall

Jeff Gossett
Stacey White
Sheri Thomas

I will be responsible for the employees in the following groups:
Leslie Reeves
Shona Wilson
Beth Apollo
James Scribner
Mary Solmonson
EnronCredit.Com

Toni Graham will remain as a Staffing Specialist with a focus on Accounting and Risk Management candidates.
Molly Magee will focus on all other disciplines.
Rhonna Palmer will continue to staff non-exempt (hourly) employees.

Norma Yeverino joins our group as a newly promoted Jr. Specialist. Norma will be involved in some Generalist duties and will provide comprehensive reporting capabilities to Sally Beck and her direct reports.

HR Associate, Sunjay Arya will rotate through our group for the next six months, and will focus on special projects. He was recently involved with
the Compensation Team.

Janet de la Paz will continue to provide comprehensive administrative support
for all of us with the same goodwill and professionalism that has helped us in the past.

Frank & I look forward to working with Ryan Seleznov, Sr. Director of HR, effective 2/26/01.

We look forward to serving your HR needs in 2001.

Please forward this to the rest of the employees in your group.

Here's how you can contact us:

Frank deJesus @ ext. 53662
pager: 888-357-7489
cell: 713-854-0945
home: 936-273-2910

Hector G. McLoughlin @ ext. 36703
pager: 888-847-1913

cell: 713-854-0839
home: 713-690-3297

Subject: Media Reports
Message-ID: <15710892.1075842003417.JavaMail.evans@thyme>
Folder: enron

As you know, the U.S. government is investigating hundreds, if not thousands, of relatives, acquaintances and associates of the individuals who may have been involved in the terrorist attacks on Sept. 11. We believe that the media will soon be reporting that one of the many individuals being questioned is an Enron employee in Houston. It is appropriate for us to withhold judgment and to continue to cooperate fully with federal authorities. Because this is a matter in the hands of the federal authorities, we cannot provide additional information at this time. However, we will keep you informed, to the greatest extent possible.

Please keep in mind that thousands of people who may or may not have any information about the terrorist attacks are being questioned as part of this investigation. We continue to have every reason to believe that our employees and facilities are safe. If you have concerns, please call Corporate Security at (713) 345-2804. If you receive any media or external inquiries about this matter, please call Public Relations at (713) 853-5670.

At Enron, diversity is one of our strengths, and we respect and embrace all people of all faiths and beliefs. Please continue to keep our employees who have been impacted by this tragedy in your thoughts and prayers.

Subject: SECURITY TRAVEL UPDATE
Message-ID: <13143649.1075842003451.JavaMail.evans@thyme>
Folder: enron

As we return to our regular business activities following last week's tragic events, we wanted to disseminate as widely as possible the following information on security and travel. Updates will be posted as necessary under "bulletins" on the Corporate Security website located at www.home.enron.com.

We do not believe that any terrorist groups will target Enron's employees or facilities. As a precautionary measure, however, we have increased security in and around our facilities. We urge all employees to maintain a heightened sense of awareness and to immediately report any suspicious activity to Enron Corporate Security in Houston at (713) 345-2804.

All non-essential business travel should be postponed until further notice. Airline schedules and flights will be disrupted for some time - and bomb hoaxes, false alarms, and increased security measures will result in additional delays and disruptions. In addition, all carriers, particularly U.S. carriers and those of U.S. allies such as Israel and NATO member countries, may be at risk for copycat hijackings.

We realize that, as Enron conducts its business, some air travel is unavoidable. Enron employees who wish to discuss their travel options should contact Corporate Security at (713) 345-2804 or via email at CorporateSecurity@enron.com.

U.S. military action in retaliation for the terrorist attacks may result in violent Islamic extremist reactions in a number of countries, particularly in Afghanistan, Yemen, and Pakistan, as well as in Egypt, Iran, Iraq, Israel, Gaza/West Bank, Jordan, Kuwait, Lebanon, Libya, Saudi Arabia, Sudan, Syria and Tajikistan. Reactions could take the form of acts by individuals or organized groups against U.S. government or commercial facilities. All travel to or through these countries should be canceled.

Most of the U.S.' busiest airports have implemented the FAA's stepped-up security measures and are open and operating, with the exception of Washington Reagan National Airport. If you are traveling by air, allow plenty of time to check in under these new security procedures. Contact your carrier directly to find out about flight schedules and specific boarding requirements. You can find more information on the new security

standards as well as a list of airports that have certified they can meet the new security standards on the FAA's website at http://www.faa.gov.

Subject: Editorial: The Afghan people had nothing to do with this atrocity.

The following commentary (forwarded by Yates Hafner) is by Tamim Ansary, a writer and columnist in San Francisco, who comes from Afghanistan:

I've been hearing a lot of talk about "bombing Afghanistan back to the Stone Age." Ronn Owens, on KGO Talk Radio today, allowed that this would mean killing innocent people, people who had nothing to do with this atrocity, but "we're at war, we have to accept collateral damage. What else can we do?"

Minutes later I heard some TV pundit discussing whether we "have the belly to do what must be done."

And I thought about the issues being raised especially hard because I am from Afghanistan, and even though I've lived here for 35 years. I've never lost track of what's going on there. So I want to tell anyone who will listen how it all looks from where I'm standing.

I speak as one who hates the Taliban and Osama Bin Laden. There is no doubt in my mind that these people were responsible for the atrocity in New York.

I agree that something must be done about those monsters.

But the Taliban and Ben Laden are not Afghanistan. They're not even the government of Afghanistan. The Taliban are a cult of ignorant psychotics who took over Afghanistan in 1997. Bin Laden is a political criminal with a plan. When you think Taliban, think Nazis. When you think Bin Laden, think

Hitler. And when you think "the people of Afghanistan" think "the Jews in the concentration camps."
It's not only that the Afghan people had nothing to do with this atrocity.
They were the first victims of the perpetrators. They would exult if someone
would come in there, take out the Taliban and clear out the rats' nest of international thugs holed up in their country.
Some say, why don't the Afghans rise up and overthrow the Taliban?The answer
is, they're starved, exhausted, hurt, incapacitated, suffering.A few years ago, the United Nations estimated that there are 500,000 disabled orphans in
Afghanistan--a country with no economy, no food. There are millions of widows. And the Taliban has been burying these widows alive in mass graves.
The soil is littered with land mines, the farms were all destroyed by the Soviets. These are a few of the reasons why the Afghan people have not overthrown the Taliban.
We come now to the question of bombing Afghanistan back to the Stone Age. Trouble is, that's been done. The Soviets took care of it already. Make the
Afghans suffer? They're already suffering. Level their houses? Done. Turn
their schools into piles of rubble? Done. Eradicate their hospitals? Done.
Destroy their infrastructure? Cut them off from medicine and health care?
Too late. Someone already did all that.
New bombs would only stir the rubble of earlier bombs. Would they at least
get the Taliban? Not likely. In today's Afghanistan, only the Taliban eat;
only they have the means to move around. They'd slip away and hide. Maybe
the bombs would get some of those disabled orphans; they don't move too fast, they don't even have wheelchairs. But flying over Kabul and dropping
bombs wouldn't really be a strike against the criminals who did this horrific
thing. Actually it would only be making common cause with the Taliban--by raping once again the people they've been raping all this time
So what else is there? What can be done, then? Let me now speak with true
fear and trembling. The only way to get Bin Laden is to go in there with ground troops. When people speak of "having the belly to do what needs to be

done" they're thinking in terms of having the belly to kill as many as needed. Having the belly to overcome any moral qualms about killing innocent people. Let's pull our heads out of the sand. What's actually on the table is Americans dying. And not just because some Americans would die fighting their way through Afghanistan to Bin Laden's hideout. It's much bigger than that, folks. Because to get any troops to Afghanistan, we'd have to go through Pakistan. Would they let us? Not likely. The conquest of Pakistan would have to be first. Will other Muslim nations just stand by? You see where I'm going. We're flirting with a world war between Islam and the West.

And guess what: That's Bin Laden's program. That's exactly what he wants.

That's why he did this. Read his speeches and statements. It's all right there. He really believes Islam would beat the west. It might seem ridiculous, but he figures if he can polarize the world into Islam and the West, he's got a billion soldiers. If the West wreaks a holocaust in those lands, that's a billion people with nothing left to lose--that's even better from Bin Laden's point of view. He's probably wrong; in the end the West would win, whatever that would mean, but the war would last for years and millions would die, not just theirs but ours. Who has the belly for that?

Bin Laden does. Anyone else?

Tamim Ansary

Pretty good editorial by Leonard Pitts, Jr. in the Miami Herald...

Published Wednesday, September 12, 2001

We'll go forward from this moment

It's my job to have something to say.

They pay me to provide words that help make sense of that which troubles the American soul. But in this moment of airless shock when hot tears sting disbelieving eyes, the only thing I can find to say, the only words that seem to fit, must be addressed to the unknown author of this suffering.

You monster. You beast. You unspeakable bastard.

What lesson did you hope to teach us by your coward's attack on our World Trade Center, our Pentagon, us? What was it you hoped we would learn? Whatever it was, please know that you failed.

Did you want us to respect your cause? You just damned your cause.

Did you want to make us fear? You just steeled our resolve.

Did you want to tear us apart? You just brought us together.

Let me tell you about my people. We are a vast and quarrelsome family, a family rent by racial, social, political and class division, but a family nonetheless. We're frivolous, yes, capable of expending tremendous emotional

energy on pop cultural minutiae -- a singer's revealing dress, a ball team's misfortune, a cartoon mouse. We're wealthy, too, spoiled by the ready availability of trinkets and material goods, and maybe because of that, we walk through life with a certain sense of blithe entitlement. We are fundamentally decent, though -- peace-loving and compassionate. We struggle to know the right thing and to do it. And we are, the overwhelming majority of us, people of faith, believers in a just and loving God.

Some people -- you, perhaps -- think that any or all of this makes us weak. You're mistaken. We are not weak. Indeed, we are strong in ways that cannot be measured by arsenals.

IN PAIN

Yes, we're in pain now. We are in mourning and we are in shock. We're still grappling with the unreality of the awful thing you did, still working to make ourselves understand that this isn't a special effect from some Hollywood blockbuster, isn't the plot development from a Tom Clancy novel. Both in terms of the awful scope of their ambition and the probable final death toll, your attacks are likely to go down as the worst acts of terrorism in the history of the United States and, probably, the history of the world. You've bloodied us as we have never been bloodied before.

But there's a gulf of difference between making us bloody and making us fall. This is the lesson Japan was taught to its bitter sorrow the last time anyone hit us this hard, the last time anyone brought us such abrupt and monumental pain. When roused, we are righteous in our outrage, terrible in our force. When provoked by this level of barbarism, we will bear any suffering, pay any cost, go to any length, in the pursuit of justice.

I tell you this without fear of contradiction. I know my people, as you, I think, do not. What I know reassures me. It also causes me to tremble with dread of the future.

In the days to come, there will be recrimination and accusation, fingers pointing to determine whose failure allowed this to happen and what can be done to prevent it from happening again. There will be heightened security, misguided talk of revoking basic freedoms. We'll go forward from this moment sobered, chastened, sad. But determined, too. Unimaginably determined.

THE STEEL IN US

You see, the steel in us is not always readily apparent. That aspect of our character is seldom understood by people who don't know us well. On this day, the family's bickering is put on hold.

As Americans we will weep, as Americans we will mourn, and as Americans, we

will rise in defense of all that we cherish.

So I ask again: What was it you hoped to teach us? It occurs to me that maybe you just wanted us to know the depths of your hatred. If that's the case, consider the message received. And take this message in exchange: You don't know my people. You don't know what we're capable of. You don't know what you just started.

But you're about to learn.

LET'S STAND BEHIND OUR COUNTRY AND DRESS IN OUR COLORS TOMORROW.

in memory of all those who perished this morning; the passengers and the pilots on the United Air and AA flights, the workers in the World Trade Center and the Pentagon, and all the innocent bystanders. Our prayers go out to the friends and families of the deceased. Send this to at least 10 people to show your support. DON'T BREAK IT!!!!!! God's speed to all those who
have lost their lives...GOD BLESS AMERICA and the freedom it represents
tomorrow is US pride day, everyone wear US colors (jeans are blue, everyone owns a white t-shirt, etc). try to be wearing as much red white and
blue as you can. send this message to as many other people you know. Lets get
the whole country into it. At least send it to 10 other people.

Please forward this message on to whomever I may have inadvertently missed.

US military's alert status downgraded: Rumsfeld

09/13/2001
Agence France-Presse
(Copyright 2001)

ATTENTION - ADDS quotes, details
WASHINGTON, Sept 12 (AFP) - The US military downgraded its alert status Wednesday as tensions heightened by terrorist attacks on major US buildings a day earlier began to subside, US Defense Secretary Donald Rumsfeld said.
"We've already moved from a force protection condition called Delta, the highest level, down to Charlie, which is the next highest," Rumsfeld told NBC News.
"But we are still at a reasonably high state of alert," Rumsfeld pointed out.
US President George W. Bush ordered troops to be placed on Threat Condition Delta following the attacks on the World Trade Center in New York and the Pentagon building just outside Washington.
Under the alert, immediate restrictions were put on the movements of US troops overseas, military officials said.
All leave was canceled, and soldiers overseas were barred from attending classes, bars and clubs outside their bases.
Rumsfeld confirmed that despite the lowering of the alert status, the US military was carrying out missions which go beyond its normal peacetime operations.
They include, for instance, sending jet fighters to provide protective air cover over an energy complex in Houston, Texas.
"We have a number of so-called cap flights up, as well as some AWACS and some tankers to refuel the interceptors, as well as the other aircraft that are involved," he said. "They're over a number of areas in the country."

The defense secretary said that military aircraft at a number of bases across the country were "on strip alert," ready to respond in the event it would be appropriate.

Subject: Wedding Plans
Message-ID: <29526156.1075842003685.JavaMail.evans@thyme>
Folder: enron

The BIG day is almost here, less than a month away!! I hope everyone is as excited as I am!! I wanted to give you a heads up on times and what is going on for that weekend so you can begin making plans if you haven't already.

Friday August 10
I think some of the guys are getting together to play golf. My dad, grandad, brother, Kevin Galloway, and whoever else will be playing at a location to be decided. If you are interested and will be in Dallas Friday morning, let Kevin or myself know.

The girls will be relaxing and taking care of last minute details (nails, facials, tea, etc...)

Friday night
Please be at the church between 5:45 and 6:00. Traffic can be bad at this time of the evening, so please allow plenty of time. In order to be at dinner by 7:30, rehearsal must start at 6:15. Maggiano's is five minutes from the church so as soon as the rehearsal is over you can start drinking beer again.

Most of our family and Jason and I are staying at AmeriSuites on Friday so if you are staying at a hotel, try to book it there. You need to book by July 27 to get the discounted rate. All the hotel information is on the back of the directions sent with the wedding invitations.

Saturday August 12
Guys: You are on your own, but Jason is not to hang out at the bar all day. (Sorry Kevin, no paybacks!)

Girls: Luncheon is at the Zodiac room at downtown Nieman's. If anyone needs help with transportation, please let me know.

Wedding Time

Guys: Please be at the church by 6:15. You need to come dressed, but

bring your tux coat on a hanger as it will be very hot!! Pictures will be taken with guys and Jason's family before the ceremony.

Girls: Please be at the church by 5:30. You can bring your dresses, but have hair and make up already done. Pictures will be taken with girls and my immediate family before the ceremony.

Vocalists should be there by 6:30 to practice with organist.

House party should be there by 6:45 guest will begin arriving around 7:00.

There will not be a mass (you non-Catholics are off the hook(except Jason!), Catholics will have to go to mass on Sunday!!)

Reception
As soon as the ceremony is over, stay around for pictures. We are only allowed 20 minutes so we will need to be attentive to the photographer so he can make sure he gets all the pictures in the allotted 20 minutes. Everyone will then go to the Tower Club downtown for the reception. We should be there by 8:45, unless we take a detour in the limo!!

Last call will be at 12:30 and there are plenty of places to go out afterwards if you would like. West end and Deep Ellum are a short cab ride away.

I think that is everything. Please feel free to call or E-mail me if you have any questions! Thank you for everyone for being a part of this special time with Jason and I. We look forward to seeing everyone soon!!!

Chris and Jason

Subject:	Global Risk Management Operations Organization Announcement
Message-ID:	<9609537.1075842003722.JavaMail.evans@thyme>
Folder:	enron

I am pleased to announce the following changes in the Global Risk Management Operations organization:

Bob Hall will lead operations for Enron Americas. Bob previously served as one of the business controllers for gas operations for Enron Americas, with direct responsibility for Gas Logistics and Volume Management. The leadership team reporting to Bob will include Peggy Hedstrom (Calgary Operations), Jeff Gossett (U.S. Gas Risk and South America Operations), Stacey White (U.S. Power Risk), Leslie Reeves (U.S. Gas and Power Confirmations and Settlements), and Bob Superty (U.S. Gas Logistics).

Brent Price will continue to lead Operations for Enron Global Markets and fulfill his dual role as Chief Accounting Officer for Enron Global Markets.

I am very pleased to announce that Kevin Sweeney will lead Operations for Enron Industrial Markets. Kevin brings to his new role extensive risk and operations experience from stints in our Houston, London and Singapore offices. Kevin fills the role that was previously held by Brenda Herod, who will now report directly to Beth Apollo.

Beth Apollo will be the Operations Project Manager for the assimilation of EES Wholesale. This will include Deal Capture, Risk Analysis, Confirmations, and Global Data functions which have been moved into EWS under Global Risk Management Operations. Successfully leveraging the infrastructure to support the EES business plan will also require close coordination with Gas Logistics, Settlements and the Operational Analysis (OA) process, and Beth will actively coordinate operations efforts with these teams and the commercial teams. I have asked Beth to project manage the effort to look for opportunities to streamline and improve systems, processes and controls, and to consider alignment, where it makes sense, with existing EWS processes. Reporting to Beth will be Scott Mills, with a focus on Deal Capture, Risk Analysis and Confirmations, and Brenda Herod, with a focus on invoicing control guidelines and reporting requirements.

Beth will also continue to manage the Global Services function, which

includes the consolidated DPR process and Global Operations Standards, led by Shona Wilson, and the Global Data function which is lead by James Scribner.

Mike Jordan will continue to lead operations for Enron Europe, working closely with me and other EWS operations leads to insure the proliferation of best operational practices worldwide for Enron.

Thanks for your continued support especially in exploring and seizing commercial opportunities to strengthen our contributions to Enron.

Rodney,

Our Web site is atrocious. Here is the story, as it appeared in Sunday's paper. I am sending your mom some extra copies today.

David King

"Wa" is a Japanese term meaning unity and team spirit. Every person playing baseball in Japan must have it.
*
- Author Robert Whiting, from his book on Japanese baseball, "You Gotta Have Wa"
,
David King
Rodney Pedraza has gotten wa.*
Oh sure, he's still a gaijin, *an imported player, in the insulated world of Japanese baseball.
But as he starts his third season with the Fukuoka Daiei Hawks* of the Pacific League, the Cuero High School graduate and former University of Texas pitcher has earned the respect of his peers - and developed a mutual respect.
"(The players) know how the system works, how we could be here one year and gone the next," said Pedraza, noting that most non-Japanese players don't stay with teams more than a season or two. "It's hard for them to open up to us, knowing that, but since this is my third year, most have opened up to me."
It doesn't hurt that Pedraza, who never climbed above the Triple-A level in North America, has become the top closer in Japan.
In 1999, he had 27 saves. Last year, he had 35, tying a Pacific League record, and earned the Fireman Award as the league's top reliever.
Pedraza had been a starter throughout his pro career, but the Hawks needed a middle reliever when he joined them early in the '99 season. One night, a pitcher was hit by a line drive, and he wound up throwing the final three innings for a save.
"They asked me if I could close, and I said I would give it a shot," he said. "I told them I didn't have closer stuff, but I would go after guys and throw strikes."
It's worked so far. The combination of a sinking fastball, a slider and amazing control - he walked four and struck out 40 last season - has made him almost automatic for the Hawks, who have gone from the league's doormats to contenders the past two seasons.
The Hawks, managed by Sadaharu Oh,* Japan's home-run champion, won their first Japan Series in 26 years in 1999.

"It was kind of overwhelming for me because it was my first year, I made the All-Star team, I was being successful at something I hadn't done since college ..... and as a team we were in the middle of a pennant race," Pedraza said. "It was over before I could really get a grasp on what was going on."

He got the final strikeout of the Japan Series-clinching game against the Nippon Ham Fighters.

But he admits he was a little puzzled by the postgame celebration, which included the players tossing Oh in the air multiple times, a march around the field with the championship pennant and a solemn ceremony in the clubhouse.

The adjustment to Japanese culture - on and off the field - can be overwhelming for a lot of players, as Whiting wrote in his 1988 book. But Pedraza went to Japan prepared to be flexible.

He got his opportunity through Lee Tunnell, who pitched three seasons in Japan. Tunnell was his pitching coach at the Rangers' Class A team in Port Charlotte, Fla., in 1998, and he recommended Pedraza to scout Shin Mizumori* the next spring.

Knowing he wasn't going to get beyond the Triple-A level with the Rangers, Pedraza, 29 at the time, signed with Mizumori.

He sat down with Tunnell and Mizumori before leaving and got a full briefing.

"They told me to have an open mind and go have fun," Pedraza said. "The culture is very different, but it doesn't affect me that much. I've gotten used to most of it, or at least the things that mean anything to me."

One problem has been the language. Although he has a translator, Pedraza said he misses the camaraderie with his teammates, some of whom speak no English.

"There are some neat guys that I'm missing out on only because I can't speak to them," he said. "I'd like to know about them and what they are thinking, and I can't ask," he said. "We try to talk and just end up smiling at each other and walking away."

His main contact with the English-speaking world is his laptop computer and the Internet. Pedraza, who is single, talks to his mother virtually every day on the telephone as well. She also visits occasionally.

"We've been to Japan his first two years. It's a completely different world over there," said his mother, Imogene Stakes.

Pedraza also takes advantage of his brief offseason - teams that make the playoffs don't finish their seasons until the end of October, and spring training starts Feb. 1.

"That's not much of an offseason, because that's the time I have to spend getting ready for the following year," said Pedraza, who recently bought a home and property near Cuero. "I have to squeeze that in along with my hunting and fishing."

It's not easy, but right now, he wouldn't trade his life.

"I don't miss much about playing in the States," he said. "I am playing a game I love, and it doesn't matter where it is."

Sounds a lot like he's gotten wa.

Here are?Will's latest accomplishments.? He has found his tongue and loves to stick it out.? He is almost crawling - so it won't be long now.
?
Enjoy,
?

Subject: Trading Systems Workshop.

We will be holding a trading systems workshop on Wednesday August 15th from 10:00 to 17:00 in meeting room 42C1.

The following areas will be reviewed with the objective to create a common vision on what the project team will be accomplishing in the next 6 months. Note this is an informational meeting only and will be followed with decisional/scoping meetings in the following weeks.

General Areas that will be reviewed.

Introductions.
Opening remarks. - Kevin Presto/Lloyd Will
Review East Power project team, roles and responsibilities. - Debra Bailey /Lloyd Will
Review Networks team and capability - Steve Nat
Review Regulatory status across the North East, Mid West, South East and Ercot markets. - Andy Rodriguez/Lloyd Will.
Discuss the market that we will be worked on first; North East, Mid West, South East or Ercot. Initial indications are that PJM is the preferred market area.- All
Review risk system gaps identified by business owner. - Casey Evans
Review settlement and volume management system gaps identified by business owner. - Thresa Allen
Review scheduling & trading system gaps identified by business owner. - Corry Bentley

Review next steps and project schedule. - Debra Bailey

Lunch will be arranged - Claudia Guerra - Please send any special diet requests to Claudia.

Please notify me of any additional items or changes we will need for this meeting. Please invite additional additional staff that will assist with this business owners informational meeting.

Attached is an initial org chart and mission statement for your review and refinement. Please indicate if you require a copy of the accenture report to prepare for this workshop.

Thanks.

Stacey:

I received your name from David Oliver in London, who mentioned that you may be able to answer questions for me regarding how we handle tolling for power in relation to order handling. I am a business analyst working with EIM on the Logistics project.

I would like to ask some questions on this to understand how my team might relate it to the steel industry for EIM.

Let me know if this time will work for you. If not, I can reschedule.

Thanks,
Angela

Dan, Please organize a meeting next week (ASAP) as follows:

Topic: Competitive Markets Planning Meeting

Agenda: Discuss results and next steps from Accenture study.

Agree on East Desk Power/IT project focus over the next 6 months.

Assign IT and East Desk owners for each project.

Agree on format and content of documentation needed to secure sponsorship.
(high-level workplans and inception documents - ie... scope, benefit, timeline, resources, etc..)

Agree on timeframe to complete documentation and present to Lloyd, Kevin, and Sally for approval.

Discuss Louise and Lavorato approval requirements, if any.

Discuss post-approval next steps, including staffing options.

Participants: All individuals on cc list and myself

Time: 2 Hours

Dan, You will need to speak with most of these individuals directly to

determine availability. Let me know if you have any questions. Marryott and Poston can join via phone conference.

Thanks, Steve

There were two overlays done in GCP this afternoon. The summary is on top, for details, see the bottom tab, Mar. 2001.

Shortname changes will be made Fri, 04/06/01.

Records will be inactivated on Mon, 04/02/01, in the afternoon.

Have a great weekend!

Cheryl x33103

Subject: Allegheny Energy Supply Company LLC - Merrill Lynch Capital Services, Inc.

Message-ID: <3496065.1075852049971.JavaMail.evans@thyme>

Folder: enron

Almost all trades executed under Merrill Lynch have been assigned to Allegheny. It is my understanding that Merrill will no longer be trading financial or physical power. The deals that Merrill will retain are as follows
217397
425780
513602
517785
528054

If you have questions, please let me know.

CANINE HOLIDAY ETIQUETTE

(Submitted by a "Daily Inspiration" subscriber)

1. Be especially patient with your humans during this time. They may appear to be more stressed-out than usual and they will appreciate long comforting dog leans.

2. They may come home with large bags of things they call gifts. Do not assume that all the gifts are yours.

3. Be tolerant if your humans put decorations on you. They seem to get some special kind of pleasure out of seeing how you look with fake antlers.

4. They may bring a large tree into the house and set it up in a prominent place and cover it with lights and decorations. Bizarre as this may seem to you, it is an important ritual for your humans, so there are some things you need to know:

- don't go to the bathroom on the tree

- don't drink water in the container that holds the tree

- mind your tail when you are near the tree

- if there are packages under the tree, even ones that smell interesting or that have your name on them, don't rip them open

- don't chew on the cord that runs from the funny-looking hole in the wall to the tree

5. Your humans may occasionally invite lots of strangers to come visit during this season. These parties can be lots of fun, but they also call for some discretion on your part:

- not all strangers appreciate kisses and leans

- don't eat off the buffet table

- beg for goodies subtly

- be pleasant, even if unknowing strangers sit on your sofa

- don't drink out of glasses that are left within your reach

6. Likewise, your humans may take you visiting. Here your manners will also be important:

- observe all the rules in #4 for trees that may be in other people's

houses. (4a is particularly important)

- respect the territory of other animals that may live in the house

- tolerate children

- turn on your charm big time

7. A big man with a white beard and a very loud laugh may emerge from your fireplace in the middle of the night.

DO NOT BITE HIM!!

God bless you! Have a great Christmas filled with God's goodness.

Stacey White,

Thank you for your recent order placed through Yahoo! Shopping.
Your order has been received by AllDirect.com and is being processed.
It usually takes 2-3 business days to process an order. When
this processing has been completed, our order department will
send an email to the email address submitted with your order
to notify you that it was shipped. For information on shipping
times, please visit our web site, http://www.alldirect.com/

Your order number for this order is 292606. If you have any questions
or comments about your order, direct them to help@AllDirect.com
(Please include your order number in any correspondence with
us).

Thanks for visiting AllDirect.com

Dear STACEY,

Congratulations!

You have been successfully enrolled in the course
'Fundamentals of Corporate Finance'.

Course details are provided below:

Course Type   : Instructor Led Course
Course Code   : FIN101

Session Code   : 112901
Starting Date   : Nov 29, 2001 8:00 AM
Ending Date   : Nov 30, 2001 12:00 PM

Number of Units : 12
Price   : $700.00

Location   : EB552
                  Enron Building
                  1400 Smith
                  Houston

Meetings   :
      Start Time: Nov 29, 2001 8:00 AM
        End Time: Nov 30, 2001 12:00 PM

No instructors or rooms have been assigned to this meeting.

You will receive a reminder before the session starts.

Thank you.

Message-ID: <21416011.1075852049770.JavaMail.evans@thyme>
Folder: enron

Hi,

As requested, here are the details of the hotel nearest the Oslo Enron office
- it is a 5 to 7 minute walk away.

Scandic Hotel Sj>lyst
Sj>lyst plass 5
PO box 173, Sk>yen phone +47 23 15 50 00
0212 Oslo, Norway Fax: +47 23 15 50 01

The best way to get there from the airport is to use the Airport Express rail
service and to SKOYEN. It goes every 15 minutes and takes about 20 minutes.
You can get tickets at the airport and everyone speaks English.

Any questions please ask James (as I am on maternity leave from tomorrow).

Thanks,
Teresa

Message-ID: <23231393.1075841998636.JavaMail.evans@thyme>
Folder: enron

Hi girls! Just wanted everyone to check their calendars for some upcoming events. Madeline's baptism is going to be Saturday, April 6th during the 5:30pm mass. We plan on having a little celebration at our house afterwards. If you can't make it, we understand, but we'd love to have you come.

We talked about doing Stacey's baby shower the next weekend, April 13 at Kathy's house. Does that date still work for everyone? Let us know soon so we can start making plans.

Talk to you soon.
Angela

P.S. for Chris - If you think you can come for one of the weekends, you should choose Stacey's shower - it won't hurt my feelings! :)

Message-ID:	<10659984.1075841998660.JavaMail.evans@thyme>
Folder:	enron

Dear all,

Your PCs setting for Excel applications is ready for UBS. This afternoon I have run some tests on J.P and Andrea PCs. It look fine. I also copy some pure library file back to the system. However, I have not worked on any other file.

Please let me when the files can be worked.

For DprAutomation with "J9". I make two versions. One is for Estate, (since the environment in UBS are not ready for "J9", then we have to test on Estate). You may have to login as Estate to test it. Another is for UBS. Both of versions are at M:\Power_devl\Test\Swap Liq\.

J.P.,

I have to run for my last bus and am not able to run test and give you answer for your concern about Gas Shift question in new DprAutomation today. I will give you an answer tomorrow.

Thank you!

Min Zheng

Folder: enron

Dear Stacey,

The R21, R22 curves for 2/5 have been copied over. However, there is no 2/6 curves for Estate, so those are not copied. The 2/6 Alberta Post IDs were calculated using Non-Exact curves.

Will the Estate Alberta curves be marked in the future?

Thanks,

Norman.

Dear Kathy,

I have checked your Terminal Server. The setting is ready for UBS. I also copy some pure libary file or application without Enron records back to the system and your Terminal Server.

The Excel Version Position manager is ready for used. DprAutomation has been changed. The changes are on the production files.

Please let us know if there is any problem..

Thank you!

Min Zheng

Dear all,

I have checked John and Fran's Terminal Servers. The setting is ready for UBS. I also copy some pure libary file back to the system. However, I have not worked on any other file.

Please let me when the files can be worked.

Thank you!

Min Zheng

Subject: AIDS Walk 2002

Message-ID: <30031307.1075841998922.JavaMail.evans@thyme>

Folder: enron

Hello everyone!

I hope 2002 is finding all of you healthy and happy. Angela, the girls, and I are well settled now in Katy, TX and enjoying our new home.

I am writing all of you because of an event in which I will be participating next month: The Houston AIDS Walk 2002. I am asking that you assist me in doing all we can to ensure a future without this tragic disease. I (and hopefully the girls) will be walking 3.5 miles on Mar 10 representing everyone who chooses to sponsor me (this is where you all come in).

After having my own children, I have become much more aware of and sensitive to causes that I believe can positively impact the lives of children not as fortunate as mine. The tragedy of this disease and the impact it has on children has motivated me to reach out to all of you in my efforts to do my part for this cause.

In addition to the $100 I plan to donate, I hope to raise $1000 for this event. If I can get just 40 people to donate $25 each I will have met this goal. The proceeds from the walk will benefit the AIDS

Foundation Houston and its partner agencies. Any amount you can donate would be greatly appreciated. If you are unable to pledge at this time, please join me in learning more about this horrible epidemic. The more we all know about it, the better we can help eliminate it.

You can pledge by simply replying to this email with the amount you intend to donate. I will then contact all that have pledged individually to determine payment options/timing.

Thank you some much for your time.

Best Regards,
Brad McDonald

Subject: Access Card Information

Message-ID: <10421869.1075841998959.JavaMail.evans@thyme>

Folder: enron

Dear Colleagues,

We know you have many questions about your new benefits plan, payroll issues and other changes that will occur over the next few weeks. Human Resources and Communications are preparing a thorough Q&A, which we will send to you tomorrow and will regularly update as more information is available.

Meanwhile, please read the announcement below from Security about how you can obtain a new UBS Warburg access card that will allow you to enter our new office space after Friday.

I am confident that you share my enthusiasm about our new opportunity. We look forward to working along side each of you in the coming days.

David Oxley
Head, Human Resources

Access Cards

There will be a two-day transition for the new UBS Warburg access cards. Beginning Monday, February 11, access to the 5th and 6th floors of Enron Center South will require these new cards. UBS Warburg access cards can be picked up from 7 a.m. to 7 p.m. at the reception area on the 5th floor of Enron Center South on Thursday, February 7th ; Friday, February 8th ; and Monday, February 11. Enron Security will produce new access cards with existing photographs, then simultaneously issue the new and collect the old

cards. Employees without UBS Warburg cards will be allowed into the Enron Center South building on Monday but will have to collect their new cards as soon as possible to gain access to the 5th and 6th floors.

Employees who fail to collect their new cards by 7 p.m. Monday will be required to contact Enron Security's general information number at 713-853-5360 to arrange to pick them up.

There will be security staff available at the pick up point on ECS 5 to help with any problems you might have.

It is suggested employees wear their access cards at all times while on the premise.

Accessible Areas - The new cards will allow UBS-W employees to enter:
5th & 6th floors and Plaza area of Enron Center South ,
The Sky Ring
Body Shop, Enron Center North Plaza and therefore access the Credit Union and Cafeteria from either building.

Restricted Areas - Employees must submit to Enron Security a Restricted Access Request form (available by calling 713 8535360) and signed by Bob McAuliffe (713-853-7468) to enter:
Enron Center South, 8th and 9th floors
Enron Center North, 22nd and 34th floor
Ardmore Data Center.

Employees staying with the Enron estate while visa and other issues are completed - Employees in this group who are on assignment arrangements to UBS-W will be issued a regular access card - available in the same way as other new UBS-W employees.

Estate employees who are working with UBS-W on transition issues - If they will be based in UBS-W office space they should talk to their UBS-W counterpart for approval and then UBSW HR for the issue of a UBS-W contractor card (in addition to their regular Enron badge).

Subject: February & March Calendars
Hey You Guys,

Below are the calendars for February and March.

Other News Letter Items:

Spring Festival
This has been moved back to the Mom's Group to organize and do it. Any volunteers will be greatly appreciated, contact Karen Roush. Please respond quickly, as the date of the Spring Festival is March 30th!!

Garage Sale
The garage sale date has yet to be determined, but will hopefully be decided on this week. If anyone knows the date of the Winchester Trails' Garage Sale this year, please let me know, that's when we want to schedule ours.

Cookbook Sale
We still have quite a few cookbooks to sell. If each Mom would take 3-5 cookbooks and ask neighbors/friends/etc we could sell them quickly.

Please help out - call or email Rania Combs 281-807-3944 or raniacombs@houston.rr.com

If I have dates/times/etc incorrect below, please let me know. I plan on sending this in to the newsletter next week.

Thanks!
Michelle

FEBRUARY
Wednesday, February 13: Trip to the Zoo 9:30 am
Hostess: Dianna Hadley 281-477-9804 or dhadley1@houston.rr.com
Meet at the clubhouse at 9:30 am
Don't forget to pack a lunch (or you can buy food there) and sunscreen
Please rsvp to Dianna beforehand so she knows whom to wait for

Tuesday, February 19: Mom's Night Out 6:45 pm
PF Chang's China Bistro 11685 Westheimer Rd (281) 920-3553
Hostess: Laurel Borens 281-723-1342 or underthecs@aol.com
Meet at clubhouse at 6:45 pm
Please rsvp to Laurel by Friday, February 15th

Sunday, February 24: Take the kids to the Imax - Beauty and the Beast
Edwards Houston Marq*E IMAX website: www.edwardscinemas.com
7620 Katy Fwy (713) 263-0808
Hostess: Laurel Borens (281) 723-1342 or underthecs@aol.com
Buy tickets beforehand at Fandango.com or at the cinema - they sell out quickly
Sunday shows 11:30am 1:30pm 3:30pm 5:30pm 7:30pm and 9:30pm
- Call Laurel and we'll decide on the best time to go based on people going
Prices $11 adults and $9 ages 3-11

Wednesday, February 27: Play Group -3:00 pm
Hostess: Laurel Borens 8703 Ballinger Drive 281-723-1342 or underthecs@aol.com
Bring a snack to share

MARCH
Tuesday, March 5: Mom's Group General Meeting 7:00 pm
Hostess: Marta Krautz 8911 San Patrico 281-469-9566 or pugbelle@netscape.net

Wednesday, March 13: Storytime at the Library and Playtime at Bill Bane Park 10:30 am
Hostess: Michelle Chesebro' 281-890-6099 or smchesebro@msn.com

Located on the corner of Gessner and West Little York

Sunday, March 17: Mom's Day at the Movies
Hostess: Deanna Harris 281-890-8313 or deannaharris@houston.rr.com

Tuesday, March 19: Zoo Day 9:30am
Hostess: Michelle Phelan 281-894-2480 or mphelan@houston.rr.com
Meet at the clubhouse at 9:30 am
Don't forget to pack a lunch (or you can buy food there) and sunscreen
Please rsvp to Michelle beforehand so she knows whom to wait for

Tuesday, March 19: Mom's Night Out 7:00 pm
Chuy's Mexican Restaurant 6328 Richmond Ave (713) 974-2322
Hostess: Marta Krautz 281-469-9566 or pugbelle@netscape.net
Meet at clubhouse at 7:00 pm
Please rsvp to Laurel by Friday, February 15th

Friday, March 22: Playgroup/Egg Stuffing Party
Clubhouse 10:00am - 12:00 pm
We will be stuffing eggs for the Egg Hunt. Bring a snack to share.

Saturday, March 30: Easter Egg Hunt and Spring Festival
10:00am - 12:00 pm Clubhouse Grounds. We are needing volunteers for egg stuffing, set up, clean up, and manning booths. Please call Karen Roush at 281-890-4765 or kroush@houston.rr.com

Tuesday, April 2: Open House for all Mom's 7:30 pm to +/- 9:00 pm
Where: Willowbridge/Stonebridge Clubhouse
Hostess: Dianna Hadley 281-477-9804 or dhadley1@houston.rr.com

April (date to coincide w/ Winchester Trails Garage Sale: Garage Sale, Clubhouse
8:00am - 12:00pm
Hostesses: Deanna Harris 281-890-8313 or deannaharris@houston.rr.com
Dianna Hadley 281-477-9804 or dhadley1@houston.rr.com
You may drop off your tagged items at the clubhouse the night before the sale. If you would like to volunteer for Friday night or Saturday, or have any questions, please call Deanna or Dianna.

If you need a Mom's Group Directory, please contact Dianna Hadley at 281-477-9804.

Cecilia-

I have attached our master book request files and have highlighted those books which you mentioned as not having record of:

-----Original Message-----
From: Cheung, Cecilia
Sent: Wednesday, February 06, 2002 2:03 PM
To: Evans, Casey
Cc: Valdes, John; Vinson, Donald Wayne; Dahlke, Andrea; Lewis, Jon Paul; White, Stacey W.; Keiser, Kam
Subject: RE: Revised East Power UBS Book Listing

No, I didn't get any request for the books below. Please send me the request form ASAP so I can set them up on our side.

Thanks,
Cecilia

Subject: RE: Revised East Power UBS Book Listing

We shouldn't have any other new books to be requested, but there are books that we've sent to John previously that I don't see on this list?! They are as follows:

PWR-GAS-PJM
PWR-GAS-ST-PJM
PWR-GAS-ST-NY
PWR-GAS-LT-OPTA
PWR-GAS-LT-OPTB
PWR-GAS-ST-SE
PWR-GAS-LT-ERCT
PWR-GAS-ST-ERCT
PWR-GAS-ST-MW

Please let me know if you have any questions!
Thanks!
Casey

FYI - Currently we have the following books set up in Tagg/Erms and if you have any other new books please email your request to John Valdes then we will set up the new books on our side.

166969	PWR-GAS-CALI	N	N
166965	PWR-GAS-ERCOT	N	N
166973	PWR-GAS-MGMT	N	N
166963	PWR-GAS-MW	N	N
166962	PWR-GAS-NE	N	N
166967	PWR-GAS-NW	N	N
166961	PWR-GAS-OPTION	N	N
166964	PWR-GAS-SE	N	N
166968	PWR-GAS-SW	N	N
166966	PWR-GAS-WMGMT	N	N

Thanks,
Cecilia

Subject: Revised East Power UBS Book Listing

As a result of a number of UBS offer declines, the East Power book organization has several changes in comparison to the book list which was originally set up in GCP and other systems. I am attaching a spreadsheet which details such changes for both the power books and gas books traded by our power traders. Please do not hesitate to call me with ANY questions!!

Thanks!
Casey Evans

Subject: YOU HAVE 48 HOURS - Message from Louise Kitchen

Message-ID: <27907699.1075841999156.JavaMail.evans@thyme>

Folder: enron

It appears that the following email may not have been clear. You have to copy all documents yourself.

This is my cheat sheet if it helps:

H Drives:
1. Each person will have to move any data over personally from the old H drive (which is now Z:) drive to their new H drive.
2. The Z: drive (old H:) will be removed from UBS employees on Thursday night.

O Drives:
1. For the old O or M drives go to O:\ESTATE\ O (or M ? pending location of data) and copy to the new common O. The Estate O and M will be removed from UBS employees on Thursday night.

Do not delete anything and only copy information which is complies with the policy. Please make sure that those people who are not in the office are contacted and comply.

Louise

To: All Enron Employees Transferring to UBS Warburg Energy (or its affiliates)

Under the terms of the various agreements among certain Enron entities and UBS AG, certain Enron data and documents may be provided to UBS. To ensure compliance with those agreements, Enron's document retention policy, as well as directives of various investigative agencies, the attached protocol regarding the process for migration of any information or data to UBS has been developed.

Please review the protocol carefully. Then, complete the attached Certification and return it, with attachments, to Linda Guinn at EB 3829a no later than February 11, 2002.

Questions about this matter may be directed to Michelle Cash at (713) 853-6401 or Francisco Pinto-Leite at (713) 345-7942 .

This is not a circular and you will not get another chance. This deals with migration to new systems and you need to migrate your own information or applications in the next day. Remember do not delete anything and data to be transferred must comply (see attachments below).

The policy must be complied by Thursday. Please ensure that everyone in your group has moved everything which is in compliance with the policy. We will not be delaying close or restart for people not having completed their own migrations.

Please make sure that those people who are not in the office are contacted and comply (eg Dana - please cover Kevin's migration requirements)

Thanks

Louise

Subject: Move Information for the 6th floor
Message-ID: <505219.1075841999211.JavaMail.evans@thyme>
Folder: enron

I just wanted to keep you posted on the information that I know so far about the move. Of course, it could change with in the next five minutes so it's not written in stone.

As of now, the move for the 6 th floor is scheduled for Friday (2/8). Not exactly sure what time this is going to take place yet. Please make sure that everyone is packed and ready by early Friday morning.. If there is someone out on Friday, please make sure they pack before they leave or you have someone pack their stuff for them. Please make sure that everyone cleans out their desk completely. I know that boxes are hard to find right now. If any of you know that you will need quite a few boxes for your groups, please let me know ASAP so I can have them delivered by Thursday . I know that there are some boxes on floor 4 in the South building, so you might want to just go grab some. Labels hopefully will be here Friday morning. Once I get them I will immediately pass them out. I have attached the floor plan for the 6 th floor for those of you that want to know where your groups are going (if you don't know already) . Plus you might want to show it to your groups so they know where to report to on Monday morning.

If you have any other questions please let me know. I will update you as soon as I find out more or if there are any changes to this schedule.

Thanks,
Sonia Hennessy

**************************************************************
Which U.S. city is the focus of Groundhog Day observance?
Visit Punxsutawney, PA in our Geographical Dictionary.
http://www.merriam-webster.com/book/peoplace/geog.htm
**************************************************************

The Word of the Day for February 7 is:

prototype   \PROH-tuh-type\   (noun)
     1 : an original model on which something is patterned
: archetype
     2 : an individual that exhibits the essential features of
a later type
    *3 : a first full-scale and usually functional form of a
new type or design of a construction (as an airplane)

Example sentence:
     The engineers have promised to have the prototype of the
new sedan finished by March.

Did you know?
     The prefix "prot-," or "proto-," comes from Greek and has
the basic meaning "first in time" or "first formed." A
"prototype" is someone or something that serves as a model or
inspiration for those that come later. A successful fund-raising
campaign can serve as a prototype for future campaigns. The
legendary Robin Hood, the "prototypical" kindhearted and honorable
outlaw, has been the inspiration for countless other romantic
heroes. And for over a century, Vincent van Gogh has been the
prototype of the brilliant, tortured artist who is unappreciated
in his own time.

*Indicates the sense illustrated in the example sentence.

Subject: DprAutomation with Financial Swap Liqudation is ready
Message-ID: <25535647.1075841999278.JavaMail.evans@thyme>
Folder: enron

Dear Casey, J.P.

The first version of new DprAutomation with Financial Swap Liquidation and other changes is ready for testing. The set of files is saved at M:\Power_devl\Test\Swap Liq\

Since the driver and folder are moving around at this moment, all files in that folder must be keeping under same folder.

The formula for Swap Liq is the same as previous agreement.

Also Swap Liq have been rewritten. It is automation row. It can pull all files from Unix and without manually pulling them via PortCal. The Calculate time for each pair desk/region also has been cut from about 2 minutes down to about 5 seconds. Total time for adding J9 issue is less 5 minutes at this time.

For roll files, I change some tabs names to match their names in Oracle region name. Otherwise, DprAutomation can't work.

If you really need the regions names as your new rolls file, I am going to find a way to hard code mapping them in DprAutomation. However, we think the best way is setup those change in Oracle database.

All files in that folder are copy files. Any change only affects those copy files.

The tabs names I change in copy rolls are:
R1: NY Zone G -> NY EAST
R1A: PJM West -> PJM
R1C: NY Zone A -> NY WEST
R1D: PJM EASTTERN Hub -> EASTTERN Hub
R1Z: PJM WESTTERN Hub -> WESTTERN Hub
R3B: TVA -> Into TVA
R4C: Comed -> Into Comed

I will continue to test, optimize and polish the Swap Liq and DprAutomation.

Please let us know if there is any correction or any problem.

Thanks!

Min Zheng

Min,

Our latest version of the working roll is in M:\Common\Power\Netco\East\Netco Roll Template Working 1-31.xls

We are waiting on you for final revisions to J9 before we start copying that file to create all of our rolls. Just let me know when its ready tomorrow and thanks for all your help!!

Have a good night!
Casey

Subject: "J9"/latest roll files/DprAutomation

Casey,

I have finished all big pieces of "J9" and other which are related to DprAutomation. I will put all those pieces together.

Since all of us need to log off of our PCs tonight. I can't work tonight. I will try to make the first version before end of tomorrow.

Also, could you let me know where is your latest roll files location. I

need to COPY those files to my PC and have a full test on those COPY files.

BTW, all of our accounts will be switched to UBS. That change may impact PC and Excel setting. I will be my desk < 8 Am. Let me know if there is anything I can do.

Thank you!

Min Zheng

Subject: Information, Please Read: UBSW Energy Migration

Attention UBS Warburg Energy Users:

Please be aware that IT will begin migrations to UBSW Energy this evening. Please log off of your machines tonight.

When you arrive in the morning, you will login with your Enron ID and password. You will be required to change your password immediately.

You will also have an email in your Inbox tomorrow morning explaining your "next steps".

If you have any questions, please call 3-1411.

Thanks,

UBSW Energy Global Infrastructure

Folder: enron

That's fine....as long as we can pull the info on the desk level. Also, we will need to move this report to the Report Launcher within Enpower (i.e. get it out of the Port Calc screen) because we will need to grant access to it to individuals in Accounting and we don't want to give them access to Port Calc. Ideally, we would like to have a screen similar to other reports in the report launcher (i.e. pcs) that would allow us to choose a portfolio, then choose certain or all desks within that portfolio, then choose whether we would like the info on a summary level (i.e. total liabilities and total assets) or a detail level (i.e. liabilities and assets on an individual deal basis within the desk selected). Make sense?!

I'll be out of the office tomorrow, but I'll call and check messages so if this is unclear, you can just leave me a voice mail. Otherwise, I'll be back in the office on Thursday.

Thanks!
casey

Subject: MTM Detail Report Changes.

Dear Casey,

In order to run MTM Detail report by Desk, a Post ID is still needed. Is that acceptable? You will first choose a Post ID, and then select the desks within that Post ID.

Would you want multiple Post IDs at once, too?

Thanks,

Norman.

As of start of business, Wednesday, February 6th, you will have been migrated to the UBSW Energy environment.
Here are a couple of quick tips and reminders to get you going:

? You will log in with your Enron NT ID, this will not change

? You will be asked to change your password, follow the standard Enron rules

? Your desktop will look the same

? Email will not be affected until Day 1, on which you will have your new UBSWE email address

? All compliant data and email should be copied to the UBSWE environment no later than Midnight (CST), Thursday, February 7, 2002 (see Data Migration Protocol email for compliancy direction)

? No data or emails are to be deleted from the system

If you have any questions or concerns, please contact the Resolution Center at x 3-1411

Is there a problem for us to have NETCO in our book names for UBS?! If so, we can change the "NETCO" to "UBS" through all of the systems, or simply delete "NETCO", whichever would be easier. However, if it isn't a problem, I suggest we just leave as is to eliminate any problems we may encounter in attempting to have all of the names changed in all of the associated systems?!

Thanks.
Casey

Importance: High

The Power desks were set up with the identifier as NETCO as part of the name to keep them separate from the old book names. The set up was done originally in the Estate Environ. before the systems were split. The name can be changed to lose the NETCO ref. if need be. Hope this clarifies the many email attachments below!

Andrea,
I'm hearing from David Poston that EOL deals were sent down with old desks (?) that kicked out of EnPower.

David,
Attached is what EOL sent, please verify these loaded.
What data did EOL send down incorrectly? We need to fix for the Wednesday

and Thursday test.

<< File: trans summary 020402 POWER.xls >>

I'm also hearing from Lori that the deals were not scheduled? Who does this, and I assume we need to reschedule for the new data?

Andrea,
Can you verify the spreadsheet of the deals you processed for Power, and send your updates back?

<< File: 0204 Global Data Setup AND transactions.xls >>

Thanks. The goal is to have these settled in Unify for SAP transmission at 1pm.

Subject: EOL - Multiple Trading Books (URGENT)
Message-ID: <5319418.1075841999475.JavaMail.evans@thyme>
Folder: enron

Tim and John, I wanted to touch base with you regarding a problem that we have run into between EOL and a trader having multiple trading books. EOL has been set up to have a trader associated with one and only one trading book in the stack manager. As a result, when creating the interface between EOL and Enpower we can cannot assign multiple trading books to one person. David Poston in the Enpower IT support group in Houston has been working with the EOL group and has come up with a solution.

1. If you definitely plan to be trading on EOL for all trading books associated with your name, EOL IT can define certain products to each trading book. If this is the approach that you would like to take, I will need a list of what products you want to trade and to which trading book they are affiliated with.

2. The other option is that you will just use one trading book under your name. If that is the case, no changes will have to be made.

If the plan is to use the first option, please let me know so we can make the changes and do the necessary testing on this.

John

John/Kam and Donnie/Casey,

Attached is the proposed hierarchy for Day 1 of testing (Wednesday afternoon as I understand) - see "VaR Hierarchy" tab in the spreadsheet. Please confirm that my population of books is complete and accurate.

Thanks, Vlady.

In anticipation of the imminent closing of the UBSW Energy transaction, please have all outstanding employee expenses in your possession filed through Enron's XMS system as soon as possible. Note to approvers - please approve these expense reports quickly. Enron will process and pay all pre-closing expenses. After transaction closing, payments for expenses submitted before closing (and put into Enron's XMS system) will be sent to your last known address or direct deposited into your account.

Enron has committed to processing and paying any expenses incurred prior to transaction closing. If not completed this week, pre-closing expenses should be submitted on a hard copy expense report form which will be available at www.enron.com.

There will be a series of e-mails coming out over the next few days highlighting the Travel & Entertainment policies of UBSW Energy and the procedures for processing and payment.

If you have any questions, please contact Hope Vargas (3-5280) or Georganne Hodges (3-0430).

Subject:	RE: Interest Rate / FX Curves
Message-ID:	<12967977.1075841999649.JavaMail.evans@thyme>
Folder:	enron

Key Issue For Int/FX Process Day 1 :
1) We need a business person in Houston to validate the interpolation process and the business process flow. This needs to be completed today. Jeff Gossett has agreed to do this if no one is yet assigned. He will check with Lavarado to see if they have designated an owner of Int/FX processes. If this person is designated, Jeff will put this person in touch with Brad Merrell to complete this task.

Interest / FX Curves -- The process 'Day 1' is briefly as follows:
1) UBS will Email the officialized curve data at the end of each business day. For now, we will only use the officialized UBS curves. The downside in the short run is that this data won't be recieved until 5:30 PM. We will obviously be working on a process with UBS to accelerate this process.
2) The Int/FX curve data from UBS is not in a monthly format and they cannot generate a monthly format. As such, we have created a spreadsheet that takes these inputs and generates an interpolated monthly curve.
3) These curves will be manually uploaded into ERMS
4) ERMS will feed the downstream systems as it has in the past
5) For those systems that interfaced to Infinity for Int/FX data, we will have to process manual updates. We have identified Laura Scott and Cheryl Dawes in Canada for Unify. We will designate a person to do the same for the SAP system. We will designate a person to do the same process for Enpower. This will be closed today and documented in the process flow.

Upcoming Milestones:
1) The interpolation spreadsheet is completed. It is being unit and string tested and reviewed by IT today. We are ready for a business person to review and approve this now.
2) Brad Merrell is completing the business process flow documentation. Owners of the various steps in the manual process are being defined. This will be completed today. A draft will be sent out and reviewed this PM
3) We will test the process tomorrow in the 'Mock Mock' test as well as the official test on Thursday.

Thanks.

Subject: Interest Rate Curves

Hi,

Is anyone talking to you guys about sourcing end of day Interest Rate Curves for your various risk management systems, or would you like me to arrange for them to be sent to you at the end of each day?

I could arrange for a file containing the OBS (UBSW Interest Rate Derivatives system) yield curves to be e-mailed to you once they are saved every afternoon. The official closes for the USD and CAD LIBOR curves are saved down at around 3:30pm / 3:40pm New York time each afternoon.

The files would contain prices for the swaps, futures and money market instruments that are used to build the curve, and also the corresponding zero coupon rates on a continuous A/365 basis. I guess we would have to talk about the exact form that your systems need the rates to be in to see if any conversion would be necessary.

Cheers,

James

************************************************************
Which U.S. city is the focus of Groundhog Day observance?
Visit Punxsutawney, PA in our Geographical Dictionary.
http://www.merriam-webster.com/book/peoplace/geog.htm
************************************************************

The Word of the Day for February 6 is:

logomachy   \loh-GAH-muh-kee\   (noun)
    *1 : a dispute over or about words
     2 : a controversy marked by verbiage

Example sentence:
     "Quarreling about whether 'mathematics' and 'arithmetic'
mean the same thing is nothing but a ridiculous logomachy,"
Sheila declared stoutly.

Did you know?
     It doesn't take much to start people arguing about words,
but there's no quarrel about the origin of "logomachy." It comes
from the Greek roots "logos," meaning "word" or "speech," and
"machesthai," meaning "to fight," and it entered English in the
mid-1500s. If you're a word enthusiast, you probably know that
"logos" is the root of many an English word ("monologue,"
"neologism," "logic," and most words ending in "-logy," for
example), but what about other derivatives of "machesthai"?
Actually, this is a tough one even for word whizzes. Only a few
very rare English words come from "machesthai." Here are two of
them: "heresimach" ("an active opponent of heresy and heretics")
and "naumachia" ("an ancient Roman spectacle representing a
naval battle").

*Indicates the sense illustrated in the example sentence.

Subject: Marking Curves For Tuesday 2/5/2002.
Message-ID: <30373909.1075841999705.JavaMail.evans@thyme>
Folder: enron

Dear All,

After the Windows Accounts migration tonight, our UBS traders will not be able to access the Estate EnPower Curve Manager. We are going to copy all the existing Curve data and files from the Estate to the UBS servers tonight. This would be the Final copy, so the UBS Curve data is considered Production data.

Starting tomorrow, please let the Estate Traders mark the Estate Curves, and UBS traders mark the UBS Production curves.

Estate Curve Manager will NOT be available between 8:00PM 2/4/2002 and 10:00AM 2/5/2002.

UBS Curve Manager will be available starting 10:00AM 2/5/2002.

Please let us know if there is any questions or concerns.

Regards,

Norman.

PS. Kathy, please contact Min if you need help on Alberta's Excel Position Managers (Curve) files.

Subject: Online Trading Simulation

Message-ID: <9562596.1075841999808.JavaMail.evans@thyme>

Folder: enron

We are continuing work to ensure our new online trading system, UBSWenergy, is ready for launch on the week of Feb. 11, which is the week following the anticipated Enron/UBS Closing Date of Friday, Feb. 8.

To assist in this process, we are planning an online trading simulation for Thursday, February 7 from 0900 to 1100 (CST). It is planned to include all traders, originators, mid/back-office staff and IT teams who would normally be involved with electronic trading.

Purpose of the simulation - The simulation will test our "live" trading environment (restricted to internal access only) and will:

Test the integrity and functionality of the system and related processes (including credit, risk, legal, operations, etc.)
Provide an opportunity for traders to verify their products and product setup
Demonstrate how the trading system and processes work to UBS staff visiting next week

Nature of the simulation - The simulation will include testing of all processes related to trading and mid/back-office functions:

Credit, Legal, Risk, Operations, and other groups:
Profile tests for "external" customers (role-played by Originators)
Profile tests for internal users (traders, back-office, etc.)
Data and Process checking as completed transactions flow through Mid/back-Office systems

Traders and Originators:
Traders will be managing their individual books and associated products. Although we may be restricted to certain financial products on launch day,

both physical and financial will be available during the simulation. Each trader will be asked to manage their individual position and profitability goals for the simulation.
Originators and others will be asked to play the roles of counterparties. Credit limits, etc. will be tested during the simulation.

Information Technology:
Will assist in preparing data on the system for the simulation.
After the simulation is over, will work with the relevant groups to test the trade-data in various systems and risk books
Will ensure all simulation data is removed from the system after the simulation is complete.

Next steps

Traders and Originators will be contacted prior to simulation day to ensure they have appropriate access to the system.
Originators will be assigned specific roles. You should expect to receive an email and/or handout on or before Wednesday, Feb. 6.
UBSWenergy personnel will be meeting with back office personnel over the next several days to ensure everything is in place for the simulation.

Summary

This simulation is an important step towards re-launching our trading business. We appreciate the participation of everyone involved as we prepare for the public launch of UBS Warburg Energy and the UBSWenergy trading platform.

If you have any questions, comments, suggestions, or ideas regarding this simulation, please feel free to contact Bob Shults (30397) or myself (31861).

Regards,
Dave Forster

Subject: UBSW Orientation - Thursday. For those that did not attend the Houstonian Sessions

Message-ID: <26381713.1075841999849.JavaMail.evans@thyme>

Folder: enron

Date: Thursday, February 7th , 2002

Location:

Orientation will be split into two sessions and divided by alpha-order.
Sessions will run 10am-12 pm and 2pm- 4 pm.

We encourage all of you to attend your designated session as valuable
information will be presented, and you will have the opportunity to get
answers to your questions.

You can speed things up tomorrow by filing in the attached forms -
alternatively you can complete them there

10am Session Letters A- K

2pm Session Letters L-Z

Please reply to this e-mail if you will be attending.

Regards,
Neil Davies

Jay,

Here are the dual-access IDs that were requested. I told the IT Teams that they would be reviewed by legal and yourself.

Subject: RE: "Best Practices" Meeting - Tuesday, Feb. 5

Message-ID: <16447431.1075841999900.JavaMail.evans@thyme>

Folder: enron

I hope that all of you will attend this meeting, either in person on via video conference. To make our time productive, please come prepared with the following:

1) List of what we have done well in Operations and will want to repeat as UBS Warburg Energy. This can be in your specific area of responsiblity or broader across all aspects of Operations (running risk books, broker check-out, confirmation prep, execution and tracking, scheduling, volume management, settlements, collections, operational analysis, etc.) .

2) With the luxury of no history and a fresh start, what would you do differently? Please be specific, and again your suggestions can relate to your area of responsibility or may be broader.

3) If you could change or enhance one thing about the operating systems that you use to do your job, what would that be? Please be specific and constructive on this. An answer of "Unify" for instance, will be too broad.

Call me if you have any questions. --Sally

Importance: High

Please plan on attending a "Best Practices" meeting coordinated by Sally Beck on:

Date:	Tuesday, Feb. 5
Time:	11:30am - 1:30pm (lunch included)
Location:	ECS 4075

Scotty Gilbert/John Postathwaite/Peggy Hedstrom - we would like to video conference you in to this meeting. Let me know if your office has the capability; if so, please provide:

1) name of video specialist in your office
2) video specialist phone number
3) conference room number and phone number

All - Please confirm your attendance by e-mail.

Thank you very much,

Subject:	RE: quick question regarding EOL Administration
Message-ID:	<10576835.1075841999925.JavaMail.evans@thyme>
Folder:	enron

John,

Currently, there is no way we can meet this need. The information we get from EOL does not include a desk id and we must determine the id based on the criteria given below.

There are two possible solutions
1) Add one or more other fields as criteria for determining the desk.
2) Have EOL send the desk id in the bridge message.

Although I cannot speak for EOL IT, I suspect that solution 2 would be very involved. I doubt that traders are even able to select a desk when creating a product in EOL. Melba, can you verify this fact?

If option 1 is doable from a business perspective, we will need to discuss further the changes and timeline involved for IT. This issues should be raise in the meeting with Steve Nat tomorrow.

Regards,
Will

Will, due to the changing circumstances, the West and Canada have traders using multiple books, multiple regions for phys and Fin. Can we work around this or make a change that would not be too complicated?

John

Subject: RE: quick question regarding EOL Adminstration

Fran,

All deals from EOL are mapped to a desk in EnPower following these rules:

There cannot be more than one desk for any combination of
Trader
Region
Nature (Phys/Fin)

Therefore, you can have a trader with different books, so long as either the Region or Nature is different.

Let me know if you have any other questions.

Will

Subject: quick question regarding EOL Adminstration

Hi, Duong Luu and Will:

We are trying to add Tim Belden in EOL Adminstration (under Enpower) to be the Trader of "NETCO Long Term Southwest" after I have added him as the trader for "NETCO Long Term California", but I kept getting below error message:

ORA-00001: unique constraint (PWR.PK_DEAL_DEFAULT_DESKS) violated

Is this because we cannot have any individual to be the trader of more than

one west book?

Please advise.

Thanks,

Fran

To prepare for the simulation test that will run this week, can you please make sure the necessary people in your group have the appropriate access to the UBS application to perform their job function. For example, I know that the Reports application was used by most groups and that the risk groups also used the Bridge Monitor application.

Although we are not expecting any problems to arise, please let me know of any issues your group has logging onto the system. Thank you for your help!

Sally/Jeff/Stacey:

Not sure if you've already seen this-did not see you on the e-mail dist list so apologies if duplicative.

Attached is the document from Gabriel/Wes outlining the split of responsibilities per the meeting we had.

I've taken a quick look and seems OK. He did list cash reconciliations as Operations which is correct for the UBSW model, but I don't think we've discussed yet who does this or resourcing....I think its done by someone in Greg Whiting's group. Vito Sabatelli had sent an e-mail to Per on the topic but no update....not sure if you want to take up with Wes as well?

If you have any issues, plse go back to Wes or Gabriel.

thanks
Liliana

Stacey,

This is the latest on the testing of HCS report of PortCalc. Would you still like me to follow up with Norman or somebody else?

Thanks,
Sam

Cc: Lee, Norman
Subject: RE: Testing Request

Hi Sam:

I owed you the answer to this question for too long. Let me make it up.

First of all, Hypothetic curve shift is defined as the difference of Mark-to-Market value between current price curve and current price curve perturbed by specified amount ($1, $2, $3, $4, $10) for peak hours. Note that the off-peak hour curve stays unchanged, but that doesn't mean you can ignore the off-peak part of the deal, since it will have impact on the overall average price.

I think it easier to go through an example to show the point. Please see post id 15936 I set up, in which we will examine a forward deal 896746 for the day 1/18/2002.

The deal is for 24 hours and 25MW/hour. From the spreadsheet below, you can see how the original daily price is $21.33, after $1 shift to the peak hour price, the new daily price is $22, the discount Vol for the day is -598.9833, hence the final hypothetic curve shift is -598.9833 * (22-21.3333), or -399. Same logic to get the hypothetic curve shift for $2, $3, etc.

It follows the same logic for option deals, although the result will not be linear like for swap. There seem to be a unwanted feature in current executable which combined the hypothetic curve shift for different shift into the $1 bucket, we will fix that in future release, but if you want the "right" executable now, you can find it at /home/zyang/pwrcalc_hcs.

Please let me know if you have further questions.

Subject: RE: Testing Request

Hey Zhiyun,

Since I don't have much going on here, I am afraid I need to keep bugging you on this :p. Anyway, I have picked a region that has bigger HCS numbers so that we can notice the difference easier - LTSW R7. I have attached my results for your reference.

>From what I see is, if I am using the right report (Swap Details), and if my formula is right, then the number I got to verify the accuracy of the HCS report is quite different from the actual result.

For example, I took 11/01 and 12/01 to calculate the HSC number using the formula I thought is right. Assuming the HCS is only based on Peak curves and strips:

	HCS # calculated	HCS report
11/01@$1.00	$47,893	($1,413,407)
11/01@$2.00	$95,758	($1,424,161)
12/01@$1.00	$26,701	($1,428,808)
12/01@$2.00	$53,378	($1,278,636)

Again, if you could take a look when you have the time to take a breathe, that would be great!!

Thanks,
Sam

(P.S.: how's everything going in Houston in terms of what people are reacting to the merger? Do you feel a lot of worries around? Portland is ok, people in general are not too worried.....)

Hi Zhiyun,

I have just run a calc again for LT-Cali. I have attached the HCS report and the Swap Detail for R7 for your reference. Based on what you said, should I expect there is HCS figures for 11/01 since I have quite a large MTM value for deals flow during 11/01 (as in Swap Details)? Could you please find out why I don't see any numbers in the HCS report for 11/01?

Or am I missing something?

Thanks!
Sam

To: Law, Samantha; Lee, Norman
Subject: RE: Testing Request

Hi Sam:

Norman was caught up with too many projects recently, let me try to chip in a little.

What the HCS report has is the what if results, that is, how much P&L

change we will see should PEAK HOUR price moves up $1, $2 etc. For example, if your current day MtM is $50,000, if peak price goes up by $1, your MtM will be say 70,000, then the $20,000 difference will be reported in the HCS report.

  Hope this help you get started. I guess HCS report has not been reviewed for quite a while, but I think at least the swap part should still be fine. Please let us know if you notice anything wrong.

Hi Norman and Zhiyun,

As I have bugged you both a little bit about this already, I hope you won't mind helping me even a bit more!! :p Anyway, I ran an unofficial calc earlier today on LT-NW (Post ID: 13923) with the Hypothetical Curve Shift on. It generated the attached HCS report.

My question is, can you give me the formula the PortCalc used to calculate those HCS columns, especially for Swap_HCS? I want to get a better idea of how they are calculated first before I can verify the accurancy of them.

Thank you so much!!

Sam

PS: Zhiyun, I haven't run a mini book on a basis option yet. I thought I should start with the more basic first......thanks for your advice though!

Subject: FW: Testing Request

There is a report in PortCalc - Hypothetical Curve Shift (Monthly) - that I would like someone to review for accuracy. It is meant to have price increments that indicate what curve shift would have been had the curve been adjusted by that increment. In order for this report to be generated, you have to choose the Hypothetical Curve Shift option in PortCalc (see below)
<< OLE Object: PBrush >>

Please let me know who will be doing this analysis and if you need any help.

Thanks,
Stacey

As a follow up to our meeting yesterday, here is a proposed timeline for the simulation which is scheduled for Thursday February 7th between 9:00 am and 11:00 am (Houston time):

Monday February 4th:
Complete preparation of Simulation Events and scripts

Tuesday February 5th:
Credit will provide a list of priority counterparties (anticipated to be approved for launch date)
Online Operations activates all counterparties on priority list in database and inactivates all other counterparties
Credit uses Profile Manager to provide profiles for approved counterparties
RAC inputs Sigma Factors into the database for all active Product Types
Online Operations will issue new application and website User ID's and Passwords to Traders
Online Operations confirms Product Types and Products are in the database
Online Operations confirms Online Contracts are in the database

Wednesday February 6th
Online Operations completes desktop check-ups for all application and website user
Traders access applications and review products and stack relationships
Counterparty User ID's and Passwords will be issued to role players
Credit rolls headroom into online database (evening)
Online Operations confirms database is set to Simulation scripts

Thursday February 7th
Simulation Trading 9:00 to 11:00 (Houston time)
11:00 Emergency shut down of transaction system

11:00 Simulation feedback
11:00 - 3:00 process simulation transactions through mid and back office systems
3:00 - 8:00 Shut down all systems to purge transactions
Credit rolls headroom into online database

Please contact me if you have any questions or concerns on this. Please notify me if any of these tasks are not or will not be completed on the day suggested. Thanks

Hi Stacey,

Thanks for taking a few minutes to speak with me regarding Warrick. This is a little information on our group. Please feel free to call me if there is anything I can help you with in the future. Also, please do not hesitate to forward my name and contact information to others in the industry that may be able to benefit from speaking with a recruiter. Our clients are located here in Houston as well as across the country. I specialize in commercial and commercial support roles. I am currently working on a senior level power risk analyst role here in Houston. If you happen to know anyone that would be interested, please pass along my information.

I wish you the best with UBS. Have a great weekend.

Thanks,

Tricia Womack

Thank you for attending, or sending a proxy too, the UBSWE migration meeting this morning. Wanted to update you with some "late breaking news".

Legal will not have their compliance policy completed by close of business today, therefore we cannot publish all of the information that we covered in the meeting ... therefore we aren't going to migrate anyone on Sunday night as I had previously stated. So we have a little reprieve ....

There is a possibility that we will migrate everyone Monday night ... I will communicate as soon as I hear a definite answer.

We will continue to work through the issues/points you raised today (thank you, by the way).

I do need your assistance on one thing ... if you know of people that are gong to UBS but will have to work to support Estate contracts next week (outside of the schedulers, I already have their names down) could you send me a list of their names?

Much thanks, and have a great Super Bowl weekend ...."stay tuned for more ...."

For those of you I have not told, my brother Eric was recently laid off from Siemens out of Atlanta. He is looking for a sales position, especially in the field of medical devices. He is leaving open the option of moving back to Texas if he is able to find employment here. I am including a brief paragraph he wrote about his experience.

I would love to have my brother, sister 'n law, little niece, and unborn child back in Texas. If you know of any contacts in the medical device field, please let me know and my brother will send them his resume.

Jason, my husband, is still looking for a job also! He is looking for pharmaceutical sales, but is also leaving his options open for other sales opportunities in Dallas!

Thank you for your help during this difficult time!

Hope all is well with everyone!

Chris

>From Eric:
I am an accomplished sales professional with 10 years experience developing and implementing technology-based solutions. I have direct sales experience
with national accounts and have managed a sales force in the Southeastern region of the U.S.

Over the years, I have had outstanding success building and maintaining relationships with key corporate decision makers and I've established large-volume, high-profit accounts with excellent levels of retention and loyalty.

I've spent my entire career with Moore Products Co., which was recently acquired by Siemens. Due to the economic conditions and restructuring at Siemens I am leaving the company and I'm seizing this opportunity to apply my high-tech professional sales skills into the medical device industry.

Do you know anyone in this market that could provide me more information

about companies in this industry or any companies looking for people with
my
skills?

Subject: Curves and Correlations

I have to clean up clustering and curve mappings from Estate to NETCO. Last correlation update was Nov. 29th and I'm assuming we may have some issues. The curves we are rolling into NETCO need to be highly accurate for the last 60 days to ensure variance covariance matrix is appropriate. Please provide me list of curves we are using in NETCO. Identify which curves should be primary and which curves can be secondary. Additionally, please identify if there are any regional constraints that need to be "locked in" between primary and secondary curves. I will then re-run correlations so we can properly understand diversification benefit across wholesale as it relates to proposed VAR limit structures.

Thanks,
Frank

Subject: Interest Rate Curve Load
Message-ID: <20472453.1075842000455.JavaMail.evans@thyme>
Folder: enron

All -

I talked to Zhiyong Wei, who works for Jeff Johnson, and John Lavorato. It sounds like there are a few issues that need to be resolved.

1. Apparently it has been decided that someone (?) from UBS will be providing a curve beginning on day 1. That person has yet to be identified.

2. There will have to be a daily interpolation of the curve into ERMS on a daily basis. This presents a couple of problems. Someone must approve the interpolation, and the official curve does not come out until 5:00 P.M. Central Time. This means that after the interpolation and system load, it would probably be somewhere north of 6:00 PM before we could start our nightly process. A difficult sell to say the least.

3. There are offers out to two interest rate traders in Houston, but we still have not determined whom we will be working with from a Houston perspective. Hopefully, decisions will be made by Monday.

Are you guys aware if there is a preliminary curve that we can use that comes out a bit earlier, and we can just have finance run with the official curve the next day?

Bottom Line : It sounds like they have worked out a process, but not necessarily a great one.

Jeff

Subject: Fw: Super Bowl Story

In a supermarket, Kurtis the stock boy, was busily working when a new voice came over the intercom asking for a carry out at check register 4. Kurtis was almost finished, and wanted to get some fresh air, and decided to answer the call. As he approached the check-out stand a distantsmile caught his eye, the new check out girl was beautiful. She was an older woman (maybe 26, and he was only 22) and he immediately fell in love.

Later that day, after his shift was over, he waited by the punch out clock to find out her name. She came into the break room and smiled softly at him and took her card and punched out and left. He looked at her card - BRENDA. He walked out only to see her start walking up the road.

The next day, he waited outside as she left the supermarket, and offered her a ride home. He looked harmless enough, and she accepted. When he dropped her off, he asked if maybe he could see her again, outside of work. She simply said it wasn't possible. He pressed and then she explained she had two children and she couldn't afford a baby-sitter. So he offered to pay for the baby-sitter. She reluctantly accepted his offer for a date for the following Saturday.

That Saturday night he arrived at her door only to have her tell him that she was unable to go out with him. The baby-sitter had called and canceled. To which Kurtis simply said, "Well, lets take the kids with us."

She tried to explain that taking the children was not an option, but again not taking no for an answer, he pressed. Finally Brenda, brought him inside to meet her children. She had an older daughter who was very cute,

Kurtis thought. Then Brenda brought out her son, in a wheelchair. He was born a paraplegic with Down's syndrome. Kurtis asked Brenda, "I still don't understand why the kids can't come with us?"

Brenda was amazed. Most men would run away from a woman with two kids, especially if one had disabilities. Just like her first husband and father of the children did.

That evening Kurtis and Brenda loaded up the kids, went to dinner and the movies. When her son needed anything Kurtis would take care of him. When he needed to use the restroom, he picked him up out of his wheel-chair and took him. The kids loved Kurtis. At the end of the evening, Brenda knew this was the man she was going to marry and spend the rest of her life with.

A year later, they were married and Kurtis adopted both of her children and since then have added two more children to the family.

So what happened to the stock boy and the check out girl? Well, Mr. And Mrs. Kurt Warner, now live in St. Louis, where he is employed by the St. Louis Rams and plays quarterback.

Offer for Wells Fargo Customers.
Save on your year 2001 Tax Preparation
with Quicken
 TurboTax
 for the WebSM
Save 20%!
TurboTax for the Web is easy, fast, complete--and 20% off!1
Dear Wells Fargo Customer,
As the saying goes, "Out with the Old, In with the New." The New Year, that is. And one of the best ways to get a great start is to do your 2001 taxes online. It's easy, fast and will save you a lot of time and effort. We can help you do it--and save money--by offering you a significant discount on TurboTax for the Web service, the #1 online tax preparation solution. Use this product right now to do your taxes and submit your returns -- all online! We're presenting this offer to you today as a part of our ongoing dedication to helping you manage your financial life.
Why TurboTax for the Web is So Popular
TurboTax for the Web is #1 because it's easy, fast, complete. And it really does let you do your taxes with less pain and more gain!
TurboTax for the Web is easy because it:
- Asks you simple questions and places your answers in
  IRS-approved forms
- Performs all calculations automatically and guarantees accuracy of
  the calculations
- Double-checks for errors
- Files your return electronically at no extra cost
- Instantly transfers federal data to your state returns
- Includes all the forms you're likely to need
Save 20% on TurboTax for the Web
Now through April 15, 2002, save 20% on the full line of TurboTax for the Web products. There's one that's just right to suit your needs:
? RECOMMENDED: TurboTax Premium for the Web: Federal and
  State = $34.30
? REGULAR: TurboTax for the Web: Federal and State = $26.30
? FOR SIMPLE RETURNS: TurboTax EZ for the Web: Federal and
  State = $11.90
PRICES GO UP AFTER APRIL 1 (but you still get your 20% discount)! So

try it today.
To use: click here .
How to receive TurboTax for the Web at 20% Off!
Please follow the instructions below. (Be sure to save this email in case you need to refer to it in the future.)
1. Click on this link: "TurboTax for the Web ".
2. You will be taken to Intuit's Prepare Your Taxes Online page -- just choose the TurboTax for the Web service appropriate for you by clicking on one of the following links:
     ? "Use TurboTax Premium"
     ? "Use TurboTax 1040"
     ? "Use TurboTax 1040EZ"
3. Sign on and use TurboTax for the Web to complete and file your return. (Be sure to write down your Member ID and Password in case you don't finish your return.)
Important: Remember that you must access TurboTax for the Web to complete your tax return from the TurboTax for the Web link in this email in order to receive this special discounted offer!
4. Click the "Continue" button.
5. Pay the remaining balance as instructed on the TurboTax payment page.
To find out answers to Frequently Asked Questions, click here .
Other Wells Fargo Services
Wells Fargo offers more personalized help with taxes, as well. Check out our Tax Resource Center where we have a variety of products and services that may help you earn more deductions and save on taxes.

Things You Won't See On Hallmark Cards...

OUTSIDE: As the days go by, I think of how lucky I am...
INSIDE: That you're not here to ruin it for me.

OUTSIDE: If I get only one thing for Christmas...
INSIDE: I hope it's your sister.

OUTSIDE: I've always wanted to have someone to hold, someone to love.
INSIDE: After having met you, I've changed my mind.

OUTSIDE: I must admit, you brought religion into my life.
INSIDE: I never believed in hell 'til I met you.

OUTSIDE: Looking back over the years that we've been together, I can't help but wonder...
INSIDE: What the fuck was I thinking?

OUTSIDE: I always wanted to be rich, powerful and well-respected.
INSIDE: And while I'm dreaming, I wish you weren't so damn ugly.

OUTSIDE: Sex with you is like using drugs:
INSIDE: Lots of people do it, but nobody's stupid enough to admit it.

OUTSIDE: When we were together, you always said you'd die for me.
INSIDE: Now that we've broken up, I think it's time you kept your promise.

OUTSIDE: The holidays are a great time to be with family.
INSIDE: Of course, your family won't be with you, since I'm taking the kids and moving in with my sister, you cheating bastard!

OUTSIDE: I'm so miserable without you...
INSIDE: It's almost like you're here.

OUTSIDE: If you ever need a friend...
INSIDE: Buy a dog.

OUTSIDE: Congratulations on your new bundle of joy.
INSIDE: Did you ever find out who the father was?

Please note the following changes to traders and what books they will be trading (highlighted in red). There are no longer any management trading books for power or gas. Tracy and John, there will only be one trading book for the st-nw trading area. If there are any issues with this please forward questions to Tim Belden. If there is anyone I have missed on the email that needs this info, please forward it on. To expedite the process for all, Tim Belden will be looking after 2 trading books for the time being. There is no time frame for when a change on this will take place.

Here is a list of the remaining Hourly traders for the West trading region.

Bill Williams
Ryan Slinger
Holden Salisbury
Geir Solberg
Bert Meyers
Craig Dean
Casey Anderson
Mike Mier

For Global and Enpower purposes, please remove the following traders.

Matt Motley
Bob Badeer
Mike Driscoll
Mark Fischer
Tom Alonso

John

Subject: Final Benefits Memo

Message-ID: <8000088.1075842000639.JavaMail.evans@thyme>

Folder: enron

In order for UBS Warburg to timely process your paycheck, I am requesting that all employee's accepting offers return any outstanding forms to my new desk location at 05852 on the 5th floor of ECS (Look for the Hamburg Flag) by noon this Friday 2/01/02. This will prevent any benefit deductions from having to be "Double Deducted" on future checks. Please attach a deposit slip or voided check stub to your direct deposit form. Attached below are the forms needed for payroll/benefits, in case you did not turn these in at Orientation. Lastly, please verify that your EHRonline home address is showing your current home address because all live checks will be mailed to your home residence.

Thanks, Tony Jarrett

Subject: HELP!!! Needed and Wanted!!

An opportunity for us to spend quality time together one last time is here!!

In order to get both of our companies headed in the right direction and in some kind of order we need to do some cleaning!

Please help pack up the desk files for the Estate. UBS employees - this also will include your current Enron business, scheduling, risk files, etc.

Boxes will be delivered Thursday 1/31 tomorrow to locations ECS-05314 and ECS-05119. We need to have this completed by Friday.

When labeling boxes please provide the following information CLEARLY on the end of the box.

Dept/Region/Pipe or Book/Employee Name- Any other information beyond this would be welcome.

If you have any questions, please call me at x33278.

Many Thanks!

Heather Choate

Subject: Trader & Customer simulation for www.UBSWenergy.com
Importance: High

Everyone,

As we prepare to re-launch the website, we're planning a simulation session for our traders and originators for next week (tentatively Monday). This session will be similar to the ones we had before the initial launch of EnronOnline. In brief, the goals are:

Test the integrity/functionality of the system and related processes,
Get everyone re-acclimated with the system and processes (traders, originators, credit, operations, help desk, et al), and
Show how the trading system and our processes work to the UBS staff visiting next week.

In order for the simulation to be successful, we will need to ensure that the simulation environment is exactly like the "live" trading environment. We will need to coordinate with each one of you about what needs to get done to make this possible. I will be sending out an invite for a meeting tomorrow morning. Please make sure you attend to discuss what needs to get done on your end (setting up trader/counterparty profiles, credit headroom, etc.), as this simulation has been requested for early next week. If you have prior commitments, please appoint someone from your group to fill in for you.

Feel free to call me with any questions.

Regards,
Rahil

Subject:	UBS Data Migrations
Message-ID:	<15061983.1075842000941.JavaMail.evans@thyme>
Folder:	enron

I have received several questions from the floor regarding the subject topic. Here is what I know as of 2:00 today. This is an evolving process. Please distribute this note as appropriate:

All movement of 'data' from Enron to UBS is subject to legal approval. Legal is developing policy guidelines that will govern what and how much data individual users and the IT department can move.

Data can be defined as application data (source code, executables, scripts, etc...), business data (curves, prices, deals, weather forecasts, etc...), and office documents (spreadsheets, word files, etc...)

Data is housed in many different places, including desktop C drives, individual network H drives, common file servers (O/M/R/W drives), database servers, application servers, and web servers.

Several steps have already been completed:

The physical file server environments for UBS have been established.
The physical DB server environments for UBS have been established.
The physical application and web server environments for UBS have been established.
Some file server directories have already been copied. This was limited to data (executables, risk excel sheets, etc...) necessary for IT to test our critical applications in the new UBS production environment.
Our large EnPower and TDS Oracle databases were also copied for application testing.

Where do we stand?

I am maintaining, and have distributed to this group, an inventory of all software and hardware components associated with our Power application

portfolio. The inventory includes specific common file server directories that are necessary for our Power apps to run. We have received input from several business owners in this area.
Legal and IT are collaborating on a process for moving file server data. (H/O/M/R/W) We are expecting a process definition within days, given our Day 0 target of February 6th. (legal integration date)
At this time, it sounds like individual UBS employees will participate in identifying files on the various file server drives listed above and signing a document specifying that that data movement adheres to legal policy guidelines. Individuals may even be asked to physically move (drag and drop) files from the old Enron drives to UBS holding drives. This is still under discussion.
We have made some basic assumptions about the amount of business data to be moved to UBS. I have provided Tim, Kevin, and Lloyd an overview of these assumptions. This is also still under discussion.

I will schedule a meeting in the next couple of days to discuss this, and other transition issues, in more detail.

Thanks, Steve

Here is the latest list , but it could change again. I have also attached a list of the gas books we have set up.

LT - NW = MIKE SWERZBIN
LT - SW = MIKE DRISCOLL (pending)
LT - CA = TIM BELDEN
ST - NW = SEAN CRANDALL
ST - NW = DIANA SCHOLTES
ST - CA = CHRIS MALLORY
ST - SW = JEFF RICHTER

Stacey, talked to Tim and all traders can trade all regions. So Mike Swerzbin's trading book is NW but he can trade anywhere in CA or SW. Does that answer your question?

John

Also, will you get Tim to give direction on what traders will be allowed to trade what regions.

Thanks,
Stacey

Subject: Curves to be migrated

Kevin Presto has informed me that they will be trading on only a portion of the curves which are currently in the Curve Manager. As a result, we would like to migrate ONLY the curves that they will be using for UBS trading so as not to take up any unneccessary space. As a result, attached is a list of the EAST curves that we would like migrated to the new curve manager for UBS trading.

John P. - Please provide the guys with a similar list for the West.

Please let me know if you have any questions.

Thanks!
Casey

Postle,

I just did a download from Global Facilities of all the delivery points associated with Mid-C, NP15, SP15 and Rockies. You might want to get with Kara (or someone else in scheduling) to determine which points are still actively used. If you find that you're deleting alot more than you're keeping (as was our case), simply highlight the ones you want to take forward to UBS and send the file to Kim Theriot.

Let me know if you have any questions!
Casey

Andrew-

I have created a draft of our RisktRAC book setup spreadsheet for East Power. Can you take a look at it and see if everything is accurate. One issue I have relates to the 'Trading Location' field. We had previously used 'US Power East', but this is not part of the dropdown menu in the field. Has this location been changed to something else?

Thanks!

Andrea

Kim, as part of the roll out plans we will need a summary report of the close out values for these customers. Can you coordinate with credit, including the utilization of an analyst (if you can find one). to complete this list.

Cash means (receivables, payables positions outstanding).
MTM (the last MTM that we had with a company as we closed out).

The intent of compiling this information is to be able to position ourself for the appropriate conversation with this customer.... (if Enron owes them money, we should know that before we walk in the door).

Pls review and let's discuss....

My apologies if this has been done, but I'm in process of assembling list of products that UBS will be trading. If this list has been compiled, please direct it to me.

I'm interested in getting the greatest granularity possible breaking it out by VaR portfolio name, trader, trading book, commodity, instrument, location, tenor, relative liquidity for each instrument expressed in contract/day (i.e. could impact holding period for VAR) and best risk mitigator. (Regarding best risk mitigator, I'm not looking for liquidating position comments, but rather best hedge given curve location.) This will help in directing correlation efforts for VAR. See attached spreadsheet for suggested format.

Thanks,
Frank

Subject: Summary of meeting items on Day1 Netco RisktRAC preparations

Following is a summary of the action items we discussed. There were two items that came up after the meeting that I have added to this list (benchmark server and Frank's portfolio hierarchy draft).

If I left anything out please respond back to everyone, thanks!

Andrew

x57534

Day1 requirements - RisktRAC operations

1) User List
Need to gather list of all employees that will be using risktRAC for book administration, verify list, then ensure they are setup in the RisktRAC database.
(related to 3) Security Access).

2) Migrate users to Netco
Need to check with network security and/or integration team to find out when the users IDs will be
converted to run on the Netco network. (Dependency for running RisktRAC on Netco).

3) Security Access
Work with Stephanie to follow up with Security on approval for RisktRAC application: confirm groups and approvers. Ensure everyone who does not have RisktRAC will have an e-request submitted.

4) RisktRAC Training
Once users have access to Netco RisktRAC setup timeframe for basic training. If time permits a hands-on overview could also be arranged, as long as someone can access the Netco RisktRAC from their desk (either user or developer).

5) Website connectivity:
Distribute RAC website URL to Netco employees
(confirmed with Bhupesh - http://rac.netco.enron.com)

6) Disable Spreadsheet Position loading:
In RisktRAC disable the ability to load exotic spreadsheets for Day1 users.

7) Day1 Portfolio Hierarchy
(This step can occur before the books are loaded into RisktRAC.)

Review with Frank Hayden the ideal portfolio hierarchy that should be setup, then have users start building the structure without any associations to real portfolios.
The book-portfolio tie-in will occur with action item 8) Day1 Book-setup Spreadsheet.

8) Day1 Book-setup Spreadsheet
a) Discuss timeline for loading Day1 book data from the book-setup spreadsheet;
    Discuss validation issues and cutoff for loading data.

Note expected book counts are 164 for Gas and approximately 55 - 60 for Power.

b) Add two columns in the spreadsheet for portfolio creation and hierarchy placement, have users fill in this data with guidance from IT.

9) Control RisktRAC screen-access
Discuss necessary business groups and screen-access to setup in RisktRAC: Gas Users, Power Users, Credit Users, Market-Risk Users, any other groups that come to mind.

10) Book-creation/Portfolio audit:
Develop simple adhoc report to help audit books that are not associated with portfolios. Discuss validation specifications with Ramesh.

11) Financial checks and balances:
How can reported position/P&L numbers match up with those reported by accounting? Need to find out who owns the accounting reporting and see if some adhoc verification can be implemented.

Known RisktRAC requirements beyond Day1

1) Desktop RisktRAC portfolio security
Review how to implement portfolio-level security in the RisktRAC that is already present on the RAC website.

2) Benchmark Server:
Review with infrastructure how to migrate a copy of the Benchmark Server to a Netco server.
Debbie and Ramesh to discuss further.

Sent: Tuesday, January 29, 2002 2:13 PM
To: Presto, Kevin M.
Subject: RE: Books

As you finalize the personnel issues, any information regarding which trader will be managing each location is extremely helpful. The reason for this is because we must apply the trader to the appropriate product(s) in order to test the system completely. Using the information you provide, we will be able to make sure the traders are set up correctly prior to our go-live date.

Subject: Zhiyun is leaving
Message-ID: <23356470.1075842001360.JavaMail.evans@thyme>
Folder: enron

Dear Everyone:

As some of you might have heard, I gave my one-week notification last Friday, my last day with Enron will be Thursday, 1/31. The reason of my leaving is purely visa status, I have nothing but joy working with you all in the last one and half years, the wonderful experience made the departure a painful decision.

I shall be around in the next few days should you need anything from me. I'd like to thank you all for making my work at Enron such a thrill experience, for your support and friendship, I hope I will have a chance and honor to work with you again in the future.

Good luck to all of us!

- Zhiyun

Casey,

Currently we have the following books set up in ERMTP, and only PWR-GAS-SE has been set up from your list and the others are not found. Also we do not inactivate books on our side. But I think they can be inactivated on Risktrac side.

166969 PWR-GAS-CALI
166965 PWR-GAS-ERCOT
166973 PWR-GAS-MGMT
166963 PWR-GAS-MW
166962 PWR-GAS-NE
166967 PWR-GAS-NW
166961 PWR-GAS-OPTION
166964 PWR-GAS-SE
166968 PWR-GAS-SW
166966 PWR-GAS-WMGMT

John,
Please advise if the books are already set up in Global and I'll set them up in Erms.

Thanks,
Cecilia

Subject: Revised East Power UBS Book Listing

As a result of a number of UBS offer declines, the East Power book organization has several changes in comparison to the book list which was originally set up in GCP and other systems. I am attaching a spreadsheet which details such changes for both the power books and gas books traded by our power traders. Please do not hesitate to call me with ANY questions!!

Thanks!

Folder: enron

With Ken Lay's resignation, you undoubtedly have questions about Enron's management structure and what lies ahead for the company. The purpose of this communication is to begin to answer those questions and lay out the direction we plan to follow as we regroup and rebuild.

First, the Creditors Committee has proposed that the Board of Directors retain an interim CEO to focus on the restructuring process. This is a positive sign that the Committee believes Enron will provide greater value as a viable ongoing business.

The Enron Board of Directors has approved Stephen Cooper as interim CEO and chief restructuring officer. Steve is the managing partner of Zolfo Cooper, a corporate recovery and crisis management firm with more than 30 years experience leading companies through operational and financial reorganizations.

Steve and his firm will work with members of Enron's current management to develop and implement a comprehensive plan to restructure the company and emerge from bankruptcy.

As you know, Enron has entered into an agreement with UBS Warburg for the sale of NetCo, Enron's wholesale gas and power trading organization. In preparation for the transition of NetCo to UBS, Greg Whalley has resigned as president and COO of Enron to assume a position with UBS Warburg. We want to thank Greg and the NetCo employees joining UBS for their contributions to Enron and wish them great success going forward.

In addition to engaging Steve, Enron has formed an Office of the Chief Executive. I will join Steve in that office as president and chief operating officer, and Ray Bowen will join us as executive vice president and chief financial officer.

We will provide additional information regarding the roles and responsibilities of Enron's entire management team once those become more fully defined.

Thank you for continuing to support Enron by performing your job everyday. The ongoing uncertainty about our future, coupled with the constant media

scrutiny, makes this situation difficult for all of us. While no one can control the media, we can and will define our leadership and devise our strategy for moving ahead. And in doing so, we will build a more certain future for our company and our employees.

1. Lloyd can trade any region with 30 day limit and total position limit of 100 MW. Lloyd will do mostly spread trades.
2. Per our earlier discussion
3. Ontario is part of the NE and we plan on having an Ontario market maker. I have to sort this out with Milly. Please stay silent on this one until we get the deal closed.
4.

Subject: additional UBS trading questions

Kevin,

A few questions on UBS trading:

1. What region will Lloyd Will be trading?

2. Who should we set up power futures books for?! (you, Fletch, Dana and Rob?)

3. Regarding the Ontario curve, Stacey has held discussions with individuals in the Calgary office and it has been decided that Ontario trading will now fall under the realm of the Calgary office, not East. As a result, East will not have "ownership" of the Ontario curve. Is this your understanding?!

Last, I am attaching the original book list we had compiled for UBS before offers were declined, and I have highlighted in yellow the traders/books which are no longer going to the new company. Could you please let me know if there will be someone else assigned to these books?! Also, please point out any other modifications which you would like me to make regarding desk structure.

Thanks!
Casey

I have been asked by legal to pull together the MTM value going forward plus the A/R and A/P balances.

Also, anything els that may relate to the counterparties we are still serving.

I know that Dec A/R and A/P are not correct at the moment. Any estimate of cleaning up.

Let's talk today.

thanks

bob

Subject: Review list of users

Debbie,
This is a list of users I think we should start out with in the NETCO databases and our applications. This list of users connect directly to the Oracle database and have access to RisktRAC(VB). Web users need not have an account on the Oracle databases. I have not considered that list at this point in time.

Please take a look at this list and let me know whether anyone else should be added/deleted.

Andrew,
I will be in tomorrow very early. I will leave between 10:45 and 11:00AM. I have to attend a Jeff Johnson meeting.

Regards,
Ramesh

To: Evans, Casey
Subject: J9 issue

Hi Casey:

Sorry we have to go through this J9 question so many times. I think it will help all of us if we can use an example. Let's assume we have a swap deal for 3 days: Sep 1, Sep 2, Sep 3, and the fixed price is 0 for simplicity. Again for simplicity assume the index price for the three days didn't change and stayed as $1. The only thing changed is the volume.

On Sep 1 the volume is 12 MWH
On Sep 2 we backdated the deal for Sep 1 as 10 MWH, and for Sep 2 as 10 MWH
On Sep 3 we backdated the deal for both Sep 1 and Sep 2 as 15 MWH

I'm trying to understand what should go into J9 on Sep 2 and Sep 3 respectively. Can you help me? In particular, should J9 on Sep 3 reflect the true-up for both Sep 1 and Sep 2?

The current J9 formula (the wrong one that is) should shown the financial liquidation on Sep 2 as -2 (=10-12), and on Sep 3 as 10(15+15-10-10).

Isn't that correct?

  Thanks a lot!

- Zhiyun

Make sure all price and volatility curves have been final posted in Curve Manager.

Contact Min Zheng (or whomever will be handling this for the estate) to run the script which writes the curves into the m:\power2\region Excel files (these are used by Structuring, EES and East Price if we were to run it again)

Calculate "East Bankruptcy Calc xx/xx/xx vs yy/yy/yy"
- Run it on 'Official Adhoc Full Book' and do not officialize upon completion
- Use '/prod/egs-home/ermt/bin/pwrcalc_slr.new' as your executable
- email Debbie Brackett, Stephanie McGinnis and John Powell daily with the post-id for the calc

Calculate "Official East Non-Terminated Transactions xx/xx/xx vs yy/yy/yy"
- Run it on 'Official Adhoc Full Book' and officialize upon completion
- Use 'default' as your executable

To run the rolls for Terminated and Non-Terminated books:
- run DPR Automation (m:\common\power\estate\2002\0102\NEW) on both the East and EastBank portfolios separately
- for the EAST-PERF book you'll need to also run DPR Automation on PCS/PID in the morning to pull in the liquidations.
- link EAST-PERF, EAST-NPERF and EPMI-EAST-BANK into the Consolidated Report file
- each day, copy the 'NEW' folder into the 'DATE SPECIFIC' folder and run the 'PRIOR-ESTATE' file located in the 'NEW'
  folder to run each roll's daily change macro

Subject: EnPower NETCO production Security Role
Message-ID: <31027416.1075842001822.JavaMail.evans@thyme>
Folder: enron

All,

Attached file should be a complete list of enpower NETCO applications. Please fill it out for your group and summit it to us. Also you can define a new group of security as well.

There is no need to fill out anything if you happy with the current setup Reports will be available to everyone as before

Regards,
dluu

I am attaching the Form A for Power (East and West combined). I am also attaching a copy of our 11/30 DPR and a reconciliation from the total MTM per the Form A to the life-to-date forward MTM per the DPR (DPR and reconciliation are on two separate tabs).

Let me know if you have any questions.
Thanks.
Casey

Folder: enron

Files were to big to attach so my mail came back undeliverable.

There are two files in O:_Dropbox\gramesh divided alphabetically by counterparty.

Let me know if you have questions.

Debbie

Subject: Positions at 11.30.01

The attached files contain positions and values by counterparty by curve as reported to RAC for cob 11.30.01.
This file was run yesterday so should contain any adjustments made to closing positions on that date.

Please review for accuracy of reporting and respond if you see material differences in your internal reporting.

Hi Stacey:

We were able to pull out the P&L vs Counter Party for the four Post IDs, and the total matched the $986,414,195 you gave, it seems that there are more counterparties than what you included in the spreadsheet. Please see the attached spreadsheet for details.

Could you let us know how the number in your spreadsheet was generated? Was it from DPR or some other spreadsheet? Maybe we can take a look at the query to see if something is missed.

Thanks,

- Zhiyun

-----Original Message-----

To: Yang, Zhiyun
Cc: Lee, Norman
Subject: Post id's for request

The following post-id's represent the re-calcs for 11-30:
15785 - total P&L $48,108,223
15786 - total P&L $(128,887,942)
15788 - total P&L $1,168,735,362
15789 - total P&L $(101,541,449)

The total forward P&L for these post-id's should be $986,414,195

The following spreadsheets represents the final product from our request. Please see if you can pull by the parameters we chose from AdHoc.

<< File: 11-30-01 MTM.xls >> << File: 11-30-01 Positions.xls >>

CHILI COOK-OFFS
> > NOTE: Please take time to read this slowly. If you pay attention to the first two judges, the reaction of the third is even better. For those of you who have lived in Texas, you know how True this is! They actually have a chili cook-off about the time the rodeo comes to town. It takes up a major portion of the parking lot at the Astrodome! You will likely want to read this behind closed doors because, if you are like me, you'll laugh out loud.
